INSTITUTIONAL EFFECTIVENESS

1410

The emphasis in evaluating educational institutions has shifted over the past several years to attempt to judge institutional effectiveness, i.e., the success of an institution in achieving delineated and stated purposes and objectives that are outgrowths of a clearly defined institutional mission and purpose. As stated in the College's statement of mission and purpose, the primary responsibility of Clarendon College is to deliver a quality education and/or job training to its students. In order to assure that this responsibility is met, a comprehensive, structured process will be established that will ensure periodic review of the institutional statement of purpose and the goals and objectives that arise from that purpose. Procedures will be instituted that will allow formal evaluation of institutional effectiveness in fulfilling the purpose and achieving the stated goals and objectives.

These procedures will encompass guidelines for institutional research, planning, and evaluation of Clarendon College's success in fulfilling its stated purpose.

STRATEGIC PLAN

1420

Development of a master plan for the College shall be the responsibility of the President who will involve a wide spectrum of participants. Once the strategic plan has been developed, the President shall present it to the Board of Regents for final adoption.

Assessment of the Strategic Plan

An evaluation and review of the Strategic Plan will be conducted annually and is the responsibility of the President.

PERFORMANCE REPORT

1430

In accordance with institutional effectiveness, institutional planning and evaluation, and the Texas Education Code, Section 130.0035, Clarendon College shall as soon as practical after the end of each academic year prepare an annual performance report for that academic year. The performance report shall be presented to the Board of Regents, and thereafter, to any person on request. The report at a minimum shall include the rate at which students completed courses attempted, the number and types of degrees awarded, percentage of graduates who passed licensing exams, the number of students or graduates who transfer to a public university, the passing or success rates of students who participate in remediation, the percentage of students enrolled who are academically disadvantaged, the percentage of students enrolled who are economically disadvantaged, the racial and ethnic composition of the College's student body, and the percentage of contact hours taught by full-time faculty.

Clarendon College will be proactive in ensuring all incidences of substantive changes are reported in a timely manner as required by Southern Association of Colleges and Schools Commission on Colleges. The complete SACSCOC Substantive Change Policy Statement can be found online at <http://www.sacscoc.org/pdf/081705/SubstantiveChange.pdf>

Definition

A substantive change is a significant modification or expansion of the nature and scope of an accredited institution. Under federal regulations, substantive change includes:

- Any change in the established mission or objectives of the institution
- Any change in legal status, form of control, or ownership of the institution
- The addition of courses or programs that represent a significant departure, either in content or method of delivery, from those that were offered when the institution was last evaluated
- The addition of courses or programs of study at a degree or credential level different from that which is included in the institution's current accreditation or reaffirmation.
- A change from clock hours to credit hours
- A substantial increase in the number of clock or credit hours awarded for successful completion of a program

- The establishment of an additional location geographically apart from the main campus at which the institution offers at least 50% of an educational program.
- The establishment of a branch campus
- Closing a program, off-campus site, branch campus or institution
- Entering into a collaborative academic arrangement that includes only the initiation of a dual or joint academic program with another institution
- Acquiring another institution or a program or location of another institution
- Adding a permanent location at a site where the institution is conducting a teach-out program for a closed institution

Entering into a contract by which an entity not eligible for Title IV funding offers 25% or more of one or more of the accredited institution's programs **College Responsibilities**

It is the responsibility of Clarendon College to follow SACSCOC substantive change procedures and inform SACSCOC of substantive changes as specified in those procedures. If the College is unclear as to whether a change is substantive in nature, the College president or accreditation liaison should contact SACSCOC staff for consultation. SACSCOC accredits institutions, not systems. Failure of the College to gain approval for substantive changes involving programs that qualify for federal financial assistance could result in the institution jeopardizing such funding.

Agreements Involving Joint and Dual Academic Awards

In the event Clarendon College seeks to enter into any agreements between accredited or non-accredited degree-granting institutions of higher education throughout the world for the purpose of awarding certificates, degrees, or diplomas the College recognizes prior approval in required before implementation. Direct Assessment Competency-Based Educational Programs

Because the initiation of a direct assessment or a hybrid program constitutes the addition of courses or programs that represent a significant departure, either in content or method of delivery, from those offered when the College was last evaluated, each direct assessment competency-based program is considered a substantive change that requires approval by SACSCOC Board of Trustees through the substantive change procedures. The following characteristics may be used as tool to aid in the determination if a program is a direct assessment competency-based educational program.

Characteristics of a Direct Assessment Competency-Based Educational Program

A direct assessment program has several characteristics:

1. It does not subscribe to conventional notions of the clock hour, seat time, term length, or the credit hour; rather, it relies on the student's ability to demonstrate clearly defined and measurable competencies in a designated program.
2. It is designed and delivered within the framework of the program's defined knowledge, skills, and competencies as demonstrated by students, rather than in terms of prescribed courses.

3. A student may acquire the requisite competencies from multiple sources and at various times other than, or in addition to, the learning experiences provided by the institution. As such, the length of time it takes to demonstrate learning may be different for each student.
4. It often allows for alternative approaches to teaching and learning.
5. It may rely almost exclusively upon students using direct assessment testing models to demonstrate their mastery of program and degree content.

The College seeking to operate with integrity in all matters, including the maintenance of academic quality in the establishment of a direct assessment competency-based educational program will comply with the following practices and procedures:

1. Adhere to initial obligations and expected framework;
2. Ensure compliance with appropriate SACSCOC requirements and standards outlined in the *Principles for Accreditation* and with Commission policy; and
3. Follow procedures for the notification and approval of the substantive change.

Reporting specifics may be found on the SACSCOC website at:

<http://www.sacscoc.org/pdf/081705/DirectAssessmentCompetencyBased.pdf>

Mergers, Consolidations, Change of Ownership, Acquisitions, and Change of Governance, Control, Form, or Legal Status

In the event the College seeks to;

- initiate a merger or consolidation with another institution;

- change the manner of governance, ownership, control, or legal status;
- acquire any program or site from another institution; or
- add a permanent location at a site where the College is conducting a teach-out for students from another institution that is closing.

The College will provide prior notification to SACSCOC at least six months before the review date and submit required documentation. The College recognizes this type of substantive change requires a site visit.

In developing the College’s records retention schedule, the records management offices, in conjunction with the Records Management Committee, shall ensure the records retention is consistent with the applicable minimum retention schedules adopted by the State Library and Archives Commission www.tsl.state.tx.us/slr/recordspubs/localretention.html. Any destruction of records of Clarendon College will be in accordance with these schedules and the Local Government Act.

Electronic Storage

COMPUTER USE - GENERAL

1580

(Updated 8-15-2013 TACC Policy Update #28 EDA & Local)

The computing resources at Clarendon College are provided for the use of Clarendon College students, faculty, and staff to support the educational programs, instructional activities, academic research, and administrative functions of the College.

These resources are intended for the sole use of the College students, faculty, staff, and other authorized users, who are responsible for seeing that these computing resources and facilities are used in an effective, efficient, ethical, and lawful manner. The following policies and guidelines relate to all computing resources and their use.

All Clarendon College systems are subject to periodic, unannounced security audits. A violation of any of these policies subjects the user to disciplinary procedures at Clarendon College and referral to the appropriate law enforcement or investigative agency outside the College.

Ethics and Responsibilities

1. Users may use only the computing resources they are authorized to use and only for the purposes specified when their accounts were issued or permission to use the resources (i.e., microcomputers) was granted.
2. Accounts (IDs and passwords) are approved and issued by Information Technology. Accounts are issued to individuals and are intended for the sole use of that individual. An account assigned to an individual is not transferable and may not be used by others without explicit permission from an instructor, an administrator, or Information Technology. The individual to whom the account has been issued is responsible for the proper use of the account, including password protection. The individual to whom the account has been issued is responsible - and will be held accountable - for ALL usage on that account (including use by other persons). Account holder shall keep their keywords and passwords

confidential to protect themselves and their files. Users shall not give or sell passwords to others.

3. Users shall not access or copy software or data belonging to others or to Clarendon College without prior authorization. Users shall not transport software or data provided by Clarendon College to another computer site without prior written authorization. To do so constitutes theft.
4. Computer software protected by copyright is not to be copied from, into, or by using campus computing facilities, except as permitted by law or by contract.
5. Users shall follow the published procedures for using the College's computing resources and shall not modify any hardware or software provided by the College.
6. Users shall respect the rights of other users. A user shall not hamper or deprive another of access to resources or encroach on another's use of computing facilities. Users shall consider the impact of their conduct on other users.
7. The same standards of intellectual honesty and plagiarism apply to computer resources, computer programs, and files as to other forms of published work.

Computer Security and Privacy

Computer abuse is currently covered by Federal laws:

- Computer Fraud and Abuse Act of 1986
- Electronic and Communications Privacy Act of 1989

The state statute for computer abuse is:

- Chapter 33, Computer Crimes Texas Penal Code

The security policy adhered to by this College is as follows:

1. All faculty/staff employees and students shall be responsible for complying with this policy on computer security and privacy.
2. The College President shall appoint an administrator responsible for developing and maintaining College regulations and procedures regarding security and privacy of computer data, software, and hardware.
3. Any student's or faculty/staff employee's use of College computing facilities is a privilege that shall be revoked for violation of this policy, regardless of the need for computer use in performing assigned duties.
4. Any student or faculty/staff employee (regardless of employment contract or tenure status) found to be involved in infractions of this policy, College policy, or civil or criminal laws regarding College computer security and privacy shall be subject to disciplinary actions including, but not limited to, revocation of computing privileges, suspension, dismissal, prosecution, and restitution for damages. Involvement, as used here, includes, but is not limited to, participating, encouraging, aiding, or failing to report known infractions.
5. Programs and files are confidential unless they have explicitly been made available to other authorized users. However, Information Technology reserves the right to monitor all computer resources to protect the integrity of its computing systems, computing software, workstations, and lab facilities. Information Technology personnel may access others' files when necessary for the maintenance of the

computer systems. When performing maintenance, every effort will be made to insure the privacy of a user's files. However, if violations are discovered, the violation(s) will be reported immediately to the Director of IT and Dean of Administrative Services.

6. Some jobs or activities of the College involve access to resources critical to computer security and privacy. The College may require faculty/staff employees or students involved in these jobs or activities to disclose personal histories, participate in special training, and/or sign special agreements concerning computer use.
7. All passwords for the College's computing systems will comply with the college's password policy.
8. All security privileges will be set to the level as determined by each dean or department head and implemented by the administrator. If an employee's employment with Clarendon College has been terminated the administrator will be notified by that employee's department head or dean immediately so the account can be immediately disabled and or deleted.
9. All accounts will be reviewed at the end of the year by the administrator. The administrator will query the various department heads and deans for any personnel changes in their area. The administrator will then check for validity and current security privileges using the queried information. Any additions, changes or

deletions to user accounts throughout the year will be made in accordance with the Clarendon College Change Policy.

10. All students and faculty/staff employees shall cooperate with official state and federal law enforcement authorities in aiding the investigation and prosecution of any suspected infraction of security and privacy involving either College personnel or College computing facilities.

11. Clarendon College makes every effort to ensure the integrity of its various systems. All computer systems available to users offer some form of dataset protection which can be modified by an authorized user as needed. However, none of the systems offer absolute security. Therefore, users should not place sensitive information on a publicly accessible system. Clarendon College, nor Information Technology cannot, under any circumstances, be held liable for the consequences of such actions. Further, the College does not take responsibility for the safe storage of student files. Students must keep their own copies of any information that is important to them. Clarendon College is not responsible for any loss of information from college computers or networks, regardless of the cause.

Misuse or Abuse of Computer Network, Equipment, Programs, or Data

Please refer to Security Breach Notification.

1. Unauthorized use of computing resources or use of computing resources for unauthorized or nonacademic purposes.
2. Unauthorized accessing or copying of programs, records, or data belonging to the College or another user, or copyrighted software, without permission.

9. Allowing another person, either through one's personal computer account, or by other means, to accomplish any of the above.

10. The following types of activities are some examples (the list is not meant to be inclusive) of behavior that are considered unethical and unacceptable, and in some cases may violate state or federal law:

- a. Attempting to alter system software or hardware configurations.

Security Breach Notification

This policy is intended to ensure that all Clarendon College personnel are aware of the college's responsibilities under the law.

This policy governs the actions of any Clarendon College official (defined below) who discovers or is notified of a breach or possible breach of the security of unencrypted personal information collected and retained by Clarendon College as computerized data.

This breach can be the result of a compromise of a Clarendon College computing system or network, the loss or theft of any physical device in which personal information is stored, or the loss or theft of any storage medium upon which personal information is maintained.

Clarendon College maintains computerized data on various college systems which includes personal information. If the security of any Clarendon College system storing or processing computerized data that includes unencrypted personal information is compromised, the owner or licensee of that information must be notified by the college of the breach of the system if the information was, or is reasonably believed to have been, acquired by an unauthorized person.

This disclosure shall be made as expediently as possible following discovery or notification of the breach—without unreasonable delay and consistent with any measures taken to determine the scope of the breach and restore the integrity of the affected data

system. This notification may be delayed if a law enforcement agency determines that the notification will impede a criminal investigation. In that case, the notification may be made after the law enforcement agency determines that such notification does not compromise an ongoing investigation.

Good faith acquisition of personal information by a Clarendon College official with a legitimate educational interest in the data or information is not a breach of the security of the system when the personal information is not used or subject to further unauthorized disclosure. Clarendon College is not required to disclose a technical breach of system security which does not seem reasonably likely to subject the owners of personal information stored on those systems to a risk of criminal activity.

RESPONSIBILITIES

All college officials have a duty to comply with and to understand their responsibilities as expressed in this policy. Certain Clarendon College administrative personnel also have additional responsibility for maintenance and for execution of this policy. These additional responsibilities include:

Change Process

The primary goal of the IT change management policy is to accomplish Information Technology (IT) changes in the most efficient manner while minimizing the business impact, costs, and risks. All IT change with Clarendon College will be documented in the college's selected technology platform. To achieve this, the change management process includes the following primary steps (note that all information collected in the steps below is documented in a Change Record created in the college's selected technology platform):

1. Formally Request a Change. All requests for change will be communicated to the Director of IT within the college's selected platform.
2. Categorize and Prioritize the Change. The Director of IT will assess the urgency and the impact of the change on the infrastructure, end user productivity, and budget.
3. Analyze and Justify the Change. The Director of IT works with the change requestor to develop specific justification for the change and to identify how the change may impact the infrastructure, business operations and budget. The Director of IT uses this information to further research and develops a risk and impact analysis. When completing the analysis of the change, the Director of IT must ensure they consider the business as well as the technical impacts and risks.
4. Approve and Schedule the Change. The Director of IT will discuss the change request with the change requester's supervisor and the Dean of Administrative Services for approval or rejection of the change.
5. Plan and Complete the Implementation of the Change. The process included developing the technical requirements, reviewing the specific implementation steps and then completing the change in a manner that will minimize impact on the infrastructure and end users.

Purpose and Scope

- The purpose of this policy is as follows:
 - To safeguard the information assets of Clarendon College
 - To prevent the loss of data in the case of an accidental deletion or corruption of data, system failure, or disaster.
 - To permit timely restoration of information and business processes, should such events occur.
 - To manage and secure backup and restoration processes and the media employed in the process.
- This policy applies to all servers in the Information Technology (IT) Data and Telephone Centers.
- The retention periods of information contained within system level backups are designed for recoverability and provide a point-in-time snapshot of information as it existed during the time period defined by system backup policies.
 - Backup retention periods are in contrast to retention periods defined by legal or business requirements.
 - Cloud retention period is 30 days.
 - System backups are not meant for the following purposes:
 - Archiving data for future reference.
 - Maintaining a versioned history of data.

Policy

- Systems will be backed up according to the schedule below:

- Exchange Mailbox stores will be regularly backed up as follows:
 - All data is backed up to a local set of disks using StorageCraft ShadowProtect. For both Clarendon and Pampa.
 - All necessary system states are backed up for domain controllers and Exchange servers.
 - Exchange mailboxes are backed up.
 - All data is backed both locally and remotely.
 - Locally the data is backed up to a large box of disks.
 - The consolidated daily backup is backed up to the StorageCraft Data Center Cloud Services at midnight.
 - Exchange backups run hourly from 8AM to 6PM. Offsite replication runs nightly.
- MoodleRooms will be regularly backed up as follows:
 - All data is backed up on a Monday, Wednesday and Friday schedule
 - MoodleRooms Jule handles all backup functions, schedule and settings or set by the Director of Information Technology (IT).
 - MoodleRooms is a cloud service. The servers are located in Plano, Texas.
 - MoodleRooms Production Site backups are accessed via Firezilla SFTP and are copied to a local server at the end of a term.
- POISE has been retired and is no longer backed up.

- All previous backups are maintained in the vault.
- Windows Servers (both physical and virtual) will be regularly backed up with StorageCraft ShadowProtect as a full image backup as follows:

 - Files based backups run hourly between 8AM and 6PM. Offsite backups run nightly.
 - All SQL DBs are backed up. SQL includes CAMS and Great Plains accounting.
 - SQL backups run hourly between 8AM and 6PM. Offsite replication runs nightly.
 - All hourly image backups are consolidated to a daily backup and then backed up to the StorageCraft Data Center Cloud Services.
 - The consolidated daily backup is backed up to the StorageCraft Data Center Cloud Services at midnight.
- The Telephone system will be backed up as follows
 - Regularly on the first Monday of each month.

- In certain circumstances when many changes have been made.
- Backup is made to a flash drive and is stored in the Business Office vault.
- The telephone backup file is also a part of the normal file backup process.
- Media will be retired and disposed of as described below:
 - Prior to retirement and disposal, IT will ensure that:
 - The media no longer contains active backup images
 - The media's current or former contents cannot be read or recovered by an unauthorized party.
 - With all backup media, IT will ensure the physical destruction of media prior to disposal.
- Backups will be verified periodically.
 - On a daily basis, logged information generated from each backup job will be reviewed for the following purposes:

 - IT will identify problems and take corrective action to reduce any risks associated with failed backups.

