EXECUTIVE SUMMARY:

Clarendon College is required to certify, as part of the 1989 amendments to the Drug-Free Schools and Campuses Act, as articulated in Part 86 of the Drug-Free Schools and Campuses Regulations, that it has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees.

As part of the certification process the Biennial Review Team (BRT) was formed to conduct a comprehensive biennial review of AOD programs at Clarendon College. The key findings of this team are listed below.

1. Clarendon College has a Drug and Alcohol Abuse Prevention Program (DAAPP) in place.
 - a. Implementation of the DAAPP utilizing existing framework began in June of 2015
 - b. BRT recommendations from previous biennial reviews were used to guide the continued implementation of the DAAPP.
2. The BRT found evaluation of the effectiveness of the DAAPP.
 - a. The BRT found a survey of each instructional site for Alcohol and Other Drugs (AOD).
 - b. The DAAPP had goals with measureable objectives.
3. The BRT found the biennial review evaluated the consistency of sanctions imposed for violations of the College's disciplinary standards and codes of conduct;
4. The college distributed a materially complete AOD Program information to academic students and employees.
 - a. The College has been following the framework to distribute the AOD Program information to students and employees.
 - b. The College ensures students and employees who arrive after regular notification are provided the information.

The Biennial Review Team made 2 recommendations for the AOD program as part of the Comprehensive Biennial Review. It is the opinion that successful implementation of the recommendations will keep Clarendon College in compliance with the Drug Free Schools and Campuses Regulations (34 CFR Part 86) of the Drug-Free Schools and Communities Act.

This document has been presented to the Clarendon College Board of Regents at a regular board meeting on October 19, 2023.

INTRODUCTION:

The Drug Free Schools and Campuses Regulations (34 CFR Part 86) of the Drug-Free Schools and Communities Act (DFSCA) requires Clarendon College to certify implementation of programs to prevent the abuse of alcohol and use or distribution of illicit drugs by its students and employees on College property and as a part of any activities. At a minimum Clarendon College must annually distribute the following in writing to all students and employees:

- Standards of conduct that clearly prohibit the unlawful possession, use or distribution of illicit drugs and alcohol;
- A description of the legal sanctions under local, state, or federal law for the unlawful possession or distribution of illicit drugs and alcohol;
- A description of the health risks associated with the use of illicit drugs and the abuse of alcohol;
- A description of any drug or alcohol counseling, treatment, or rehabilitation or reentry programs that are available to employees or students; and
- A clear statement that the institution will impose sanctions on students and employees and a description of those sanction, up to and including suspension, expulsion or termination of employment and referral for prosecution, for violations of the standards of conduct.

Further requirements are for Clarendon College to conduct a biennial review of its program with the following objectives:

- Determine the effectiveness of the Drug and Alcohol Abuse Prevention Program (DAAPP) and relevant policies and implement changes to the DAAPP if needed; and
- To ensure that the sanctions developed are enforced consistently.

The biennial review must also include a determination as to:

- The number of drug- and alcohol-related violations and fatalities occurring on the campuses, or as part of their activities that are reported to campus officials; and
- The number and types of sanctions Clarendon College imposed on students or employees as a results of such violations or fatalities.

Note: The College has policies in place to make the environment less conducive to alcohol and other drugs. The College does strictly ban and strictly enforce these policies. The BRT found clear disciplinary guidelines that are fairly and consistently enforced across all student populations. Current AOD strategies target the DAAPP activities at the traditional resident student population at the Clarendon Campus, which is believed to have the strongest impact and result in an effective AOD program.

The BRT team has included a supplemental check-list from Appendix 6 of the Complying with the Drug-Free Schools and Campus Regulations — A Guide for University and College Administrators. This check-list is included as it demonstrates the College has or is meeting some of the "Best Practices" for a DAAPP at the College. The BRT feels the college has made significant strides in the development and implementation of a comprehensive AOD program.