- Random test restores will be done once a week in order to verify that backups have been successful
- IT will maintain records demonstrating the review of logs and test restores so as to demonstrate compliance with this policy for auditing purposes.
- Data Recovery
 - StorageCraft ShadowProtect has restore capability.
 - If a file/folder is deleted accidentally or becomes corrupted we can easily restore it in its entirety from the local set of disks by mounting a point in time snapshot as a mapped drive.
 - Server restores depend on the server needing restored.
 - If it is a hyper-v virtual server we can restore the entire server from the set of disks as we backup entire snapshots of virtualized servers.
 - If the server is a physical server then we will procure new hardware, boot to the StorageCraft ShadowProtect recovery environment, and use hardware independent restore to recover the full server from the latest point in time snapshot.
 - In the event of a catastrophic system failure, off-site backed up data will be made available to users within 3 working days if the destroyed equipment has been replaced by that time, see Disaster Recovery Plan.
 - In the event of a non-catastrophic system failure or user error, on-site backed up data will be made available to users within 1 working day.

- Restoration Requests
 - In the event of accidental deletion or corruption of information, requests for restoration of information will be made to Run Biz or the Director of Information Technology.

Responsibilities

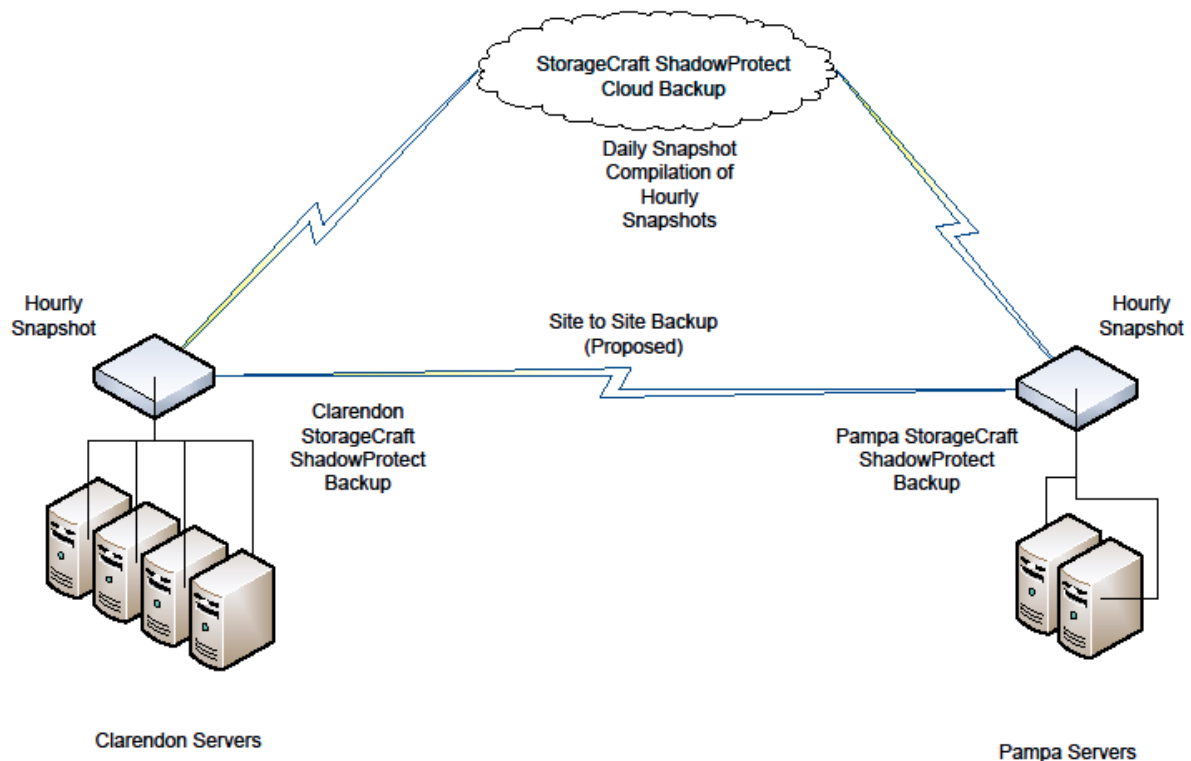

- Backups and Data Recovery, Run Biz, 322-2150
- POISE and Telephone System Backups, Director of Information Technology, 874-4816
- Verification, Run Biz, 322-2150
- Log Maintenance, Run Biz 322-2150

Definitions

- Backup Retention - the amount of time in which a given set of data will remain available for restore.
- Domain Controller - is a server that responds to security authentication requests (logging in, checking permissions, etc.) within the Windows Server domain.
- Incremental Backup - a backup that only contains the files that have changed since the most recent backup (either full or incremental). The advantage of this is quicker backup times, as only changed files need to be saved. The disadvantage is longer recovery times, as the latest full backup, and all incremental backups up to the date of data loss need to be restored.

- Full Backup - a backup of all (selected) files on the system. In contrast to a drive image, this does not included the file allocation tables, partition structure and boot sectors.
- Disk Image - single file or storage device containing the complete contents and structure representing a data storage medium or device, such as a hard drive, tape drive, floppy disk, CD/DVD/BD, or USB flash drive.
- Site to Site Backup - backup, over the internet, to an offsite location under the user's control. Similar to remote backup except that the owner of the data maintains control of the storage location.
- Cloud Storage – A service model in which data is maintained, managed and backed up remotely and made available to users over the Internet.

Policy Statement

Maintaining the security, confidentiality, integrity, and availability of information stored in the College’s computer networks and data communications infrastructure (“College systems”) is a responsibility shared by all users of those systems. All users of

Clarendon College systems are responsible for protecting those resources and the information processed, stored or transmitted thereby as set forth in this policy. Violations of this policy may result in disciplinary action up to and including termination or expulsion.

Reason for Policy/Purpose

Information is a vital College asset and requires protection from unauthorized access, modification, disclosure or destruction. This policy sets forth requirements for incorporation of information security practices into daily usage of College systems.

Policy/Procedures

Users of College systems are responsible for protecting the information processed, stored or transmitted over or on those systems, and for incorporating the following practices into their daily activities.

Maintaining the Integrity of Information

The soundness and completeness of information on College systems must be maintained during its transmission, storage, generation, and/or handling. Information that is corrupted or modified may be impossible to use or lead to errors in decision-making. To maximize the integrity of data, information technology (IT) computing resource users shall adhere to the following:

- Screen all non-text files downloaded from the Internet with anti-virus software prior to usage to minimize the risk of corruption, modification or loss of data.
- Notify the Director of Information Systems and Computer Operations in the Division of Information Technology (IT) immediately if passwords or other system

access control mechanisms are lost, stolen or disclosed, or are suspected of being lost, stolen or disclosed.

- Forward information pertaining to security-related problems to the Director of Information Systems and Computer Operations immediately. DO NOT further distribute this information.
- Use information obtained from the Internet with caution. Before using free Internet-supplied information for business decision-making purposes, corroborate and confirm the information by consulting other reliable sources.

Protecting Confidential Information

All members of the College community are obligated to respect and protect confidential data, and to follow the Data Classification Security Policy. The College strongly discourages storage of any confidential or sensitive data on any computer or network-attached device that has not been explicitly approved by personnel from the Director of Information Systems and Computer Operations within the Division of IT. IT computing resource users must adhere to the following:

- Employ adequate information security technology and techniques for sensitive or critical information such as educational records, Social Security Numbers, identification numbers (GWID), and credit card numbers. For specific information regarding encryption technology options, e-mail the Division of IT at administrator@clarendoncollege.edu.

password being compromised and data being lost due to unauthorized access, follow the guidance in the Computer Resources - Acceptable Use policy of this manual.

Securing Information on Workstations

Users of College systems must adhere to the following procedures to minimize the potential for theft, misuse, or corruption of data:

- Always use a security cable or locking device with laptop computers and secure mobile devices particularly when away from their office or work space.
- Secure personal computers by requiring a password when the computer is turned on and when the screen saver is deactivated (public computers with no critical or sensitive information, such as those in the library or in labs, are excluded).
- Log out of the system when finished working.
- Use secure means to transmit confidential data. Email is not a secure means to deliver information. Information that is sent by email is at risk. Avoid using e-mail to transmit confidential data.
- Keep all computer software up to date with the latest software maintenance releases.
- DO NOT intentionally damage, alter, or misuse any College-owned or maintained hardware, software, or information.
- DO NOT test security controls in place at the College or any other location (including ethical hacking) without authorization from the Director of Information Systems and Computer Operations in the Division of IT.

- All workstations shall have a working and update anti-virus/threat detection application.
- Though not required, use of a personal firewall also is recommended.

Securing Information on Network

The Director of Information Systems and Computer Operations or delegated authority must adhere to the following procedures to minimize the potential for theft, misuse, or corruption of data:

- Adhere to password policies as outlined in the policy manual.
- Insure correct folder privileges and rights are maintained.
- Correct Group Policies and Active Directory account settings are maintained and applied.
- All firewall and outside electronic intrusion security systems or properly maintained and updated.

- Student Information System databases and records are secured by username and password access and utilize proper user right assignment. User right assignments will be based on a need-to-know basis appropriate to the user's functional area.
- Email filtering is employed and monitored to insure all phishing and snooping attempts are minimized to the highest extent possible.

- Individual divisions, centers or departments may impose additional information security requirements beyond those set forth in this policy. For further information on reporting security incidents and implementing security practices see Computer Resources – Acceptable Use, Security Breach Notification of this policy manual.

Policy Statement

All members of the College community have a responsibility to protect College data from unauthorized generation, access, modification, disclosure, transmission or destruction, and are expected to be familiar with and comply with this policy. Violations of this policy can lead to disciplinary action up to and including dismissal, expulsion, and/or legal action. Any known violations of this policy are to be reported to the Director of Information Systems and Computer Operations.

Reason for Policy/Purpose

To educate the College community about the importance of protecting data generated, accessed, transmitted and stored by the College, to identify procedures that should be in place to protect the confidentiality, integrity and availability of College data, and to comply with local and federal regulations regarding privacy and confidentiality of information.

Policy/Procedures

RESPONSIBILITY FOR DATA MANAGEMENT

Data is a critical asset of the College. All members of the College community have a responsibility to protect the confidentiality, integrity, and availability of data generated, accessed, modified, transmitted, stored or used by the College, irrespective of the medium on which the data resides and regardless of format (such as in electronic, paper or other physical form).

Data owned, used, created or maintained by the College is classified into the following three categories:

- Public
- Official Use Only
- Confidential

Departments should carefully evaluate the appropriate data classification category for their information.

When provided in this policy, examples are illustrative only, and serve as identification of implementation practices rather than specific requirements. Nothing in this policy is intended to identify a restriction on the right of departments to require policies and/or procedures in addition to the ones identified in this document.

DATA CLASSIFICATIONS

PUBLIC DATA

Public data is information that may or must be open to the general public. It is

defined as information with no existing local, national or international legal restrictions on access or usage. Public data, while subject to College disclosure rules, is available to all members of the College community and to all individuals and entities external to the College community.

By way of illustration only, some examples of Public Data include:

This classification applies even though there may not be a civil statute requiring this protection. Official Use Only Data is information that is restricted to members of the College community who have a legitimate purpose for accessing such data.

By way of illustration only, some examples of Official Use Data include:

- Employment data
- College partner or sponsor information where no more restrictive confidentiality agreement exists.

Internal telephone books and directories Official Use Only data:

 - "Hard Copy" materials must be destroyed by shredding or another process that destroys the data beyond either recognition or reconstruction. After destruction, materials may be disposed of with normal waste.
 - Electronic storage media shall be sanitized appropriately by overwriting or degaussing prior to disposal.

CONFIDENTIAL DATA

Confidential Data is information protected by statutes, regulations, College policies or contractual language. Managers may also designate data as Confidential.

- Must not be disclosed to parties without explicit management authorization.
- Must be stored only in a locked drawer or room or an area where access is controlled by a guard, cipher lock, and/or card reader, or that otherwise has sufficient physical access control measures to afford adequate protection and prevent unauthorized access by members of the public, visitors, or other persons without a need-to-know.
- When sent via fax must be sent only to a previously established and used address or one that has been verified as using a secured location.
- Must not be posted on any public website.

The Director of Information Systems and Computer Operations must be notified in a timely manner if data classified as Confidential is lost, disclosed to unauthorized parties or suspected of being lost or disclosed to unauthorized parties, or if any unauthorized use of the College's information systems has taken place or is suspected of taking place.

DATA CLASSIFICATION ROLES AND RESPONSIBILITIES

The Division of Information Technology is the primary entity charged with developing policy and procedures subordinate to and in support of this policy.

The Director of Information Systems and Computer Operations is charged with the promotion of information security awareness within the College community, as well as responsibility for the creation, maintenance, enforcement and design of training on relevant security standards in support of this policy. The Director of Information Systems and Computer Operations will receive and maintain reports of incidents, threats and malfunction that may have a security impact on the College's information systems, and will receive and maintain records of actions taken or policies and procedures developed in response to such reports. The Director of Information Systems and Computer Operations will assist the Senior Staff, as appropriate, in conducting periodic audits to

determine College compliance with this policy.

The Office of the President and Senior Staff will facilitate distribution of this policy; will assist in the investigation of policy breaches.

The Office of the President and Senior Staff will review procedures issued under authority of this policy for compliance with applicable regulations. The President will also respond to court ordered releases of information.

Retention and Maintenance of Records

The College requires that its records be maintained in a consistent and logical manner and be managed so that the College:

1. Meets legal standards for protection, storage and retrieval;
2. Protects the privacy of faculty, staff and students as required by law;
3. Optimizes the use of space;
4. Minimizes the cost of record retention; and
5. Destroys outdated records in an appropriate manner.

Departments that maintain College records are responsible for establishing appropriate records management procedures and practices. Each department's administrative manager or a designee must:

1. Be familiar with the College's Records Management Policy;
2. Develop the department's and/or office's record management procedures and practices, consistent with this policy;

3. Educate staff within the department in understanding sound record management practices;
4. Restrict access to confidential records and information; and
5. Coordinate the destruction of records as provided in the applicable departmental procedures.

The Office of the President and Senior Staff, as well as the Registrar, are available to work with individual departments to implement these requirements. Faculty and staff should feel free to address questions about retention and destruction schedules to any of these offices.

Confidentiality Requirement

Many records subject to record retention requirements contain non-public confidential data. Such records are protected by federal, state and local statutes, including the Family Educational Rights and Privacy Act (FERPA), the Gramm-Leach-Bliley (GLB) Act, and the Health Insurance Portability and Accountability Act (HIPAA). In addition to statutory requirements, any record that contains confidential data should be treated in accordance with the College's privacy and security policies.

Electronically Stored Information

Recent years have witnessed a tremendous growth in the use of electronically stored information ("ESI") by the College. The ease with which ESI may be created, the number of places where ESI may be stored, and new rules regarding the use of ESI in litigation, all require that the College manage its ESI effectively, efficiently and consistent

with its legal obligations. Accordingly, all departments must include ESI in the development of their records management plans.

Preservation of Records Relevant to Legal Matters

Any record that is relevant to any pending or anticipated litigation, claim, audit, agency charge, investigation or enforcement action shall be retained at least until final resolution of the matter. In these circumstances, the Office of the President and Senior Staff will notify relevant departments and work with staff to identify and preserve any records (including electronic records) and other information that could be relevant to the matter. This will include a directive that the relevant unit's normal document destruction policies or protocols temporarily be suspended. Employees who become aware that an investigation or legal proceeding has commenced or is anticipated against their department or unit must promptly notify the Office of the President and Senior Staff so that all records with potential relevance to the investigation or legal proceeding can be preserved as necessary.

Disposal and Destruction of Records

If you have determined that, consistent with the College's Records Management Policy, and with the records management practices and procedures applicable to your department, it is appropriate to dispose of any records, they can be destroyed in one of the following ways:

1. Recycle non-confidential paper records;
2. Shred or otherwise render unreadable confidential paper records; or

3. Erase or destroy electronically stored data. (Information Systems and Services can assist you in effectively disposing of this data.)

If you have questions about your responsibilities, please contact the administrative manager or department designee. For additional assistance please contact the Office of the President and Senior Staff or Registrar at (806) 874-4801.

SOCIAL MEDIA

1597

(Updated 8-15-2013 Local)

Introduction

This document outlines the publication policy for Clarendon College's account(s) on social media, including but not limited to Facebook, Twitter, and YouTube. These all are online social utilities that allow individuals, or group of individuals, to create a place for a group of people to come together online to post information, news and events. Clarendon College's social media presence is intended to provide the College community with a venue to share thoughts, ideas, and experiences through discussions, postings, photos, and videos. Publication guidelines will be similar to any other media.

The Clarendon College pages will provide students and other constituents with up-to-date College information and the opportunity to communicate with page administrators and other page users. This policy is intended to outline proper use guidelines in order to ensure the most effective use of the pages.

This policy addresses the College's official presence on social media sites. In

general, individual faculty or student pages are not included in this policy; however, if an employee or student group at the College creates a page that could be affiliated with the College, the Chief of Staff should be notified. The College does not take any responsibility for pages developed by others.

Contributors to the Clarendon College pages will follow the generally established employee and student guidelines. Oversight of all Clarendon College-affiliated pages is the responsibility of the Chief of Staff, who will periodically review pages to ensure College policies are followed and that the pages are being produced in accordance with the best interests of the College.

Because the technology that drives Web communication changes rapidly, this policy may be adjusted to reflect issues that may arise in the management and implementation of the page or for any other reason that supports the College's priorities for the page.

Departmental Social Media Sites

Individual departments wishing to develop a social media presence MUST contact the College's Chief of Staff at ashlee.estlack@clarendoncollege.edu before developing any pages and/or accounts. Such departments already with Facebook Fan Pages include: Financial Aid, Ranch Horse Team, Men's Basketball, Women's Basketball, Volleyball, Sluggo the Bulldog, Rodeo, Meats Judging, Amarillo Cosmetology, Clarendon College Pampa Center, Clarendon College Childress Center and Ex-Students Association.

The Chief of Staff will maintain a college-level Clarendon College Facebook fan page. The Chief of Staff and the Dean of Student Affairs will be included as administrators for the Facebook page. A college-level Clarendon College Twitter account will also be maintained by the Chief of Staff.

In regards to Facebook, departments will need to make a Fan Page NOT a profile page. Contacting the Chief of Staff beforehand can ensure that proper steps are taken when developing the page. Once the departmental pages are set-up, that department is responsible for content development and maintenance.

Procedures

1. Employees must consult their supervisor in advance of their intention to use their Clarendon College e-mail account on social networking sites or pages on which they are representing the college in an official capacity (non-instructional).
2. Departmental social networking pages will have a minimum of two administrators assigned. If an administrator leaves the college, they will be removed as a page administrator and another person assigned in their place.
3. Because the Clarendon College pages on social media sites are interactive tools, administrators should monitor pages closely and frequently to supervise user conduct.
4. The following types of content are prohibited from Clarendon College social networking sites:

- Derogatory language or demeaning statements about or threats to any third party.
 - Inappropriate or incriminating images depicting hazing, sexual harassment, vandalism, stalking, underage drinking, illegal drug use, or any other inappropriate behavior; or inappropriate language.
 - Content that violates state or federal law.
 - Partisan political activity.
 - Online gambling.
 - Information and images that are obscene or untrue.
 - Content that harasses third parties.
 - Selling goods or services for personal financial profit.
 - Personal social relationships unrelated to Clarendon College business.
5. Administrators for CC Facebook fan pages and other social networking media are responsible for removing comments posted to their fan pages that don't meet the criteria outlined in paragraph 4.
6. Employees are responsible for the content of social networking sites. Outside parties can take legal action against employees for postings. Clarendon College will not indemnify employees for anything they write on social networking sites under a college e-mail account or a private one.
7. Material protected by copyright will not be used on Clarendon College social networking pages.

8. Facebook terms and conditions, found at <http://www.facebook.com/terms.php>, must also be followed strictly.
9. Official Clarendon College social networking pages will include the following disclaimers:

General Guidelines

Online communities like Facebook and Twitter can help Clarendon College connect with its constituencies in many positive ways. At the same time, there are some cautionary lessons that have emerged from participating in online communities. Administrators for official Clarendon College social network sites should be aware of the following:

- You are posting content onto the World Wide Web and you cannot ensure who does and does not have access to your information.
- Information you post online may continue to stay on the World Wide Web even after you erase or delete that information from pages.
- Before participating in any online community, understand that anything posted online is available to anyone in the world. Any text or photo placed online is completely out of your control the moment it is placed online – even if you limit access to your site.

- By agreeing to the terms of use, online communities have your permission to republish your content worldwide and share information with advertisers, third parties, and law enforcement, among others.
- Don't post information, photos, or other items online that could reflect negatively on you, your family, or Clarendon College.
- Be discreet, respectful, gracious and as accurate/factual as you can be in any comments or content you post online. Take particular care of spelling, punctuation and grammar---it DOES reflect on you professionally, as well as on the College.

(Updated 7-21-2011 Local)

It is the general policy of Clarendon College to provide its buildings and grounds for use by the faculty, staff, and/or student sponsored activities at the College. Rental Fees must be paid at the time the facility is reserved.

The party or parties using the facility are responsible for any damage(s) inflicted upon that facility, and must sign an acknowledgement of this policy at the time the reservation is made. Thus, the granting, controlling and monitoring of these accounts is extremely important to the overall Clarendon College information security program. The extent of access privileges granted or used should not exceed that which is necessary.

SCOPE:

The Clarendon College IT Administrator/Special Access Policy applies equally to all individuals who have, or may require, special access privilege to any Clarendon College information technology resources.

POLICY STATEMENT:

Appropriate security levels and requirements must be determined for all special access accounts that utilize Clarendon College information technology resources. In order to safeguard information technology resources, the following controls are required:

1. All users of Administrative/Special Access accounts must have account- management instructions, documentation, and authorization.
2. All users must sign the Clarendon College Non-Disclosure Agreement and be current on their annual Security Awareness

Training, before access is given to an account.

3. Each individual who uses special access accounts must use the account privilege most appropriate with work being performed (i.e., user account vs. administrator account).
4. Each account used for special access must comply with the “Passwords” guidelines stipulated in the Clarendon College User Accounts Password Policy ().
5. The password for a shared special access account must change when an individual with the password leaves the department or Clarendon College, or upon a change in the vendor personnel assigned to the Clarendon College contract. The account must also be re-evaluated as to whether it should remain a shared account or not. (Shared accounts must be kept to an absolute minimum.)

7. When special access accounts are needed for audit, software development, software installation or other defined need, special access must be:
 - a. Authorized by the system owner, Information Resource Manager,

or Information Security Officer. (E.g., Clarendon College-IT is the system owner for all Clarendon College desktops, laptops, and tablets.)

DATA BACKUP & RECOVERY POLICY

1840

PURPOSE:

The purpose of the Data Backup Policy is to manage and secure backup and restoration processes and the media employed within these processes; prevent the loss of data in the case of administrator error or corruption of data, system failure, or

disaster; and ensure periodic restoration of data to confirm it is recoverable in a useable form.

SCOPE:

The Clarendon College Data Backup policy applies to any data owner, data custodian, system administrator and Clarendon College-IT staff that installs, operates or maintains Clarendon College information technology resources.

POLICY STATEMENT:

1. Clarendon College-IT System Administrators are responsible for backing up Clarendon College-IT -managed servers and are required to implement a tested and auditable process to facilitate recovery from data loss.
2. All departments should store data on network storage rather than local storage (e. g. PC or Mac hard drive). Local storage is not backed up by Clarendon College-IT and will be the responsibility of the data owner.
3. Clarendon College-IT will perform timely data backups of all Clarendon College-IT managed servers containing critical data for the purposes listed above.
 - a. Individual drives (redirected folders and mapped drives) and email will be retained for 14 days.
 - b. All other data, such as Enterprise Application Data (e. g. CAMS Enterprise and SQL data) and shared storage backups will be retained for 60 days.

- c. Clarendon College will not be responsible for data stored on non-Clarendon College cloud storage systems (e.g. OneDrive) and data will be subject to that vendors' retention terms of service.
 - d. Cloud retention of all data backups is 30 days.
 - e. Learning Management System (LMS) backups are retained locally to the LMS for 30 days after the end of a term. They are then copied the College's local server for retention for at least one year.
4. Determining which data and information is deemed 'critical' (e.g. confidential data and other data considered to be of institutional value) is the responsibility of the Data Owner, per Section D at a Classification Policy (). Data identified by the Data Owner as non-critical may be excluded from this policy.
- a. Alternative backup schedules and media management maybe requested by the data owner commensurate with the criticality of the data and the
 - b. Capabilities of the tools used for data storage.
5. Records retention is the responsibility of the Data Owner. The Clarendon College-IT backups are not to be used to satisfy the retention of records and are not customized for all the varying retention periods.
6. Monthly backup data will be stored in data location that is physically different from the original data source.

7. Verification, through restoration of backed-up data, must be performed on a regular basis as defined by the Clarendon College-IT back-up procedures document for the respective system.
8. Procedures for backing up of critical data and the testing of the procedures must be documented. Such procedures must include at a minimum for each type of data:
 - a. A definition of the specific data to be backed up.
 - b. The backup method to be used (full backup, incremental backup, differential, mirror, or a combination).
 - c. The frequency and time of data backup.
 - d. The number of generations of backed up data that are to be maintained (both on site and off site).
 - e. The responsible individual(s) for data backup.
 - f. The storage site(s) for the backups.
 - g. The storage media to be used.
 - h. The naming convention for the labels on storage media.
 - i. Any requirements concerning the data backup archives.
 - i. The data transport modes.
 - j. For data transferred during any backup process, end-to-end
 - k. security of the transmission path must be ensured for confidential data.

- I. The recovery of backed up data.
 - i. Processes must be maintained, reviewed and updated periodically to account for new technology, business changes, and migration of applications to alternative platforms.
 - m. The destruction of obsolete backup media as described in Clarendon College Media Sanitization Policy (IP).

DEFINITIONS:

Clarendon College IT: The department or any company working on behalf of the Clarendon College IT Department that has the responsibility for maintenance and supervision of the Clarendon College IT infrastructure.

Cloud Storage: A service model in which data is maintained, managed and backed up remotely and made available to users over the Internet.

Incremental Backup: A backup that only contains the files that have changed since the most recent backup (either full or incremental). The advantage of this is quicker backup times, as only changed files need to be saved. The disadvantage is longer recovery times, as the latest full backup, and all incremental backups up to the date of data loss need to be restored.

Full Backup: A backup of all (selected) files on the system. In contrast to a drive image, this does not include the file allocation tables, partition structure and boot sectors.

Disk Image: Single file or storage device containing the complete contents and

structure representing a data storage medium or device, such as a hard drive, tape drive, floppy disk, CD/DVD/BD, or USB flash drive.

Site to Site Backup: Backup, over the internet, to an offsite location under the user's control. Similar to remote backup except that the owner of the data maintains control of the storage location.

PURPOSE:

This policy is intended to establish standards for securing Clarendon College-IT data centers, network closets and protected IT facilities on the Clarendon College campuses. Effective implementation of this policy will minimize unauthorized access to these locations, provide more effective auditing of physical access controls and ensure environmental threats to Clarendon College-IT data centers are monitored and remediated in a timely manner.

SCOPE:

The IT Physical Access Policy applies to Clarendon College-IT data centers containing enterprise systems and other information processing facilities such as network closets, on-site back up storage locations, and the corresponding network infrastructure and access across campus that serve the Clarendon College user community.

POLICY STATEMENT:

Clarendon College-IT is responsible for the safety and security of data on the Clarendon College network and the equipment used to run the network infrastructure.

- Environmental conditions in all data centers will be monitored and protected from environmental threats commensurate with the identified risks and their importance to Clarendon College mission critical business processes.
- Physical security systems must comply with all applicable regulations such as, but not limited to, building codes and fire prevention codes.
- Physical access to all restricted information technology resource facilities must be documented and managed.
- All information technology resource facilities must be physically protected in proportion to the criticality or importance of their function at Clarendon College.
- Access to information technology resource facilities must be granted only to Clarendon College support personnel and contractors whose job responsibilities require access to that facility.
- The process of granting card and/or key access to information technology resource facilities must include the approval of the person responsible for the facility.
- Each individual that is granted access rights to an information technology

resource facility must receive emergency procedures training for the facility and must sign the appropriate access and non-disclosure agreements

- Requests for physical access must come from Clarendon College-IT.
- Access cards and/or keys must not be shared or loaned to others.
- Access cards and/or keys that are no longer required must be returned to the appropriate department. Keys or cards must not be reallocated to another individual bypassing the return process.
- Lost or stolen access cards and/or keys must be reported immediately to the appropriate department.
- All information technology resource facilities that allow visitor access will track access with a sign in/out log.
- Visitors must be escorted in card access controlled areas of information technology resource facilities.
- A service charge may be assessed for access cards and/or keys that are lost, stolen or not returned.
- Card access records and visitor logs for information technology resource facilities must be kept for routine review based upon the criticality of the information resources being protected.
- The person responsible for the information technology resource facility must promptly remove the card and/or key access rights of individuals

that change roles within Clarendon College or are separated from their relationship with Clarendon College.

- The person responsible for the information technology resource facility must review access records and visitor logs for the facility on a periodic basis and investigate any unusual access.
- The person responsible for the information technology resource facility must review card and/or key access rights for the facility on a periodic basis and remove access for individuals that no longer require access.
- Restricted access rooms should be identified with discrete signage.

DEFINITIONS:

Clarendon College IT: The department or any company working on behalf of the Clarendon College IT Department that has the responsibility for maintenance and supervision of the Clarendon College IT infrastructure.

Introduction:

Clarendon College is committed to compliance with state and federal statutes associated with the protection of confidential information.

Information technology resources that contain or transmit confidential information must be protected with the specified minimum requirements for encryption key

standards and management.

Scope:

The Clarendon College Digital Encryption Policy applies equally to all individuals entrusted with any Clarendon College information technology resources.

Policy Statement:

Minimum encryption requirements to protect confidential information from unauthorized disclosure shall be limited to the following State of Texas encryption requirements:

1. Public information, information as described in the Texas Public Information Act or other enabling laws, rules, and regulations, has no minimum encryption requirements.
2. Confidential information, information that must be protected from unauthorized disclosure or public release based on state or federal law and personal identifying or sensitive personal information as defined in the Texas Business and Commerce Code, must be encrypted with a minimum of 128 bit key length.
3. Federal protected data, federal tax information, protected health information, and law enforcement information, is required to comply with NIST certified to FIPS 140-2 standards or the current standard.

Confidential information that is transmitted through or stored on an externally accessible location shall be encrypted from the time it leaves a secure location until it

is received into a secure location.

Confidential information should not be copied to or stored on, removable media or a non-agency owned computing device that is not encrypted.

Clarendon College may also choose to implement these protections for data classifications other than Confidential.

Information resources assigned from one state agency to another, or from a state agency to a contractor or other third party representative, shall be protected in accordance with the conditions imposed by the providing state agency.

DEFINITION:

Data Encryption: Data encryption translates data into another form, or code, so that only people with access to a secret key (formally called a decryption key) or password can read it. Encrypted data is commonly referred to as ciphertext, while unencrypted data is called plaintext.

FIREWALL POLICY

1855

PURPOSE:

The Clarendon College gateways are protected by external firewalls between the Internet and the Clarendon College network to establish a secure environment for the College's information technology resources. Internal firewalls are in place to establish secure communications between different segments of the College's network where different levels of security are warranted. Firewalls are enabled and

configured on servers and workstations that are attached to the college's internal network.

Clarendon College's firewalls are key components of the College's network security architecture. The Firewall Policy governs how the firewalls will filter traffic to mitigate the risks and losses associated with security threats to Clarendon College's information technology resources. This policy will attempt to balance risks incurred against the need for access.

The purpose of this policy is to protect Clarendon College's information technology resources from hacking and virus attacks by restricting access to information technology resources on the College campus. It is designed to minimize the potential exposure of Clarendon College to the loss of sensitive confidential data, intellectual property, and damage to public image which may follow from unauthorized use of Clarendon College's information technology resources.

SCOPE:

The Firewall Policy applies to all firewall devices owned and/or operated by Clarendon College.

POLICY STATEMENT:

Perimeter Firewalls:

The perimeter firewall permits the following outbound and inbound Internet traffic:

- *Outbound* - All Internet traffic to hosts and services outside Clarendon College's networks except those specifically identified and blocked as

malicious sites.

- *Inbound* - Allow Internet traffic that supports the mission of the institution and is in accordance with defined system, application and service procedures.
- *Outbound/Inbound* – All internet traffic detected as malicious by the College’s intrusion prevention system (IPS) and/or all traffic violating Clarendon College firewall policies is dropped.

Reason for filtering ports:

- Protecting Clarendon College Internet Users - Certain ports are filtered to protect Clarendon College information technology resources. The perimeter firewall protects against certain common worms and from dangerous services on Clarendon College information technology resources that could allow intruders access.
- Protecting our outbound bandwidth - If Clarendon College Internet users overuse their outbound bandwidth by running high-traffic servers or by becoming infected with a worm or virus, it can degrade the service of other Clarendon College systems.
- Protecting the rest of the Internet - Some filters prevent users from both knowingly or unknowingly attacking other computers on the Internet. In addition to being in Clarendon College’s interests for protecting our bandwidth, it is the institutions’ responsibility to prevent abuse of its network.

Roles and Responsibilities:

The Information Security Office is responsible for implementing, configuring and maintaining Clarendon College's firewalls and for activities relating to this policy.

1. At a minimum, firewalls must be annually tested and reviewed.
2. When there are major changes to the network requirements, firewall security policies will be reviewed and may warrant changes.
3. Firewalls must have alert capabilities and supporting procedures.
4. Auditing must be active to permit analysis of firewall activity.

DEFINITIONS:

Clarendon College IT: The department or any company working on behalf of the Clarendon College IT Department that has the responsibility for maintenance and supervision of the Clarendon College IT infrastructure.

Firewall: Is a network security system that monitors and controls the incoming and outgoing network traffic based on predetermined security rules.

Gateway: Is the computer or device that routes the traffic from a workstation to the outside network that is serving the Web pages.

IDENTIFICATION/AUTHENTICATION POLICY

1860

PURPOSE:

The purpose of the Identification/Authentication Policy is to ensure the security and integrity of Clarendon College data and information technology resources by ensuring

controls for securing user identification and authentication credentials.

To ensure the security and integrity of Clarendon College data, identified users will securely authenticate to Clarendon College information technology resources and access only resources which they have been authorized to access.

If user identities are not properly authenticated, Clarendon College has no assurance that access to information technology resources is properly controlled. This policy will mitigate the risk of unauthorized access of information, as well as establish user accountability and rules for access.

SCOPE:

The Identification/Authentication Policy applies to all individuals granted access to Clarendon College information technology resources.

POLICY STATEMENT:

Clarendon College shall require that systems are protected from unauthorized access by establishing requirements for the authorization and management of user accounts, providing user authentication (any or all of the basic authentication methods), and implementing access controls on Clarendon College information technology resources. Access control is provided at the firewall, network, operating system, and application levels.

Clarendon College managers/supervisors have the responsibility of requesting access to information systems and approving user access privileges based upon their assigned duties, as well as notifying Data Owners and Clarendon College-IT of the

termination of access to information technology resources.

Prior to being granted access to Clarendon College information technology resources, the needs of the employee, student worker, contractor, vendor, guest, or volunteer shall be given ample consideration and authorization granted to allow access to Clarendon College information technology resources. Access should be granted according to the principle of least privilege as outlined in IT Administrator/Special Access Policy.

Clarendon College accounts will have a unique identifier that is associated with a single user. Once an identifier is assigned to a particular person, it is always associated with that person. It is never subsequently reassigned to identify another person.

Use of the authentication service to identify oneself to a Clarendon College system constitutes an official identification of the user to the College, in the same way that presenting an ID card does. Security is everyone's responsibility, and everyone has a responsibility to protect their own "identity". Users will be held accountable for all actions of their accounts.

Regardless of the authentication method used, users must use only the authentication information that they have been authorized to use; i.e., must never identify themselves falsely as another person. Additionally, users must keep their authentication information confidential; i.e., must not knowingly or negligently make it available for use by an unauthorized person. Anyone suspecting that their

authentication information has been compromised should contact the Information Security Officer immediately.

Users must adhere to the requirements of the Clarendon College User Accounts Password Policy.

Clarendon College Data Owners shall be responsible for ensuring that authorization and account management processes are documented and that the appropriate people have been assigned the responsibility of creating and maintaining authorization records.

Clarendon College Data Owners may monitor related activities of individuals as a condition for continued access. At a minimum, Clarendon College Data Owners must review user access privileges annually.

DEFINITIONS:

Authentication Credentials: The verification of the identity of a user who wishes to access a system, commonly using a password in conjunction with a unique UserID.

Clarendon College IT: The department or any company working on behalf of the Clarendon College IT Department that has the responsibility for maintenance and supervision of the Clarendon College IT infrastructure.

Data Owner: Departmental position responsible for classifying business data, approving access to data, and protecting data by ensuring controls are in place.

Mitigate: The elimination or reduction of the frequency, magnitude, or severity of exposure to risks in order to minimize the potential impact of a threat.

Principle of Least Privilege: The practice of limiting user profile privileges on computers to only the information and resources that are necessary, based on users' job necessities.

Unauthorized Access: Access by a person who has not been given official permission or approval to access Clarendon College systems.

User Identification: A unique sequence of characters used to identify a user and allow access to a computer system or computer network.

INTRUSION DETECTION/PREVENTION AND SECURITY MONITORING POLICY 1865

PURPOSE:

The Clarendon College Information Security Officer is charged with securing all Clarendon College owned information technology resources, both centralized and decentralized, and has the responsibility and College-wide authority to monitor the use of information technology resources to confirm that security practices and controls are in place, are effective, and are not being bypassed.

The purpose of the Intrusion Detection/Prevention and Security Monitoring Policy is to outline College policy regarding the monitoring, logging and retention of network packets that traverse Clarendon College networks, as well as observe events to identify problems with security policies, document existing threats and evaluate/prevent attacks.

Intrusion Detection and Prevention systems focus on identifying possible

incidents, logging information about them, and reporting attempts to security administrators. It plays an important role in implementing and enforcing security policies.

Clarendon College takes reasonable measures to assure the integrity of private and confidential electronic information transported over its networks and to detect attempts to bypass the security mechanisms of information resources. This will allow for early detection of wrongdoing, new security vulnerabilities, or new unforeseen threats to information technology resources, thus minimizing the potential harmful impact.

SCOPE:

The Intrusion Detection/Prevention and Security Monitoring Policy applies to all individuals that are responsible for the installation of new information technology resources, the operation of existing information technology resources and individuals charged with information technology resource security.

POLICY STATEMENT:

Clarendon College considers all electronic information transported over the College network to have the potential to be private and confidential. Network and system administrators are expected to treat the contents of electronic packets as such.

While it is not the policy of Clarendon College to actively monitor internet activity on the network, it is sometimes necessary to examine such activity when a

problem has occurred or when optimizing traffic on the College's internet links. Any inspection of electronic data packets, and any action performed following such inspection, will be governed by all applicable federal and state statutes and by Clarendon College policies.

Audit logging, alarms and alert functions of operating systems, user accounting, application software, firewalls and other network perimeter access control systems will be enabled and reviewed annually. System integrity checks of the firewalls and other network perimeter access control systems will be performed annually. All suspected and/or confirmed instances of successful and/or attempted intrusions must be immediately reported to the Information Security Officer.

Automated tools will provide real-time notification of detected wrongdoing and vulnerability exploitation. Where possible, a security baseline will be developed and the tools will report exceptions. These tools will be deployed to monitor:

- Internet traffic
- Electronic mail traffic
- Local Area Network (LAN) traffic; protocols, and device inventory
- Operating system security parameters

The following files will be checked for signs of wrongdoing and vulnerability exploitation at a frequency determined by risk:

- Automated intrusion detection system logs
- Firewall logs

- User account logs
- Network scanning logs
- System error logs
- Application logs
- Data backup and recovery logs
- Service desk trouble tickets and telephone call logs
- Network printer logs

The following checks will be performed at least annually by assigned individuals:

- Password strength
- Unauthorized network devices
- Unauthorized personal web servers
- Unsecured sharing of devices
- Operating system and software licenses

Any security issues discovered will be reported immediately to the Information Security Officer (ISO).

PURPOSE:

This policy is intended to provide information to College information technology resource administrators and users to improve the resistance to,

detection of, and recovery from the effects of malicious code.

Clarendon College information technology resources are strategic assets that must be managed as valuable College resources. The integrity and continued operation of College information technology resources are critical to the operation of the College. Malicious code can disrupt normal operation of College information technology resources.

The number of information technology resource security incidents and the resulting cost of business disruption and service restoration continue to escalate. Implementing solid security policies, blocking unnecessary access to networks and computers, improving user security awareness, and early detection and mitigation of security incidents are some of the actions that can be taken to reduce the risk and decrease the cost of security incidents.

SCOPE:

The Clarendon College Malicious Code Policy applies equally to all individuals utilizing Clarendon College information technology resources (e.g. employees, faculty, students, retirees, agents, consultants, contractors, volunteers, vendors, temps, etc.).

This policy does not apply to approved faculty research and academic programs where students and instructors develop and experiment with malicious programs in a controlled environment.

POLICY STATEMENT:

The following requirements shall be adhered to at all times to ensure the protection of Clarendon College information technology resources:

Prevention and Detection:

- All desktops and laptops connected to the Clarendon College network must use Clarendon College approved virus protection software and configuration.
- Each file server attached to the Clarendon College network must utilize Clarendon College approved virus protection software and must be setup to detect and clean viruses that may infect file shares.
- Software to safeguard against malicious code (e.g. antivirus, anti-spyware, etc.) shall be installed and functioning on susceptible information technology resources that have access to the College network.
- All information technology resource users are prohibited from intentionally developing or experimenting with malicious programs (e.g. viruses, worms, spyware, keystroke loggers, phishing software, Trojan horses, etc.) unless a part of an approved research or academic program.
- All information technology resource users are prohibited from knowingly propagating malicious programs including opening attachments from unknown sources.
- Email attachments and shared files of unknown integrity shall be scanned

for malicious code before they are opened or accessed.

- Flash drives, external hard drives, and other mass storage devices will be scanned for malicious code before accessing any data on the media.
- Software safeguarding information technology resources against malicious code should not be disabled or bypassed by end-users.
- The settings for software that protect information technology resources against malicious code should not be altered in a manner that will reduce the effectiveness of the software.
- The automatic update frequency of software that safeguards against malicious code should not be disabled, altered or bypassed by end-users to reduce the frequency of updates.

Response and Recovery:

- All reasonable efforts shall be made to contain the effects of any system that is infected with a virus or other malicious code. This may include disconnecting systems from the network or disabling service.
- If malicious code is discovered, or believed to exist, an attempt should be made to remove or quarantine the malicious code using current antivirus or other control software.
- If malicious code cannot be automatically quarantined or removed by antivirus

software, the system should be disconnected from the network to prevent further possible propagation of the malicious code or other harmful impact. The presence of the malicious code shall be reported to the Clarendon College IT Department.

- Personnel responding to an incident should be given the necessary access privileges and authority to afford the necessary measures to contain/remove the infection.
- If possible, identify the source of the infection and the type of infection to prevent recurrence.
- Any removable media (including flash drives, external hard drives, mass storage cards, etc.) recently used on an infected machine shall be scanned prior to opening and/or executing any files contained therein.
- Clarendon College-IT personnel should thoroughly document the incident noting the source of the malicious code (if possible), resources impacted, and damage or disruption to information technology resources and submit to the Information Security Officer to be included in the Department of Information Resources Security Incident Reporting System.

DEFINITIONS:

Clarendon College IT: The department or any company working on behalf of the Clarendon College IT Department that has the responsibility for maintenance and supervision of the Clarendon College IT infrastructure.

Information Security Officer (ISO): Officer designated to administer the College Information Security Program.

Malicious Code: A term used to describe any code in any part of a software system or script that is intended to cause undesired effects, security breaches or damage to a system.

Mitigate: The elimination or reduction of the frequency, magnitude, or severity of exposure to risks in order to minimize the potential impact of a threat.

Security Incident: A single event or a series of unwanted or unexpected events that involve information security (see definition of “information security event”), causing harm or threatening information assets and requiring non-routine preventative or corrective action.

Virus Protection Software: Software that is designed to prevent viruses, worms and Trojan horses from getting onto a computer, as well as remove any malicious code that has already infected a computer.

PURPOSE:

It is the policy of Clarendon College that all data must be removed from devices and equipment that are capable of data storage, transmission or receipt prior to equipment disposal.

Technical support staff will properly sanitize information technology resources

prior to transfer, sale or disposal. It is imperative that all devices capable of storing Clarendon College information be sanitized in a way that will make data recovery impossible.

This document establishes specific requirements for Information Technology media sanitization at Clarendon College. (See Texas Administrative Code, Title 1, Part 10, Chapter 202, Subchapter C (TAC§202))

SCOPE:

The Clarendon College Media Sanitization Policy applies to any data owner, data custodian, system administrator and Clarendon College-IT staff that installs, operates or maintains Clarendon College information technology resources.

POLICY STATEMENT:

Prior to the sale, transfer or disposal of information technology resources, the technical support staff will take the appropriate steps, per the Clarendon College-IT Property Office Media Sanitization Procedures, to ensure all data is removed from any associated storage device.

1. Information technology resources shall be sanitized utilizing a method that will ensure data recovery is impossible, such as degaussing, shredding, or destroying the media utilizing a destruction method that will be able to withstand a laboratory attack (e.g., disintegration, pulverization, melting or incineration).
2. If the device is a cell phone or PDA remove subscriber identity module (SIM) and additional memory cards and destroy per sanitization requirements. Sanitize the

unit utilizing a method that will ensure data recovery is impossible.

3. Document the removal and completion of the process with the following information:

- a. Date;
- b. Description of the item(s) and serial number(s);
- c. Inventory
- d. number(s);
- e. The process and sanitization tools used to remove the data, or process and method used to for destruction of the media; and
- f. The name and address of the organization to which the equipment was transferred, if applicable.

NON-DISCLOSURE AGREEMENT POLICY

1880

PURPOSE:

Non-disclosure agreements are contracts intended to protect information considered to be sensitive or confidential. Information technology resources shall be used only for intended purposes as defined by Clarendon College (Clarendon College) and in compliance with applicable laws.

All individuals are accountable for their actions relating to information technology resources and shall formally acknowledge that they will comply with the

Clarendon College security policies and procedures or they shall not be granted access to information technology resources. All employees will complete a non-disclosure agreement for information technology resources on an annual basis.

This document establishes specific requirements for Non-Disclosure Agreements at Clarendon College. (See Texas Administrative Code, Title 1, Part 10, Chapter 202, Subchapter C (TAC§202) and Texas Administrative Code, Title 1, Part 10, Chapter 203, Subchapter B (TAC§203))

SCOPE:

The Non-Disclosure Agreement Policy applies to all authorized users who utilize Clarendon College's information technology resources (including, but not limited to, Clarendon College Faculty, staff, student workers, temporary employees, vendors, consultants, employees of independent contractors, and personnel from other schools.)

POLICY STATEMENT:

All users must sign the Clarendon College Non-Disclosure Agreement (NDA) acknowledging they have read and understand Clarendon College requirements regarding computer security policies and procedures. This signed non-disclosure agreement becomes permanent record and will be renewed annually.

Electronic signatures are an acceptable means of acknowledgement of Clarendon College's Non- Disclosure Agreement.

DEFINITIONS:

Non-Disclosure Agreement (NDA): Formal acknowledgement that all employees must sign acknowledging they have read and understand Clarendon College requirements regarding computer security policies and procedures. This agreement becomes permanent record and will be renewed annually.

Electronic Signature: The digital equivalent of a handwritten signature offering far more inherent security, which provides the added assurance of evidence of acknowledging informed consent by the signer.

NETWORK USE & VULNERABILITY ASSESSMENT POLICY 1885

PURPOSE:

The purpose of the Network Use and Vulnerability Assessment policy is to assure the reliability, security, integrity, and availability of the telecommunications network infrastructure. This policy documents practices and responsibilities associated with the administration, maintenance, expansion, and use of the College network in order to:

1. Provide reliable network communications for the efficient conduct of College business;
2. Assure that network usage is authorized and consistent with the College's mission; and
3. Protect the confidentiality, integrity, and availability of College information that

traverses the College network.

SCOPE:

The Clarendon College Network Use and Vulnerability Assessment policy applies equally to all individuals utilizing any Clarendon College information technology resources.

POLICY STATEMENT:

The Information Resources Manager (IRM) has central oversight and is responsible for the management of the Clarendon College network infrastructure resources. All devices connected to the Clarendon College network (wired or wireless) should support the College's mission. The integrity, security, and proper operation of the College network require an orderly assignment of network addresses and the correct configuration of devices attached to the network. Network access, performance, and security are put at risk when devices are introduced into the network environment without appropriate coordination.

Clarendon College-IT will perform periodic vulnerability assessments and network scans to determine if assets hosted on Clarendon College's network are vulnerable to any known flaws in the operating system, services or application. The results are intended to assist server and application owners in securing their assets and any College related data that they may house.

Server or Application owners will be notified of any vulnerability present on their systems, and any servers whose vulnerabilities have not been remediated in a

predetermined amount of time may be disconnected from Clarendon College's network.

Clarendon College-IT manages College network connections with consideration for the College mission, accessibility, performance, privacy, and security in compliance with the following:

1. No individual or College component may independently deploy network devices that extend the College network, or secure or isolate parts of the College network, except as stipulated under this policy's provisions.
2. Clarendon College-IT is charged with overall responsibility for proper deployment and management of a fully-monitored and protected network communication service, including all infrastructure elements, network address assignments, and radio frequency (RF) spectrum usage.
3. Clarendon College-IT shall coordinate the connection and network address assignment of any and all devices on the College network. Other departments and individual users may not install, alter, extend or re-transmit network services in any way without prior proper approval.
4. Departments and individual users are prohibited from attaching or contracting with a vendor to attach port assignable, hard-wired equipment such as routers, switches, hubs, firewall appliances, wireless access points, virtual private network (VPN) servers, network address translators, proxy servers, and dial-up servers to the College network without prior authorization from Clarendon College-IT.
5. Clarendon College-IT may disconnect and remove any Clarendon College-IT

- unauthorized network device, including wireless routers and access points.
6. Personal software firewalls are permitted, as are printers, scanners, and similar peripheral devices if directly connected as a peripheral device to a desktop or notebook computer. Clarendon College-IT reserves the right to monitor and audit individual devices, systems, and general network traffic to ensure compliance with this and other College policies.
 7. Use of devices connected to the College network is accompanied by certain responsibilities. Specifically, all users are required to ensure timely updates of applications, operating systems, and virus protection software to minimize risks of system compromise. (Clarendon College-IT provides non-intrusive products and services for achieving such updates.)
 8. The College network is unencrypted. Server and application administrators that utilize this network to transmit sensitive, restricted and confidential information are responsible for information security on the network. Examples of available protections include encrypted protocols such as SSL, IPSec, SSH, etc. Contact Clarendon College-IT for assistance in implementing the necessary protective measures.
 9. Clarendon College-IT requires the registration of servers connected to the College network, which must be collocated in the Clarendon College-IT data center. Following registration, Clarendon College-IT will facilitate an information-technology risk assessment to ensure compliance with state and College

standards and best practices. A department's administrative head is responsible for designating a server administrator for each server. The server administrator shall collaborate with Clarendon College-IT as necessary to:

- a. Register the server with the ISO;
- b. Protect the server against exploitation of known vulnerabilities.
- c. Address and resolve security problems identified with any device or application for which they are responsible.
- d. Utilize the protection benefits available through the College's network edge protection mechanisms (e.g., firewall, intrusion prevention systems, etc.);
- e. Accommodate risk assessments, vulnerability scans, and penetration tests of their server by Clarendon College-IT and take steps to mitigate the risks identified by these procedures.
- f. Immediately report system compromises and other security incidents to the ISO.

10. Internet connectivity is ubiquitous across the campus. Virtually all rooms and meeting spaces at Clarendon College are equipped with wired or wireless connectivity. Nevertheless, facility reservations do not necessarily include the right to use the College network for any and all purposes. Consistent with Acceptable Use Policy, the College cannot guarantee support of audio or video streaming by reserving parties.

- a. Departments that accept facility reservation requests from external parties will

ascertain the party's need for audio or video transmissions and consult with Clarendon College-IT about that need. To assure compliance with this provision, departments that administer building or room reservations should include the following (or similar) statement on all reservation applications and request forms: "Streaming of audio or video is not permitted from this facility without advance notice and consultation. The reserving party declares that it – DOES / DOES NOT (circle one) – wish to stream audio or video from this facility."

PURPOSE

The purpose of this policy is to ensure an information technology infrastructure that promotes the mission of the college. Clarendon College's information services network has been established for the use and benefit of Clarendon College in the conduct of its academic, business, and other operations. This document provides direction and support for the Clarendon College Information Security Program and the Information Technology (Clarendon College-IT) Policies.

This framework of IT security policies collectively represents the basis of the institutional Information Security program and on the aggregate whole meet the objectives as articulated by Texas Administrative Code Chapter 202 (TAC§202), Texas Higher Education Coordinating Board (THECB) and the associated guidelines.

This policy promotes the following goals:

- To ensure the integrity, reliability, availability, and performance of Clarendon College information technology resources;
- To ensure that use of Clarendon College information technology resources is consistent with the principles and values that governs Clarendon College as a whole;
- To ensure that information technology resources are used for their intended purposes; and
- To ensure all individuals granted access privileges to Clarendon College information technology resources have a clear understanding of what is expected during use and the

consequences of violating Clarendon College policies.

SCOPE

This program applies equally to all individuals granted access privileges to any Clarendon College information technology resources.

POLICY STATEMENT

Information technology resources play an integral part in the fulfillment of the primary mission of the college. Users of Clarendon College's information technology resources have a responsibility to protect and respect those resources, and are responsible for knowing the regulations and policies that apply to appropriate use of the college's information technology resources.

Users must understand the expectation that if needed Clarendon College information technology resources may be limited and/or regulated by Clarendon College to fulfill the primary mission of the college. Usage may be constrained as required to assure adequate capacity, optimal performance, and appropriate security of those resources.

Anyone using Clarendon College's information resources expressly consents to monitoring of the network by the college at any time and for any purpose, including but not necessarily limited to, evidence of possible criminal activity, violations of law, contract, copyright or patent infringement, and/or violation of any college policy, rule, or regulation.

A review of the institution's information security program for compliance with

these standards will be performed at least biennially, based on business risk management decisions, by individual(s) independent of the information security program and designated by the institution of higher education head or his or her designated representative(s). TAC 202.76(c)

NON-CONSENSUAL ACCESS

Clarendon College cannot absolutely guarantee the privacy or confidentiality of electronic documents. Consequently, persons that use these Clarendon College-owned resources, or any personally owned device that may be connected to a Clarendon College resource, have no right to privacy in their use of these resources and devices. However, Clarendon College will take reasonable precautions to protect the privacy and confidentiality of electronic documents and to assure persons that Clarendon College will not seek access to their electronic messages or documents without their prior consent except where necessary to:

- Satisfy the requirements of the Texas Public Information Act, or other statutes, laws or regulations;
- Allow institutional officials to fulfill their responsibilities when acting in their assigned capacity;
- Protect the integrity of Clarendon College's information technology resources, and the rights and other property of Clarendon College;
- Allow system administrators to perform routine maintenance and operations, security reviews, and respond to emergency situations; or

- Protect the rights of individuals working in collaborative situations where information and files are shared.

To appropriately preserve the privacy of electronic documents and allow authorized individuals to perform their assigned duties, specific college staff and law enforcement will sign a Clarendon College Non-Consensual Access to Electronic Information Resources Request Form annually and submit the form to the Director of Information Systems (DIS). At the beginning of each fiscal year, non-consensual access requests will be resubmitted, reviewed, and approved or denied by the DIS.

Individuals may request non-consensual access to specific data by initiating the Non-Consensual Access to Electronic Information Resources Request Form, obtaining the approval of their organizational head, and submitting the form to the Director of Information Systems (DIS). If the request appears compliant with college policy, the DIS or designee will coordinate with the Information Security Officer (ISO) as necessary to satisfy the request.

VIOLATIONS

Failure to adhere to the provisions of the information technology security policies may result in:

- suspension or loss of access to institutional information technology resources
- appropriate disciplinary action under existing procedures applicable to students, faculty and staff, and
- civil or criminal prosecution

Potential violations will be investigated in a manner consistent with applicable laws and regulations, and Clarendon College policies, standards, guidelines and practices.

EXCEPTIONS TO POLICY

Exceptions are granted on a case-by-case basis and must be reviewed and approved by the College designated DIS. The required Policy Exception Form and procedures can be found at <http://www.ClarendonCollege.edu/IT>. The IRM will mandate the documentation and additional administrative approvals required for consideration of each policy exception request.

PURPOSE:

Clarendon College may, at its discretion, provide portable computing devices and media to employees. The portability offered by these devices and media

increases the risk of unauthorized disclosure of information stored on them.

To maintain the confidentiality, integrity and availability of data and network resources at Clarendon College, the Portable Computing Policy establishes requirements for safeguarding electronic devices that can contain protected data.

SCOPE:

The Clarendon College Portable Computing Policy applies to all individuals that use portable computing devices and media, whether Clarendon College issued or privately owned, to access the Clarendon College information technology computing environment.

POLICY STATEMENT:

It is Clarendon College's policy to protect mobile computing devices and the information contained on such devices. Individuals that use these devices must ensure that they protect the hardware provided from theft and unnecessary damage as well as the data stored on them.

As a general practice, sensitive information should only be stored on servers. Data owners must carefully evaluate the risk of lost or stolen data against efficiencies related to mobile computing before approving the storage of confidential or sensitive information on portable computing devices.

The users of portable computing devices or media used to store, transmit or process protected data are expected to take all appropriate measures and precautions to prevent the loss, theft, damage and/or unauthorized use and shall include the

following:

- Physically and logically safeguard the devices.
- Ensure that College-approved anti-malicious software applications and signatures are up-to-date.
- Use encryption to safeguard all storage media, (e.g., hard drives, USBs).
- Avoid unsecured or untrusted networks.
- Confidential information should not be accessed over unsecured or untrusted networks.
- Confidential information should not be stored on a portable computing device.
- The installation of a mobile device security software on all college mobile computing systems to secure and track all mobile computing devices, i.e. tablets and laptops.
- Prevent the use of the portable computing device or media by unauthorized persons; are responsible for any misuse of the information by persons to whom they have given access.
- All reasonable precautions to prevent data compromise should be taken when using portable computing devices (e.g., shield screen from passive viewing, password protected screen saver).
- Keep portable computing devices within view or securely stored at all times.
- Ensure the device is shut down or secured when not in use (e.g., password protect devices offering such capabilities).

- Unattended portable computing devices must be physically secure (e.g., locked in an office, desk drawer or filing cabinet; in an automobile, secure in a non-visible location).
- Promptly notify Clarendon College-IT if any portable computing device or media has been lost or stolen.

Requests for exceptions to this policy must be submitted in writing and will be reviewed on a case by case basis. To address a specific circumstance or business need, the Director of Information Systems may grant an exception to the encryption requirement for portable devices.

DEFINITIONS:

Malicious Software: A term used to describe any code in any part of a software system or script that is intended to cause undesired effects, security breaches or damage to a system.

PURPOSE:

The purpose of the Privacy Policy is to clearly communicate privacy expectations to Clarendon College information technology resource users. It will define standards for managing and enforcing security on any information stored or passing through Clarendon College information technology resources or any

personally owned or third-party device that may be connected to a state-owned resource.

Internal users should have no expectation of personal privacy with respect to Clarendon College information technology resources. Information technology resources provided by Clarendon College are owned by the State of Texas and subject to state and Clarendon College oversight. The use of Clarendon College information technology resources may be monitored to manage performance, perform routine maintenance and operations, protect the integrity of Clarendon College information technology resources, perform security reviews, and fulfill complaint or investigation requirements.

SCOPE:

The Internal Privacy Statements apply equally to all individuals who use Clarendon College information technology resources or connect personally-owned devices to Clarendon College information technology resources.

The Public Privacy Statements apply to members of the general public concerned about the types of information gathered and how that information is used.

POLICY STATEMENT:

CLARENDON COLLEGE Internal Privacy:

Electronic files created, sent, received, or stored on computers owned, leased, administered, or otherwise under the custody and control of Clarendon College are the property of Clarendon College. These files are not private and may be accessed by

authorized Clarendon College-IT employees and campus administration at any time without knowledge of the information technology resource user or owner.

To manage systems and enforce security, Clarendon College-IT may log, review and otherwise utilize any information stored on or passing through its information technology resource systems in accordance with the provisions and safeguards provided in the Texas Administrative Code § 202 (TAC § 202), Information Resource Standards. For these same purposes, Clarendon College-IT may also capture user activity such as websites visited.

Third party and customer information has been entrusted to Clarendon College for business purposes and all faculty and staff will do their best to safeguard the privacy and security of this information. Customer account data is confidential and access will be strictly limited based on business need.

CLARENDON COLLEGE Website Public Privacy:

Clarendon College maintains the <http://www.clarendoncollege.edu/> website and other Clarendon College-owned or –hosted domains as a public service. Clarendon College detailed public privacy statement is available on the website (Web Privacy and Site Link) regarding individual websites, data collection, public forums, and links to other sites.

For site management functions, information is collected for analysis and statistical purposes (please refer to CLARENDON COLLEGE Web Privacy and Site Link Policy). This information is not reported or used in any manner that would reveal

personally identifiable information unless Clarendon College is legally required to do so in connection with law enforcement investigations or other legal proceedings.

For site security purposes and to ensure that the site remains available to all users, Clarendon College uses software to monitor network traffic to identify unauthorized attempts to upload or change information, or otherwise cause damage which is strictly prohibited and may be punishable under applicable state and federal laws.

REMOTE DESKTOP/VIRTUAL PRIVATE NETWORK ACCESS POLICY

1920

PURPOSE:

The Remote Desktop/Virtual Private Network Access Policy exists to protect Clarendon College information technology resources. Security of the information technology resources that reside on the Clarendon College domain is ensured in part through restricting remote access. Remote Desktop (RDP) or Virtual Private Network (VPN) allows Clarendon College users (Regular and Visitor Account users as defined in Policy) to securely access the university's network via an existing connection to the Internet from a remote location.

If the connecting computer is not secure using RDP or VPN connections presents an increased security risk. Security, Internet access and configuration of the connecting computer are solely the responsibilities of the user account holder making the connection.

SCOPE:

The Clarendon College Remote Desktop/Virtual Private Network Access policy applies equally to all individuals with authorized RDP or VPN accounts accessing Clarendon College information technology resources.

POLICY STATEMENT:

1. It is the responsibility of individuals with RDP and/or VPN privileges to ensure that unauthorized users are not allowed access to the Clarendon College network using their security credentials.
2. RDP/VPN authentication is controlled using Clarendon College user account credentials.
3. RDP/VPN gateways are managed by Clarendon College-IT.
4. All computers connected to the Clarendon College network via RDP/VPN or any other technology must use the most up-to-date anti-virus software regardless of the type or ownership of the device.
5. RDP/VPN users will be automatically disconnected from Clarendon College's network after a designated time out period as determined by Clarendon College-IT. The user must then logon again to reconnect to the network.
6. Pings or other network utilities must not be used to keep the RDP/VPN connection open.
7. Non Clarendon College-owned equipment must be configured in compliance with Clarendon College policies and procedures.

8. By using RDP/VPN technology with personal equipment, users must understand that their machines are a de facto extension of Clarendon College's network, and RDP/VPN users and privately owned equipment must be in compliance with Clarendon College policies and procedures.
9. RDP/VPN access does not guarantee access to all campus systems/applications. Access to systems/applications will be evaluated on a case-by-case basis.

DEFINITIONS:

Unauthorized user: A person who has not been given official permission or approval to access Clarendon College systems.

Virtual Private Network (VPN): Extends a private network across a public network, like the internet, to provide remote offices or individuals with secure access to the Clarendon College network using special hardware and software.

Remote Desktop (RDP): A program or an operating system feature that allows a user to connect to a computer in another location, see that computer's desktop and interact with it as if it were local

VPN Gateway: (Also known as a VPN Router) is a connection point that connects two networks which are connected by a non-secure network such as the Internet.

PURPOSE:

IT risk assessments are designed to assess the security posture of a system or application with the purpose of management's awareness of the major security risks in the Clarendon College infrastructure and recommend mitigation plans of these risks.

The principal goal of a risk management process is to protect the College and its ability to perform its mission. Therefore, the risk management process should not be treated primarily as a technical function carried out by the IT experts who operate and manage the IT system, but as an essential management function of the College.

Risk assessments will be conducted annually and/or on an ad-hoc basis in response to specific events such as when major modifications are made to the system's environment or in response to a security incident or audit.

SCOPE:

The Clarendon College Risk Assessment Policy applies to all stakeholders involved in preserving the confidentiality, integrity and availability of information technology resources.

Stakeholders include, but are not limited to, Clarendon College administration, application administrators, system administrators, data owners, users, and information security personnel.

POLICY STATEMENT:

Appropriate security levels and data control requirements must be determined for all information technology resources based on Clarendon College confidentiality, integrity and availability requirements for the information, as well as its criticality to

Clarendon College's mission and legal requirements.

Information technology risk analysis and management processes require gathering a broad range of data on information technology assets and potential threats. The data collection phases of the risk management process include an information technology asset inventory consisting of server build documentation, network penetration tests, logs, patch histories and other vulnerability assessment tools for essential assets.

The ISO shall periodically (at least annually) complete or commission a risk assessment of the information resources considered essential to the College's critical mission and functions, and shall recommend, to the owners and custodians of these resources, appropriate risk mitigation measures, technical controls, and procedural safeguards.

The assessment may incorporate self-assessment questionnaires, vulnerability scans, scans for confidential information, and penetration testing. Findings and recommendations shall be provided to the owners and custodians of the information assets and shall also be presented to the VP for Administrative Services for sharing with the president as appropriate.

The key roles of personnel who are responsible for the protection of Clarendon College information technology resources and participate in the risk management/assessment process can be found in the Clarendon College Information Security Program. Roles include Data Owner or designated representative(s), Data

Custodian(s), Users, Information Security Officer (ISO), and Information Resources Manager.

DEFENITION:

Network Penetration Test: Colloquially known as a pen test, is an authorized simulated attack on a computer system that looks for security weaknesses, potentially gaining access to the system's features and data.

SECURITY BREACH NOTIFICATION POLICY

1930

PURPOSE:

This policy is intended to ensure that all Clarendon College personnel are aware of the college's responsibilities under the law.

This policy governs the actions of any Clarendon College official (defined below) who discovers or is notified of a breach or possible breach of the security of unencrypted personal information collected and retained by Clarendon College as computerized data.

This document establishes specific requirements for the use of all computing and network resources at Clarendon College. (See Texas Administrative Code, Title 1, Part 10, Chapter 202, Subchapter C (TAC§202) and Texas Higher Education Coordinating Board)

This policy should be used along with the Clarendon College Technology Incident Management Policy.

SCOPE:

This breach can be the result of a compromise of a Clarendon College computing system or network, the loss or theft of any physical device in which personal information is stored, or the loss or theft of any storage medium upon which personal information is maintained.

Clarendon College maintains computerized data on various college systems which includes personal information. If the security of any Clarendon College system storing or processing computerized data that includes unencrypted personal information is compromised, the owner or licensee of that information must be notified by the college of the breach of the system if the information was, or is reasonably believed to have been, acquired by an unauthorized person.

RIGHTS AND RESPONSIBILITIES:

Good faith acquisition of personal information by a Clarendon College official with a legitimate educational interest in the data or information is not a breach of the security of the system when the personal information is not used or subject to further unauthorized disclosure. Clarendon College is not required to disclose a technical breach of system security which does not seem reasonably likely to subject the owners of personal information stored on those systems to a risk of criminal activity.

All college officials have a duty to comply with and to understand their responsibilities as expressed in this policy. Certain Clarendon College administrative personnel also have additional responsibility for maintenance and for execution of this

policy.

POLICY STATEMENT:

1. This disclosure shall be made as expediently as possible following discovery or notification of the breach—without unreasonable delay and consistent with any measures taken to determine the scope of the breach and restore the integrity of the affected data system. This notification may be delayed if a law enforcement agency determines that the notification will impede a criminal investigation. In that case, the notification may be made after the law enforcement agency determines that such notification does not compromise an ongoing investigation.
2. Any college official who discovers or is notified of a breach of the security of any Clarendon College technology system will report it. The initial report of a potential security breach involving computerized data will likely be made in one of three ways:
 - a. A report to the Clarendon College Director of IT of the theft of a computing or storage device.
 - b. If the presenting incident is a theft, the Director of IT will:
 - c. Report it to law enforcement, and act as liaison with any law enforcement agency involved in the situation;
 - d. Notify the Vice President of Administrative Services of the incident, and

- e. Notify the Executive Vice President of Academic and Student Affairs (or designee) of the incident.
 - f. Follow normal computing services inventory procedures regarding loss or theft of technology;
3. The discovery of a breach of security of a computer or the Clarendon College network by support staff.
- a. If the presenting incident is discovery of a network breach, the Director of IT will:
 - i. Begin network and computer technical investigations following the guidelines articulated in the Clarendon College IT security standard addressing intrusion detection and incident response. This will continue until the security and technical aspects of the situation are resolved.
 - ii. Notify the Dean of Administrative Services of the incident, and
 - iii. Notify the Executive Vice President of Academic and Student Affairs (or designee) of the incident.
4. In some circumstances, it may be appropriate to report a breach of the security of the network or Clarendon College computers to law enforcement, as well.
- a. The Director of IT (or designee) and the Dean of Administrative

Services (or designee) will consult regarding the nature and scope of the security breach and to determine whether law enforcement needs to be notified.

- b. The Director of IT (or designee) will notify the Executive Vice President of Academic and Student Affairs (or designee) regarding the incident and will have responsibility for guiding the initial investigation by IT technical representatives into the situation and determining the nature of any unencrypted data which may have been compromised.
5. If it is determined that a breach may have compromised the security, confidentiality, or integrity of Clarendon College-managed personal information, the Executive Vice President of Academic and Student Affairs (or designee) will initiate a meeting as soon as possible of the college's Incident Response Team, consisting of the following or their designees:
- a. Executive Vice President of Academic and Student Affairs (chair).
 - b. Vice President of Administrative Services.
 - c. Registrar (if student data may be involved) and/or Payroll/Benefits Coordinator (if staff data may be involved).
 - d. Director of IT.
6. The Dean of Administrative Services will notify the president of the college that the Incident Response Team has been activated and will provide

updates regarding actions taken, as appropriate.

7. The Incident Response Team will:
 - a. Assign from the team membership a scribe responsible for maintaining notes, minutes and a final written report to the college president regarding the incident, its resolution and the institutional response.
 - b. Gather information regarding the situation and the type and nature of the unencrypted data that has potentially been compromised.
 - c. Determine if a legal responsibility exists to notify individuals that their personal information has or may have been disclosed.
 - d. Determine who is affected by the breach and should be notified.
 - e. Determine which of the methods of disclosure (below) prescribed by law is appropriate.
 - f. Assign appropriate tasks to team members based on their institutional responsibilities and expertise. These tasks will be determined by the team based on the specific situation.
 - g. Conduct a debriefing meeting once the situation is resolved to review and approve the report to the college president.
8. Notification of disclosure of personal information may be made in one of the following methods:
 - a. Written notice.

- b. Electronic notice consistent with the provisions regarding electronic records and signatures set forth in 15 U.S.C. Sec. 7001.
- c. Substitute notice. This is allowed if the cost of providing notice to all affected individuals would exceed a reasonable amount or if Clarendon College does not have sufficient contact information.
Substitute notice is defined as ALL of the following:
 - i. E-mail notice when Clarendon College has an e-mail address for the subject persons,
 - ii. Conspicuous posting of a notice on Clarendon College's web site, and
 - iii. Notification to major statewide media.

SERVER ADMINISTRATION POLICY

1935

PURPOSE:

The purpose of this policy is to establish the framework to protect Clarendon College servers against unauthorized access, disclosure, modification or destruction and to assure the availability, integrity, authenticity, and confidentiality of information. A server is defined as a computer system dedicated to providing services, as a host,

to serve the needs of the users of other computers on the network.

This policy establishes standards for the base configuration of server equipment (physical or virtual devices), licensing, unnecessary services, default passwords, and disconnection/isolation of threatening servers that are owned and/or operated by Clarendon College.

SCOPE:

The Clarendon College Server Administration policy applies to any servers that are owned or managed by Clarendon College.

POLICY STATEMENT:

All Clarendon College owned or managed servers will comply with the requirements outlined in this and related Clarendon College policies, TAC§202 (Subchapter C) and other state and federal guidelines and requirements.

2. The Information Resources Manager (IRM) is ultimately responsible for the management of Clarendon College information technology resources.
3. All servers must be in physically secure locations and must be safeguarded in compliance with the IT Physical Access & Environmental Policy (). Servers are specifically prohibited from operating from uncontrolled cubicle and office areas.

4. All servers that connect to the Clarendon College network must be installed, configured and managed by the Clarendon College-IT.
5. The Clarendon College-IT must:
 - a. Install and configure servers according to the Director of IT's standard build documents and procedures, to include (but not limited to):
 - i. Install an appropriately licensed server operating system and antivirus protection software.
 - ii. Make every effort to adhere to the latest applicable security configuration benchmarks published by the Center for Internet Security (CIS).
 - iii. Disable all default accounts except those required to provide necessary services.
 - iv. Install the most recent security patches as soon as practical according to Change Management Policy ().
 - v. Disable all services and applications that are not required for the server to meet its mission (e.g., Telnet, FTP, DNS, DHCP and SMTP on a file server).
 - vi. Include the use of standard security principles of least-required access to perform a function (e.g., do not use root access when a non- privileged account will do).
 - b. Install appropriately licensed software required by the Data Owner

or Application Administrator.

- i. Disable all application default accounts except those required to provide necessary services.
 - ii. Change the application default passwords for all enabled accounts to one consistent with Clarendon College User Accounts Password Policy ().
- c. If a methodology for secure channel connection is necessary, privileged access must be performed over secure channels, (e.g., encrypted network connections using SSH or IPSec).
- d. Servers must have the necessary vulnerability scans performed before providing service to the campus or internet. Any serious vulnerability must be corrected before being placed into production.
- e. Those servers that house confidential College data, or that provide access to it, may be required to meet additional requirements as defined by the appropriate data owner.
- f. An Clarendon College device registry is maintained by Clarendon College-IT to facilitate compliance with security policies and procedures and assist in diagnosing, locating and mitigating security incidents on the College network.
 - i. Servers that attach to the Clarendon College network must be registered by Clarendon College-IT and approved by the ISO.

6. Application Administrators must:
- a. Enforce the application's usage policies, implement the application-specified access controls, and configure and maintain the server's application according to the required standards.
 - b. Include the use of standard security principles of least-required access to perform a function (e.g., do not grant an administrative account access to the application when a non-privileged account will do).
7. Backups should be completed regularly based on a risk assessment of the data and services provided and must comply with the Data Backup Policy (IL).
8. Clarendon College-IT will disconnect a server posing an immediate threat to the Clarendon College network in order to isolate the intrusion or problem and minimize risks.
- a. This can be done without contacting the owner or application administrator

if circumstances warrant.

- b. The server will remain disconnected until it is brought back into compliance or is no longer a threat.

9. Clarendon College cooperates fully with federal, state, and local law enforcement authorities in the conduct of criminal investigations and will file criminal complaints against users who access or utilize the network to conduct a criminal act.

10. Exceptions to the Server Administration Policy must be submitted in writing and approved by the ISO. Requests shall be justified, documented, and communicated as part of the risk assessment process.

PURPOSE:

The purpose of the System Development & Acquisition Policy is to ensure that security is an integral part of Clarendon College system planning and management and the business processes associated with those systems.

It is important that the procedures for new and changed information systems that contain protected data integrate information security requirements into the software lifecycle. The security requirements must identify controls that are needed to ensure confidentiality, integrity, and availability. These controls must be appropriate, cost-effective, and mitigate risks that may result from unauthorized access, use, disclosure, disruption, modification, or destruction of the protected data. This is true regardless of whether the systems are purchased, used from community or open source collaborations, or developed by Clarendon College.

SCOPE:

The System Development & Acquisition Policy applies to all software/systems installed and utilized on Clarendon College information technology resources that contain confidential and/or protected data.

This policy does not apply to faculty or students developing and experimenting with software programs as part of an approved curriculum.

POLICY STATEMENT:

All software developed in-house that runs in a production environment shall be

developed according to the Clarendon College-IT Project Lifecycle and must adhere to the Clarendon College Application Security Policy (). At a minimum, this plan shall address the areas of stakeholder identification and involvement; preliminary analysis or feasibility study; risk identification and mitigation; systems analysis; general design; detail design; development; quality assurance and acceptance testing; implementation; and, post- implementation maintenance and review. The requirement for such methodology ensures the software will be adequately documented and tested before it is used for critical information. Additionally, this methodology ensures that projects match the strategic direction of the College and compliance with guidelines.

Where resources permit, there shall be a separation between the production, development, and test environments. This ensures that security is rigorously maintained for the production system, while the development and test environments can maximize productivity with fewer security restrictions. Testing should not be performed using production systems due to the threat to its confidentiality and/or integrity.

All applicable systems shall have designated owners and custodians. Clarendon College-IT shall perform periodic risk assessments of production systems to determine whether the controls employed are adequate.

If an enterprise information system or component of that system is acquired from an external vendor, written documentation must be provided that specifies how the product meets the security requirements of this policy and any special security

requirements of the system. The vendor must allow testing of the system's security controls by Clarendon College, if needed. All acquired software that runs on production systems shall be subject to the Clarendon College-IT Project Lifecycle and must adhere to the Clarendon College Application Security Policy ().

An assessment of the system's security controls and a vulnerability assessment must be performed on all new information systems or systems undergoing significant change before moving them into production. Periodic vulnerability assessments must also be performed on production information systems and appropriate measures taken to address the risk associated with identified vulnerabilities.

Clarendon College-IT Change Management procedures () will be followed to review and approve a change before it is moved into production.

Opportunities for misuse of information should be appropriately minimized or prevented with risk assessments, monitoring and logs, and end-user awareness and training on preventive strategies.

DEFINITIONS:

Change Management: The controlled identification and implementation of required changes within a business's information technology systems.

Data Custodian: The person responsible for overseeing and implementing physical, technical, and procedural safeguards specified by the data owner.

Project Lifecycle: A series of activities which are necessary to fulfill project goals or objectives.

Risk Assessment: A systematic process of identifying, evaluating, and estimating the levels of risks involved in a process or system, their comparison against benchmarks or standards, determining appropriate ways to eliminate or control the hazard, and determining an acceptable level of risk.

TECHNOLOGY SECURITY TRAINING POLICY

1945

PURPOSE:

Understanding the importance of computer security and individual responsibilities and accountability for computer security are paramount to achieving organization security goals. This will be accomplished with a combination of general computer security awareness training and targeted product-specific training. USER ACCOUNTS PASSWORD POLICY

1965

PURPOSE:

All user accounts will be protected by passwords that are both strong and confidential. Users will protect the security of those passwords by managing passwords according to Clarendon College-IT password procedures.

System and Application Administrators will ensure account passwords are secured using industry best practices.

SCOPE:

The Clarendon College User Accounts Password policy applies equally to all individuals granted access privileges to any Clarendon College information technology resources.

POLICY:

Users are responsible for what is accessed, downloaded, or created under their

credentials regardless of intent. An unauthorized person can cause loss of information confidentiality, integrity and availability that may result in liability, loss of trust, or embarrassment to Clarendon College.

Account holder's responsibilities:

1. Must create a strong password and protect it.
2. Password must have a minimum length of six (8) alphanumeric characters.
3. Password must contain a mix of upper case, lower case and numeric characters and special characters (!@#%^&*+=?/~';:;<>|\).
4. Passwords must not be easy to guess, for instance, they should not include part of your social security number, your birth date, your nickname, etc.
5. Passwords must not be easily accessible to others (e.g. posted on monitors, under keyboards).
6. Computing devices must not be left unattended without locking or logging off of the device.

USER ACCOUNT CREDENTIALS ELIGIBILITY STATEMENT

1970

Clarendon College has created this User Account Credentials Eligibility Statement in order to clarify who can and will be granted rights and access privileges to Clarendon College information technology resources.

Clarendon College automatically authorizes Clarendon College user account credentials for any individual with an official affiliation as an employee (including faculty and staff as identified by Human Resources), retiree, and admitted or registered student (as determined by the Registrar). The following defines user account credentials eligibility for Clarendon College. Exceptions may be requested by contacting the Director of information Systems or Information Security Officer.

Definition of Affiliation:

- a. Student - A person who is attending classes, either online, dual credit or classroom study, at Clarendon College. Student accounts will have access to appropriate campus file shares, email and/or other college electronic services.
- b. Faculty - The academic staff, teaching either online, dual credit or classroom classes, at Clarendon College.
- c. Retiree – Clarendon College employee who has taken retirement from the college.

Upon user activation, account holders are authorized to access the resources dictated by their role membership, for example:

- a. Faculty, staff, student workers, approved visitors, and student accounts will have access to appropriate campus file shares and email with designated quotas, appropriate file servers, personal website, wireless access, specific applications, and self-service functionality.
- b. Retiree and limited visitor accounts will have access to email with designated quotas, personal websites and self-service functionality. File shares other than the home drive and file servers are not available to this role.
- c. Authorized custom accounts will be created according to specific needs.

All inactive accounts (accounts not being accessed, such as not logging in to a workstation or checking e-mail) will either be disabled or deleted (depending on the

account type) after 1 year of inactivity.

Faculty, staff and student employee user accounts may change or be completely deleted due to, but not limited to, separation of employment, retirement, or extended leave. This can result in the deletion of data; such as e-mail or home drive contents.

- a. All data stored on Clarendon College information technology resources remains the property of the college.
- b. It is the responsibility of the affected department to ensure that all Clarendon College department data is not stored on an individual's drive, but is stored on the department drive or a shared directory.
- c. It is the responsibility of the individual employee to archive incidental/personal data to removable media prior to separation from the college.
- d. Employee's individual email boxes and home drive data will be retained for 1 month after account deletion and may be available for retrieval.
- e. Users may contact the service desk at (806) 874-4816 or email administrator@clarendoncollege.edu to initiate recovery services.
- f. Clarendon College cannot guarantee recovery of individual files.
Retrieval is dependent on management approval and storage capacity.

Visitor and third-party accounts:

A person who is not entitled to account credentials through Clarendon College affiliation but who is otherwise affiliated with the college through activities sponsored by a current Clarendon College faculty or staff member may obtain visitor or third-party (vendor, contractor, support services) account credentials.

Visitor and third-party accounts are termed accounts that must be requested and sponsored by a current faculty or staff member. The sponsor specifies an initial desired expiration date of one year or less as part of the request. Specifics pertaining to these accounts are:

- a. Regular accounts (e.g., faculty, staff, and student) can be migrated to visitor account status if the sponsorship requirements are met.
- b. Sponsors must request that visitor or third-party accounts be deactivated when the account holder no longer requires account privileges, or has completed the Clarendon College work for which an account was required.
- c. The sponsor requests a visitor or third-party account by submitting an Account Request form on behalf of the individual seeking a visitor account. The sponsor's eligibility is verified (i.e. their status as current Clarendon College staff or faculty). The sponsor will receive an automated notification that the account will be deactivated unless the sponsor requests that it be renewed before the expiration date.
- d. The sponsor is expected to remain in contact with the account holder to

be able to respond to such reminders with an assessment of whether the account should be extended or not.

- e. Without a request from the sponsor to extend the account beyond the expiration date it will automatically be deactivated upon expiration.
- f. The sponsor is responsible for taking reasonable steps to ensure that the user account holder uses their account in accordance with Clarendon College-IT policies. If there are any problems with a visitor or third-party account, Clarendon College-IT will contact the sponsor.
- g. One or more limited visitor accounts are also available upon request by a current faculty or staff member via the Clarendon College-IT Service Desk. These are numbered accounts that are reset per each checkout request and useful for conferences and seminars where attendees need computer access.

By default, only specific accounts will be listed in the Clarendon College directory and on the website.

- a. Faculty/staff accounts are listed in the Clarendon College directory on the public website with information provided by Human Resources or the Registrar. This information will include email address, professional title, phone number, department, and room number.
- b. Students have the option of suppressing their directory listing through the Registrar's Office.

- c. Visitor accounts may appear in the directory at the sponsor's request with name and email information only.

To access restricted systems, services, or facilities, the account holder or sponsor must request authorization from the relevant data owner and/or data custodian.

Requests for exceptions to this policy must be submitted in writing ([Clarendon College-IT Policy Exception Form](#)) to the Information Security Officer (ISO) or Director of Information Technology (DIT) and will be reviewed on a case by case basis. Requests shall be justified, documented, and communicated as part of the risk assessment process.

PURPOSE:

The purpose of this policy is to establish standards for the administration of user account credentials that access Clarendon College information technology resources. These resources must be protected from unauthorized access, loss, corruption, or destruction, thus ensuring the confidentiality, integrity and availability of these resources. Proper management of account credentials provides a means of assuring accountability and protecting Clarendon College resources. The standards established in this policy include issuing account credentials, granting access to approved resources, account credential maintenance and deactivation processes.

Scope:

The Clarendon College User Account Credentials Management policy applies to those responsible for the management of user account credentials on Clarendon College information technology resources.

Policy Statement:

Creating unique domain user account credentials is an automated process utilizing the current approved Clarendon College account naming convention and is based on assigned roles within the ERP system (e.g. faculty, staff, student worker, student, visitor, alumni, etc.) The level of authorized access will be based on the principle of least privilege (PoLP), but if a user is assigned multiple roles, the most privileged role will take precedence.

1. The creation of a user account credential issues a unique, non-transferable electronic identity known as the “username” and a corresponding “password”. Usernames will remain in effect throughout the individual’s official affiliation with Clarendon College. ([User Account Credentials Eligibility](#)).
2. Usernames are not reused.
3. When an individual changes roles or ends their affiliation, Clarendon College-IT deactivates the user account credentials that no longer meet Clarendon College's eligibility requirements ([User Account Credentials Eligibility](#)) and removes non-standard access.

4. Upon user activation, account holders are authorized to access the resources dictated by their role membership.
5. Clarendon College-IT requires users to change passwords per User Account Credential Password Policy.
6. Requests for exceptions to this policy must be submitted in writing ([Clarendon College-IT Policy Exception Form](#)) to the Information Security Officer (ISO) or Director of Information Systems (DIS) and will be reviewed on a case by case basis. Requests shall be justified, documented, and communicated as part of the risk assessment process.

If fewer than three vendors are on the list, the College shall contact each vendor. Whenever possible, telephone quotes should be confirmed in writing by mail, fax, or e-mail. A College District may purchase an automated information system using the purchasing method described by Government Code 2157.068 for commodity items or a purchasing method designated by the comptroller to obtain the best value for the state, including a request for offers method. A College District that purchases an item using a method listed above satisfies any state law requiring the College District to seek competitive bids for the purchase of the item. *Gov't. Code 2157.006*

Sole Source

Compliance with Education Code 44.031 is not required for purchases that are available from only one source, including:

1. An item for which competition is precluded because of a patent, copyright, secret process, or monopoly.
2. A film, manuscript, or book.
3. A utility service, including electricity, gas, or water.
4. A captive replacement part or component for equipment.

A Regent, employee, or agent shall not, with criminal negligence, make or authorize separate, sequential, or component purchases to avoid the purchasing requirements set out in Education Code 44.031. An officer or employee shall not knowingly violate Education Code 44.031 in any other manner.

"Component purchases" means purchases of the component parts of an item that in normal purchasing practices would be made in one purchase. "Separate purchases" means purchases, made separately, of items that in normal purchasing practices would be made in one purchase. "Sequential purchases" means purchases, over a period, of items that in normal purchasing practices would be made in one purchase.

If only one of the bidders submitting identical bids is a resident of the District, that bidder shall be selected. If two or more such bidders are residents of the District, one

shall be selected by the casting of lots. In all other cases, one of the identical bids shall be selected by the casting of lots.

The Board shall prescribe the manner of casting lots and shall be present when the lots are cast. All qualified bidders or their representatives may be present at the casting of lots. *Local Gov't Code 271.901*

Reverse Auction

A college district that uses the reverse auction procedure must include in the procedure a notice provision and other provisions necessary to produce a method of purchasing that is advantageous to the College District and fair to vendors. *Local Gov't Code 271.906(b)*

Reverse auction procedure means:

1. A real-time bidding process usually lasting less than one hour and taking place at a previously scheduled time and Internet location, in which multiple suppliers, anonymous to each other, submit bids to provide the designated goods or services; or
2. A bidding process usually lasting less than two weeks and taking place during a previously scheduled period and at a previously scheduled internet location, in which multiple suppliers, anonymous to each other, submit bids to provide the designated goods or services.

Inter-local Agreements

To increase efficiency and effectiveness, the College may contract or agree with

other local governments and with state agencies, including the comptroller, to perform some of its purchasing functions. *Gov't Code 791.001, 791.011*

An inter-local contract must be authorized by the Board and the governing body of each contracting party; must state the purpose, terms, rights, and duties of the contracting parties; and must specify that each party paying for the performance of governmental functions or services shall make those payments from current revenues available to the paying party.

An inter-local contractual payment must be in an amount that fairly compensates the performing party for the services or functions performed under the contract. The contract may be renewed annually. *Gov't Code 791.011(d)–(f)*

The College may agree with another local government, including a nonprofit corporation that is created and operated to provide one or more governmental functions and services, or with the state or a state agency, including the comptroller to purchase goods and services reasonably required for the installation, operation, or maintenance of the goods. Such an agreement may not, however, apply to services provided by firefighters, police officers, or emergency medication personnel.

Gov't Code 791.025(b)(c); Atty. Gen. Op. JC-37 (1999)

State Purchasing Program

Purchasing services performed for the College by the comptroller may include:

1. The extension of state contract prices to the College when the comptroller considers it feasible.
2. Solicitation of bids on items desired by the College if the solicitation is considered feasible by the comptroller and is desired by the College.
3. Provision of information and technical assistance to the College about the purchasing program.

The comptroller may charge the College District its actual costs in providing purchasing services.

College Requirements

The College may participate in the purchasing program, including participation in purchases that use the reverse auction procedure, by filing with the BPC a resolution adopted by the Board requesting that the College be allowed to participate on a voluntary basis, to the extent the BPC deems feasible, and stating that the Board shall:

1. The Vice President of Administrative Services will act for the College in all matters relating to the purchasing program, including the purchase of items from the vendor under any contract.

 - b. Electronically sending purchase orders directly to vendors and

electronically sending the comptroller reports on actual purchases.

4. Be responsible for the vendor's compliance with all conditions of delivery and quality of the purchased item.

A purchase made through participation in this program meets any state requirement to seek competitive bids for the purchase of the item.

Electronic Marketplace

If the College has the ability to electronically send purchase orders and information, it may participate in the Department of Information Resources' electronic procurement marketplace, as described in Gov't Code Chapter 2177. *Local Gov't Code 271.083*

Multiple Award Contract Schedule

The BPC shall develop a schedule of multiple award contracts that have been previously awarded using a competitive process by the federal government or any other governmental entity in any state.

The College may purchase goods or services directly from a vendor under a contract listed on a schedule. An authorized purchase satisfies any requirement of state law relating to competitive bids or proposals and satisfies any applicable requirements of Government Code 2157.

The price listed for a good or service under a multiple award contract is a maximum price. The College may negotiate a lower price for goods or services under a contract listed on a schedule. *Govt. Code 2155. Subchapter 1.*

Cooperative Purchasing Program

The College may participate in a cooperative purchasing program with another local government or a local cooperative organization. If the College does so, it may sign an agreement with another participating local government or a local cooperative stating that the College will:

1. The Vice President of Administrative Services will act on behalf of the College in all matters relating to the program.
2. Make payments to another participating local government or local cooperative organization or directly under a contract, as provided in the agreement.
3. Be responsible for the vendor's compliance.

If the College participates in a cooperative purchasing program, it satisfies any law requiring it to seek competitive bids. *Local Gov't Code 271.102; Atty. Gen. Op. JC-37 (1999)*

The College will not enter into a contract to purchase construction-related goods or services through a purchasing cooperative in an amount greater than \$50,000 unless (insert who we want to designate) certifies in writing that:

1. The project for which the construction-related goods or services are being procured does not require the preparation of plans and specifications under Occupations Code Chapter 1001 or 1051; or

2. The plans and specifications required under Chapters 1001 and 1051 have been prepared.

Commitment of Current Revenue

A contract for the acquisition, including lease, of real or personal property is a commitment of the College current revenue only, provided the contract contains either or both of the following provisions:

1. Retains to the Board the continuing right to terminate the contract at the expiration of each budget period during the term of the contract.
2. Is conditioned on a best efforts attempt by the Board to obtain and appropriate funds for payment of the contract. *Local Gov't Code 271.903*

Group Purchasing Programs

The College is authorized to purchase materials, supplies, or equipment through group purchasing programs that offer discount prices to institutions of higher education.

Gov't Code 2155.134(a)

Criminal History

Before entering into a contract with the College, a person or business must give notice to the College if the person or an owner or operator of the business has been convicted of a felony. The College may terminate a contract with a person or business if the College determines that the person or business failed to give such notice or misrepresented the conduct resulting in the conviction. The College must compensate the person for services performed before the contract terminated. *Education Code 44.034*

Operational Policy

The purchase of supplies, materials, equipment, and services for the operation of Clarendon College shall be accomplished in a controlled and systematic manner which supports the interests of economy and quality. The President shall be responsible for developing and implementing procedures and guidelines consisting of generally acceptable purchasing practice.

General Provisions

1. The general requisition/purchase order procedures described below are to be used for all purchases regardless of the amount of the purchase.
2. Requisitions/purchase orders are to be used by all personnel in ordering supplies, equipment and services.
3. All employees must adhere to institutional purchasing procedures and policies, as well as state and federal laws.

Purchases of less than \$25,000

1. The originator/requester should secure a requisition/purchase order from his/her supervisor or from the Business Office. The originator should provide the following information on the requisition:
 - a. A description of the item(s) requested. If a specific brand/model is required, it should be noted in the description.
 - b. A recommended vendor should be listed. Price, quality, serviceability, and potential travel and/or freight expenses involved

in the purchase should be considered in determining potential vendors.

- c. An estimate of unit and total cost should be listed.
 - d. A justification for the purchase should be listed on the requisition/purchase order. Additional supporting documentation should be attached, as appropriate.
2. The originator/requestor should present the completed requisition to his/her supervisor/director and the appropriate Vice President for approval. If approved, the originator/requestor or the supervisor/director should assign the budget account number(s) against which the purchase is to be charged. The Vice President should validate the account number and that the requested amount is within budgetary limitations. (Note: The supervisor's and the Vice President's signature will indicate to the Business Office that the supervisor and the Vice President agree that the purchase is necessary and appropriate. In some cases, the originator/requestor and the budget custodian (supervisor) will be one in the same. In that event, the individual need only sign the requisition as budget custodian. In all cases, the purchase order must be signed by the appropriate Vice President.
 3. Once the requisition/purchase order has been approved by the appropriate Vice President, the originator/requestor should present the requisition to the Business Office. At that point, the appropriate administrative approvals will

be secured by the Business Office, contingent upon available budget. Only the College President is authorized to provide final administrative approval.

- a. In the case of any purchase of \$5,000.00 and less than \$25,000 the Vice President of Administrative Services will require that the originator/requestor secure a minimum of three quotes from potential vendors.
- b. In cases where a department is dealing with a particular vendor on a regular basis (i.e., utility bills, maintenance or office supplies, bookstore) an open purchase order may be established through the same procedures as above. The amount of the open purchase order will be determined by the Vice President of Administrative Services. Once that amount is expended, another open purchase order can be created, budget permitting. Once an open purchase order has been established, departmental employees may make purchases within the established limit without filing individual purchase orders for each item. However, in each case, the employee must submit all receipts and/or invoices to the Business Office so that expended amounts can be charged against the open purchase order.
- c. Purchases that do not exceed \$200.00 may be made through the

College's petty cash fund, upon approval by the Business Office. In the event, an employee makes a purchase with petty cash, all receipts must be returned to the Business Office.

4. Once the purchase order has been approved and a purchase order number assigned, copies of the purchase order will be distributed by the Business Office for the following purposes:
 - a. The originator/requester will receive two copies of the purchase order. One copy to be presented to the vendor and a second copy to be returned to the Business Office after the goods have been received and inspected.
 - b. Two copies will be retained in the Business Office - one for the numerical file and a second for the vendor file.
5. As stated, a copy of the purchase order should then be presented by the requester to the vendor in a logical fashion (i.e., hand delivered, mailed, or faxed).
6. Upon receipt of the item(s) purchased, the originator/requestor should examine the item(s) to make certain what was ordered has been received in good condition. Upon inspection/acceptance of the goods, the requester should return his/her copy of the purchase order to the Business Office with a notation on the purchase order that payment should be made to the vendor. Any invoices, packing slips, or other relevant documentation

should be attached to the purchase order by the requester.

- a. In the event the item(s) are not received in good condition and/or the order is short, the originator/requestor should immediately notify the Business Office. The Vice President of Administrative Services or his/her designee will be responsible for contacting and arranging for satisfaction. No payment will be made by the College to the vendor until full satisfaction has been achieved.
- b. Moreover, no payments will be made to the vendor absent adherence to the above procedures. In the event an employee fails to follow the aforementioned procedures, the originator/requester may be held financially liable for the purchase(s).
- c. Any incident deemed an emergency or extraordinary circumstance by the Vice President of Administrative Services and/or the President, may be exempted from the aforementioned procedure until the originator/requester is available to complete the process.
- d. Note: If any warranties are associated with the item(s) purchased, documentation of such, i.e., warranty cards, should accompany the authorization to make payment. A copy of the warranty will be retained by the Business Office.

Purchases of more than \$25,000 and less than \$50,000

When the College seeks to purchase personal property of a value of at least

\$25,000 but less than \$50,000, in the aggregate, for a 12-month period, the College may either purchase those items in accordance with Education Code 44.031(a) and (b) described above or follow the vendor list procedures as described.

Purchases of \$50,000 or More

In the case where a purchase is \$50,000 or more in the aggregate for each 12-month period, the College will engage in a purchasing process as set forth by the Texas Education Code, Section 44.031 et seq.

These options include:

1. Competitive bidding.
2. Competitive sealed proposals.
3. A request for proposals for services other than construction services.
4. An inter-local contract.
5. The reverse auction procedure as defined by Government Code 2155.062(d).
6. The formation of a political subdivision corporation under Local Government Code 304.001.

In awarding a contract, the College District is required to consider the following factors:

1. Purchase price.
2. The reputation of the vendor and of the vendor's goods and services.

3. The quality of the vendor's goods or services.
4. The extent to which the goods or services meet the College District's needs.
5. The vendor's past relationship with the College District.
6. The impact on the ability of the College District to comply with laws relating to historically underutilized businesses.
7. The total long-term cost to the College District to acquire the goods or services.
8. Any other relevant factor specifically listed in the request for bids or proposals.

When the College employs a sealed bid request for proposals process, it will advertise for bids in the local newspaper a minimum of two successive weeks. Additionally, in any case in which the College is limited to purchasing from a sole source supplier, appropriate documentation will be filed in the Business Office to that effect.

Contracts of \$1 million or more

The College will not enter into a contract valued at \$1 million or more with a business entity that requires Board action unless the business entity submits a disclosure of interested parties to the College at the time the business entity submits the signed contract to the College.

Before the College will award a contract that has a value of at least \$1 million, for

the purchase of goods or services to a business entity, each of the College's purchasing personnel working on the contract must disclose in writing to the President any relationship the purchasing personnel is aware of that the employee has with an employee, a partner, a major stockholder, a paid consultant with a contract with the business entity the value of which exceeds \$25,000, or other owner of the business entity who is within a degree described by Government Code 573.002, the third degree by consanguinity or within the second degree by affinity of the purchasing employee.

Items for Resale

Items purchased for resale by the bookstore are not bid.

Emergency Purchases

If College facilities and/or equipment are severely damaged or destroyed and the Board determines that the delay posed by competitive bidding process would prevent or substantially impair the conduct of classes or other essential school activities, then contract(s) for the repair and/or replacement of equipment and/or the repair of College facilities may be made without competitive bidding, as otherwise required. *Education Code 44.031(h)*.

Authority to Obligate Funds

The business office, under the direction of the Vice President of Administrative Services through the President, through the requisition/purchase order system, has sole authority to obligate the funds of the College. The College will assume no liability for payment of obligations undertaken in any other manner

or by any other person.

Purchases Using Federal Funds

The following Procurement Policies shall apply to all Contracts for and Purchases of goods and services beginning September 1, 2018.

All procurements made with Federal funds will be consistent with 2 CFR §200.317 through §200.326 Procurement Standards. These policies are to ensure that goods and services are procured at the best available price consistent with high quality, that sound business and ethical practices are adhered to in all Clarendon College business transactions and that all transactions are completed in a manner that provides for open and free competition.

The Vice President of Administrative Services has primary responsibility and oversight for Clarendon College's purchasing activities and has the authority to delegate purchasing responsibilities as appropriate. The Vice President of Administrative Services will periodically review and evaluate these procedures to ensure the best internal controls possible. All purchases shall comply with appropriate and relevant federal, state and local laws as well as with Clarendon College's policies. In the event that federal, state or local laws, regulations, grants or requirements are more restrictive than this policy, such laws, regulations, grants or requirements shall be followed. In some instances Clarendon College's existing purchasing procedures and policies are more restrictive than required by Federal standards.

Procurement Standards

To ensure open and free competition:

- Unreasonable requirements shall not be placed on firms and/or individuals in order for them to qualify to do business.
- No geographical preferences shall be used in the evaluation of bids or proposals unless State/Federal statutes expressly mandate or encourage a geographic preference.
- Contract specifications or statements of work may not unduly restrict competition and must identify the requirements that proposing firms or individuals must fulfill and the factors to be used in evaluating bids or proposals.
- Splitting purchases or contracts to avoid competition is prohibited.

Purchase Types and Proposal Evaluation Requirements:

- Micro Purchase (under \$3,500): competition is not required, however, a good faith effort should be made to compare prices with comparable suppliers.
- Small Purchase (\$3,501-\$20,000): competition is required to establish a competitive price. Preferably, price or rate quotes from at least three qualified sources must be documented. If three price or rate quotes are not possible, document attempts. For recurring expenses, price or rate quotes may be obtained and documented every two to three years. This can be through a

formal RFP process or requesting quotes from potential vendors. When a competitive proposal method is not feasible for a small purchase, a sole source purchase may be made. This would require either the item or service is only available from a single source, an emergency situation that does not allow additional time for a competitive process, the granting agency authorizes noncompetitive negotiations, or competition is deemed inadequate after solicitation of a number of sources.

- Competitive Proposals (all purchases over \$20,001): Competitive proposals are required through a sealed bid process unless the item is only available from a single source. All qualified vendors must submit formal written bids, proposals or qualifications. RFPs or RFQs may be used. If only one proposal is received, the procurement may qualify as a single source and would require review by the Vice President of Administrative Services. Documentation must include:
 - Formal written bids, proposals, or qualifications from all qualified sources.
 - The method of procurement.
 - The evaluation and selection process.
 - The basis for the contract price.
 - Final labor, overhead rates.

Requirements for Requests for Proposals/Qualifications

- Request for Proposals (RFP) are used when the specific requirements

and/or technical specifications of a project are unclear and criteria in addition to pricing are needed. The proposal is a solution which typically includes a scope of project and/or service, approach, technical capabilities, financial information and references.

- Request for Qualifications (RFQ) are used to evaluate the qualifications of firms and/or consultants to determine which are most qualified to provide the service needed. RFQs are evaluated on technical factors and qualifications including education, experience, management and other applicable criteria. RFQs may be used in conjunction with RFPs.
- The following requirements apply to RFPs and RFQs:
 - All RFP/Qs must be reviewed and approved by the Vice President of Administrative Services before being issued;
 - The RFP/Q must be publicized and identify the evaluation factors and their relative importance, and state that all complete and timely submittals will be considered;
 - All RFP responses must contain cost or price estimates;
 - The primary selection criterion will be the ability of the firm/consultant to understand the issues and accomplish the tasks described in the RFP/Q;
 - For RFPs, the proposal most advantageous to the program will be selected, even when the preferred proposal is not the lowest priced;

and

- For RFQs, competitors' qualifications will be evaluated and the most qualified competitor will be selected, subject to negotiation of fair and reasonable compensation.

Procurement Process

1. Determine the applicable purchase type and requirements based upon the anticipated total cost. Costs shall not be divided in an attempt to create a lower total cost to avoid a procurement method or competition requirements. If one item being purchased requires another item to be complete or make a whole, the total cost of the two items together should be considered to determine the procurement method, unless the two items can not be acquired from a single supplier. Total quantity, taxes, freight, and installation costs, as well as the total costs expected for all phases of a multi-phase project are to be included when estimating the anticipated total costs.
2. Complete and document all requirements for the applicable purchase type.
3. Have materials reviewed and approved by the President and the Vice President of Administrative Services. No payments may be made prior to receipt of goods or services unless approval is obtained from the Vice President of Administrative Services.
4. After steps 1-3 are complete, purchase or execute the contract for the goods and/or services.

5. Promptly submit all purchase requests and other commitment documentation to the business department.

Contracts

Contracts funded directly under State/Federal grants shall adhere to State/Federal statutory and regulatory requirements. The President or his designee shall sign all contracts and contract amendments. Documentation in the contract file must include:

- The method of purchase or procurement.
- The evaluation and selection process.
- The basis for the contract price.
- Final labor, overhead rates.

Regarding contract texts, all contracts shall include:

- Termination clause for cause or convenience if over \$10,000
- Remedies for breach of contract if over \$50,000
- Byrd Anti-Lobbying Amendment (31 U.S.C. 1352) certification for contracts exceeding \$100,000

2. The rate that, if applied to the total taxable value, will impose the amount of taxes needed to fund maintenance and operation expenditures of the unit for the next year.

A taxing unit may not impose property taxes in any year until the governing body has adopted a tax rate for that year, and the annual tax rate shall be set by ordinance, resolution, or order, depending on the method prescribed by law for adoption of a law by the governing body. The vote on the ordinance, resolution, or order setting the tax rate must be separate from the vote adopting the budget. Tax Code 26.05(a)–(b)

This policy shall apply to all Clarendon College funds not needed for current

operations. This policy shall be reviewed annually by the Board of Regents. This review and any changes to this policy will be placed on the agenda of a meeting of the Board and formal action of the Board will be taken.

All funds of the District shall be invested in accordance with State and Federal laws and regulations and shall be managed responsibly and in accordance with this policy, for investment and not for speculation.

I. INVESTMENT OBJECTIVES

The investment objectives of Clarendon College shall be:

A. Preservation and safety of the principal.

The primary objective of all College investment activity is the preservation and safety of the principal. Each investment transaction shall ensure that capital losses are avoided, whether from security default, sale of instruments prior to maturity, or erosion of market value.

B. Maintain sufficient liquidity.

The investment portfolio will remain sufficiently liquid to provide adequate cash flow to meet the operating requirements of the College on a timely basis.

C. Minimize risks involving interest rates, maturity, and market value. All investments will be made by an investment officer given the investment officer's assessment of the desired investment risk (i.e., credit risk, market risk, opportunity risk) in order to provide the College with the best available

yield on instruments or securities that have fixed interest rates and fixed maturities.

- D. Maximize investment income within the above objectives of preservation, liquidity, and risk.

To provide diversification in the investment portfolio with regard to maturity, instruments, and financial institutions permitted under the Public Funds Investment Act. Yields on investments will need to be competitive with an analysis being made to the Board of Regents on a regular basis.

II. INVESTMENT RESPONSIBILITIES

The Board of Regents has the responsibility of designating the College's Investment Officer(s). The Vice President of Administrative Services and the Chief of Staff are the designated investment officers of the College and are responsible for the investment of the College's funds. In determining whether an Investment Officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

1. The investment of all funds or funds under the College's control over which the officer had responsibility rather than a consideration as to the prudence of a single investment, and

The President, at his discretion, may reassign a person to duties other than those for which he was employed pending termination of employment.

2. Suspension for Cause.

After considering charges and/or evidence, the President may suspend any employee, if in his/her judgment formal inquiry is likely to provide the basis for disciplinary action. Such suspension shall follow the President's careful preliminary inquiry and deliberation and shall come after failure of his/her informal efforts to bring about a satisfactory adjustment of the matter, which efforts shall include informing the employee in writing of specific charges.

REDUCTIONS IN FORCE

3360

Definitions:

1. "Reduction in force (RIF)" means the dismissal of an instructor, professor,

administrator, or other professional employee before the end of a contract term for reasons of financial exigency or program change. Non-renewal of a employee's in term contract is not a "reduction in force" as used in this policy.

2. "Financial exigency" means any decline in the college's financial resources brought about by decline in enrollment, cuts in funding, decline in tax revenues, or any other actions or events that create a need for the District to reduce financial expenditures for personnel.

4. "Program change" means any elimination, curtailment, or reorganization of a curriculum offering, program or school operation because of a lack of student response to particular course offerings, legislative revisions to program funding, or a reorganization or consolidation of two or more divisions or departments.

General Grounds:

All contracts shall, unless exempted by the Board, contain a provision that a reduction in force may take place when the Board determines that a financial exigency or program change requires that the contract of one or more teachers, administrators, or other professional employees be terminated. Such a determination constitutes the necessary cause for dismissal.

Employment Areas:

A reduction in force may be implemented in one, several, or all employment areas.

Employment areas shall be defined as:

1. Administration.

2. Associate degree programs.
3. Certificate degree program.
4. Remedial and other programs.
5. Academic support programs, such as library or computer programs.
6. Counseling and support programs.

Employment Areas:

A reduction in force may be implemented in one, several, or all employment areas of classified employment.

Criteria For

Using the following criteria, the College President shall determine which positions shall be eliminated and shall submit the recommendation to the Board. These criteria are listed in order of importance; the College President shall apply them sequentially to the selected employment areas until the number of staff reductions necessary have been identified i.e. if all necessary reductions can be accomplished by applying the work/trade skills, criteria, it is not necessary to apply the performance or subsequent criteria.

1. Work/trade Skills: Appropriate work/trade skills required by the college for support of the operation of the institution.
2. Performance: Employee's effectiveness as reflected by the most recent written evaluations and/or other appraisal documentation.

Clarendon College shall not impose a mandatory retirement age on any employee.

Eligible (nonexempt) employees of the College are entitled to receive overtime pay at the rate of one and one-half times the regular rate, or compensatory time off at 1-1/2 hours for each hour worked over 40 hours per week. The work week begins at midnight Sunday and extends through midnight the following Sunday, unless otherwise defined by the administration.

Employees may be asked to work overtime from time to time in order to carry out the functions of the College. Overtime will be rotated, when possible, among employees who wish to work overtime. Proper notice will be given, if practicable, whenever overtime is anticipated.

Hours accounted for funeral leave, vacation time, sick time, court appearances or holiday pay are not considered a day worked for purposes of calculating overtime. There is no extra pay for employees scheduled to work Saturdays or Sundays as part of a work week.

Overtime must be approved in advance by the supervisor and the appropriate Vice President. Supervisors must keep clear and accurate records. Any overtime earned during a pay period must be turned in during that pay period. Time sheets and other records must be kept a minimum of four years.

Compensatory time off may be taken in collaboration with the supervisor so as to not disrupt the efficient functioning of the College. No more than seventy-five hours of compensatory time may be accumulated. Compensatory time must be used in the

current fiscal year (September 1 - August 31).

EMPLOYEE SICK LEAVE AND LEAVE OF ABSENCE

3470

The following policies concerning sick leave and leave of absence have been established for all full-time employees of Clarendon College.

Sick Leave

All permanent nine-month to twelve-month full time employees are entitled to sick leave equal to one 8-hour day for each month of service, which may be accumulated on an unlimited basis beginning January 1998. (Employees of record on or prior to January 31, 1998 have a beginning ceiling of 50 days.) Nine- month employees will receive nine (9) days per year plus one day for each month worked during the summer months. Twelve-month employees will receive twelve (12) days per year. All absences with pay must be approved by the appropriate Vice President and the President.

Sick-leave benefits are allowed for the illness of an employee or illness of a member of the employee's immediate family. For purposes of this policy, "immediate family" is defined as: spouse, child, step-child, adopted child, foster child, parent, sibling, or grandparent. Sick leave extending beyond three (3) consecutive working days may

require a written statement from a licensed physician. Clarendon College reserves the right to require such evidence for any absence where sick leave is claimed. Salary reduction will be made in the event accrued sick leave is exceeded.

Sick-leave time must be reported online via Greenshades for all full-time employees. Unused sick leave will not be compensated to the employee on any occasion. Sick leave must be earned before it can be used. Employees will accrue half their monthly accrual of sick leave if employed on the first (1st) working day of the month and work through the 15th of that month. Employees will accrue half their monthly accrual if employed on the 16th of the month and work through the last working day of that month. (If the 16th falls on a weekend or holiday, accrual begins on the first (1st) working day thereafter.) Employees will not borrow from anticipated future accruals. Employees may not use sick leave accrued by other employees, except in the event of Catastrophic Leave.

An employee may not earn sick leave when on leave without pay for ten (10) or more cumulative days within a calendar month.

Sick leave may be used for only the following purposes:

1. When the employee is unable to work because of sickness, or injury; or for medical, dental, or optical treatment.
2. Serious illness of a member of the employee's immediate family. Immediate family is defined as the father, mother, sister, brother, spouse, child, step-child, adopted child, foster child, grandparents, grandchildren, mother-in-law, father-

in-law, or any individual acting as a parent or guardian of an employee.

The use of sick leave is contingent upon the occurrence of one of the events listed above.

If the event never occurs, the employee is not entitled to the sick leave benefits.

Employees are not entitled to payment for accrued and unused sick leave when they terminate their employment for any reason.

Employees who are on sick leave for three (3) or more consecutive days must furnish a certificate of illness from an attending physician. The administration may also request a certificate of illness if an employee has had two or more absences of fewer than three (3) days, or if the absences are disproportionately more frequent on specific days.

Definitions

Catastrophic Illness – a medical condition of an employee as certified by a physician that requires an employee's absence from duty for a prolonged period of time and which results in a substantial loss of income to the employee because of the exhaustion of all earned sick, annual, holiday, and compensatory leave time.

Catastrophic Leave – paid leave which is transferred to a leave recipient from the college's Catastrophic Leave Bank. Catastrophic leave may be granted only in 8 hour increments. While an employee is on catastrophic leave, he or she will receive normal college benefits such as college contributions to insurance and retirement programs.

Catastrophic Leave Bank – a pool of accrued annual and sick leave donated by employees which may be approved by the President for use by other employees.

Catastrophic Leave Committee – a committee comprised of not less than five members who represent a cross section of the college’s work force and who review applications from employees for Catastrophic Leave and make recommendations to the college President relating to such leave.

Leave Donor – an employee whose voluntary written request to donate accrued annual or sick leave to the CLBP of the college. The college President must approve the request. No employee shall be allowed to be a leave donor if such donation will reduce that employee’s accrued sick leave to less than 90 days unless that employee is terminating employment with the college

Leave Recipient – a current full-time employee for whom the college has approved an application to receive the leave from the Leave Bank.

Medical Condition – when an employee is incapacitated for the performance of assigned duties due to a disability, illness, or injury of the employee and such disability, illness, or injury required the employee’s absence from duty for a prolonged period of time as documented by a physician.

Prolonged Period of Time – a continuous period of time whereby a medical condition prevents the employee from performing their duties.

Substantial Loss of Income – a continuous period of time where the employee would not have otherwise been compensated by the college, workers' compensation, or other college benefit program. No substantial loss of income shall occur until the employee has exhausted all earned annual leave, sick leave, holiday leave, and compensatory leave.

Catastrophic Leave Committee

The college program will include a Catastrophic Leave Committee appointed by the President and comprised of not less than five members. Every effort will be made to ensure that committee members represent a cross section of administration, faculty, and staff. The committee structure shall include a mechanism for the following:

- For the review of Catastrophic Leave Requests;
- For determining eligibility; and
- For the determination of continuing eligibility, provided no employee shall be eligible to be awarded Catastrophic Leave unless all accrued annual, sick, holiday, and compensatory leave have been exhausted, the employee has been employed by the college or other state agency for at least two years, and the employee has accumulated at least 70% of the sick leave time earned prior to the catastrophic event. (*Exceptions may be recommended by the committee and approved by the President.*)

The committee shall utilize the following guidelines to review Catastrophic Leave Requests:

- No employee shall be eligible for approved Catastrophic Leave in excess of the time required to become eligible for the college's Long Term Disability Program (currently 120 days).
- No employee shall be eligible for Catastrophic Leave when the illness or injury is covered by workers' compensation until such time as this benefit has been exhausted.
- No employee shall be approved for Catastrophic Leave unless the employee has provided an acceptable medical certificate completed by a physician supporting the continued absence certifying that the employee is ill and will continue to be incapacitated from performing the employee's duties. Information relative to the employee's assigned duties will be made available to the physician.
- In no case shall Catastrophic Leave be granted beyond the date the physician certifies that the Employee is able to return to work.
- Catastrophic Leave which would result in a negative balance in the college's Catastrophic Leave Bank will not be approved.
- Recommendations by the Catastrophic Leave Committee shall be reviewed and approved by the College President.
- The decision of the President shall be final and binding. The President may take into account the impact on the college's operation in granting or denying catastrophic leave or in modifying previously approved leave, if in the judgment of the President such approved leave would seriously impact the college's operation.

- Applications for Catastrophic Leave shall be reviewed on a first-filed, first-considered basis.

Personal Leave

All permanent nine-month to twelve-month full-time employees are entitled to Personal Leave equal to 16 hours with pay per year. These hours may not be accumulated beyond the end of the fiscal year. Institutions of higher education are conducted for the common good. The following statements rest upon the belief that the common good depends upon a free search for truth and its free expression without intent to do personal harm.

As a function of instruction, each faculty member is entitled to freedom in discussing the subject which he/she teaches. For classroom use limitations to this basic statement exist only within bounds of pedagogy. Faculty should be aware that classroom speech does not occur in a public forum. Outside of the classroom each faculty member is entitled to speak or write as a citizen of his/her nation, state, and community without fear of institutional censorship or discipline.

ACADEMIC RESPONSIBILITY**3550**

The concept of academic freedom must be accompanied by an equally demanding concept of responsibility, shared by the Board of Regents, administration, and faculty members.

The fundamental responsibilities of a faculty member as a teacher and scholar include a maintenance of competence in his/her field of specialization and the exhibition of such competency in lectures, discussions, and publications.

Exercise of professional integrity by a faculty member includes recognition that the public will judge his/her profession and his/her institution by his/her statements. Therefore, he/she should strive to be accurate, to exercise appropriate restraint, to show respect for the opinion of others, and to avoid creating the impression that he/she speaks or acts for his/her college when he/she speaks or acts as a private person.

A faculty member should be selective in the use of controversial material in the classroom and should introduce such material only as it has clear relationship to his/her subject field.

Under the Americans with Disabilities Act (ADA), no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, including a college district, or be subjected to discrimination by any such entity. A public entity shall not exclude or otherwise deny equal services, programs, or activities to an individual or entity because of the known disability of an individual with whom the individual or entity is known to have a relationship or association. *42 U.S.C. 12132; 28 C.F.R. 35.130*

SECTION 504

Under Section 504 of the Rehabilitation Act, no otherwise qualified individual with a disability shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. *29 U.S.C. 794(a)*

DISABILITY

“Disability” means, with respect to an individual:

1. A physical or mental impairment that substantially limits one or more major life activities of an individual;
2. A record of having such an impairment; or
3. Being regarded as having such an impairment.

An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability. An impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

The term “disability” does not include:

1. Transvestism, transsexualism, pedophilia, exhibitionism, voyeurism, gender identity disorders not resulting from physical impairments, or other sexual behavior disorders;
2. Compulsive gambling, kleptomania, or pyromania; or
3. Psychoactive substance use disorders resulting from current illegal use of drugs.

42 U.S.C. 12102(1), (4)(C)–(D); 28 C.F.R. 35.108(a), (d), (g)

REGARDED AS HAVING SUCH AN IMPAIRMENT

An individual meets the requirement of being “regarded as having such an impairment” if the individual establishes that he or she has been subjected to an action

prohibited under the ADA because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity. *42 U.S.C. 12102(3)(A); 28 C.F.R. 35.108(f)*

TRANSITORY AND MINOR

Item 3 in the definition of “Disability,” above, (“regarded as having such an impairment”) shall not apply to impairments that are transitory or minor. A transitory impairment is an impairment with an actual or expected duration of six months or less. *42 U.S.C. 12102(3)(B); 28 C.F.R. 35.108(d)(1)(ix), (f)(2)*

MITIGATING MEASURES

The determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures such as medication, medical supplies, low-vision devices (which do not include ordinary eyeglasses or contact lenses), prosthetics including limbs and devices, hearing aids and cochlear implants or other implantable hearing devices, mobility devices, or oxygen therapy or supplies; use of assistive technology; reasonable accommodations or auxiliary aids or services; learned behavioral or adaptive neurological modifications; or psychotherapy, behavioral therapy, or physical therapy.

The ameliorative effects of mitigating measures of ordinary eyeglasses or contact lenses shall be considered in determining whether an impairment substantially limits a major life activity.

“Ordinary eyeglasses and contact lenses” are lenses that are intended to fully correct visual acuity or to eliminate refractive error.

“Low-vision devices” means devices that magnify, enhance, or otherwise augment a visual image.

42 U.S.C. 12102(4)(E); 28 C.F.R. 35.108(d)(1)(viii), (4)

MAJOR LIFE ACTIVITIES

“Major life activities” include, but are not limited to:

1. Caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, sitting, reaching, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, interacting with others, and working; and
2. The operation of a major bodily function, such as the functions of the immune system, special sense organs and skin, normal cell growth, and digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, cardiovascular, endocrine, hemic, lymphatic, musculoskeletal, and reproductive functions. The operation of a major bodily function includes the operation of an individual organ within a body system.

In determining whether an impairment substantially limits a major life activity, the term “major” shall not be interpreted strictly to create a demanding standard. Whether

an activity is a major life activity is not determined by reference to whether it is of central importance to daily life.

42 U.S.C. 12102(2); 28 C.F.R. 35.108(c), (d)

PHYSICAL OR MENTAL IMPAIRMENT

“Physical or mental impairment” means:

1. Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more body systems, such as: neurological, musculoskeletal, special sense organs, respiratory (including speech organs), cardiovascular, reproductive, digestive, genitourinary, immune, circulatory, hemic, lymphatic, skin, and endocrine; or

Any mental or psychological disorder such as intellectual disability, organic brain syndrome, emotional or mental illness, and specific learning disability.

Physical or mental impairment includes, but is not limited to, contagious and noncontagious diseases and conditions such as the following: orthopedic, visual, speech, and hearing impairments, and cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, intellectual disability, emotional illness, dyslexia and other specific learning disabilities, Attention Deficit Hyperactivity Disorder, Human Immunodeficiency Virus infection (whether symptomatic or asymptomatic), tuberculosis, drug addiction, and alcoholism.

28 C.F.R. 35.108(b)

QUALIFIED INDIVIDUAL WITH A DISABILITY

The term “qualified individual with a disability” means an individual with a disability who, with or without reasonable modifications to rules, policies, or practices, the removal of architectural, communication, or transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for the receipt of services or the participation in programs or activities provided by the college district.

42 U.S.C. 12131(2); 28 C.F.R. 35.104

INDIVIDUAL WITH A DISABILITY

35.104

STUDENT WITH A DISABILITY

A “student with a disability” is one who has a physical or mental impairment that substantially limits one or more of the student’s major life activities, has a record of having such an impairment, or is being regarded as having such an impairment.

The determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures, such as medication, medical supplies, low-vision devices (which do not include ordinary

eyeglasses or contact lenses), prosthetics, hearing aids, mobility devices, oxygen therapy, assistive technology, or learned behavioral or adaptive neurological modifications.

An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability. An impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

A student meets the requirement of being “regarded as” having an impairment if the student establishes that he or she has been subjected to a prohibited action because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity. This provision does not apply to impairments that are transitory or minor. A transitory impairment is one with an actual or expected duration of six months or less.

29 U.S.C. 705(20)(B); 42 U.S.C. 12102(1), (3)–(4)

REASONABLE MODIFICATION

A public entity shall make reasonable modifications in policies, practices, or procedures when the modifications are necessary to avoid discrimination on the basis of disability, unless the public entity can demonstrate that making the modifications would fundamentally alter the nature of the service, program, or activity.

A public entity is not required to provide a reasonable modification to an individual who meets the definition of “disability” solely under the “regarded as” prong of the definition of “disability” at 28 C.F.R. 35.108(a)(1)(iii).

28 C.F.R. 35.130(b)(7)

COMMUNICATIONS

A public entity shall take appropriate steps to ensure that communications with applicants, participants, and members of the public, and companions with disabilities are as effective as communications with others. A public entity shall furnish appropriate auxiliary aids and services where necessary to afford individuals with disabilities, including applicants, participants, companions, and members of the public, an equal opportunity to participate in, and enjoy the benefits of, a service, program, or activity of a public entity. In determining what types of auxiliary aids or services are necessary, a public entity shall give primary consideration to the requests of the individual with disabilities. In order to be effective, auxiliary aids and services must be provided in accessible formats, in a timely manner, and in such a way as to protect the privacy and independence of the individual with a disability. *28 C.F.R. 35.160*

AUXILIARY AIDS AND SERVICES

“Auxiliary aids and services” includes:

28 C.F.R. 35.104

LIMITS OF REQUIRED MODIFICATION

Title 28 C.F.R. Chapter I, Part 35, Subpart E does not require a public entity to take any action that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity or in undue financial and administrative burdens. The decision that compliance would result in such alteration or burdens must be made by the head of the public entity or his or her designee after considering all resources available for use in the funding and operation of the service, program, or activity and must be accompanied by a written statement of the reasons for reaching that conclusion. *28 C.F.R. 35.164*

DIRECT THREAT

The ADA does not require a public entity to permit an individual to participate in or benefit from the services, programs, or activities of the public entity when that individual poses a direct threat to the health or safety of others.

“Direct threat” means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures, or by the provision of auxiliary aids or services as provided below.

28 C.F.R. 35.104

In determining whether an individual poses a direct threat to the health or safety of others, a public entity must make an individualized assessment, based on reasonable

judgment that relies on current medical knowledge or on the best available objective evidence, to ascertain:

1. The nature, duration, and severity of the risk;
2. The probability that the potential injury will actually occur; and
3. Whether reasonable modifications of policies, practices, or procedures or the provision of auxiliary aids or services will mitigate the risk.

h. 20 U.S.C. 1094(e)

Employees of the College who wish to hold additional positions or offices are subject to the following rules:

Incompatible Offices

One person may not occupy two legally incompatible offices. A college instructor is an employee and not an officer within the meaning of the Texas Constitution, Art. XVI, Sec. 40; therefore, he/she is not barred from serving in another governmental capacity so

long as the two positions are not incompatible. Offices are legally incompatible when the faithful and independent exercise of one would necessarily interfere with the faithful and independent exercise of the other. Whether two positions are legally incompatible is a question to be determined by those having supervision over one or both of the positions held by the person in question, and ultimately, by the courts. In the case of a college instructor, it is the responsibility of the College President to determine whether any additional position or office is legally incompatible with the teaching position.

Automatic Resignation of Office

When a person occupies two offices which he/she may not occupy for constitutional reasons or at common law, it is the common law rule that by accepting the second of such positions, the person automatically vacates the first.

Employee Standards of Conduct

The following standards of conduct shall apply to all employees of Clarendon College:

1. No employee shall accept or solicit any gift, favor, or service that might reasonably tend to influence the employee in the discharge of official duties or that the employee knows or should know is being offered with the intent to influence official conduct.
2. No employee shall accept employment or engage in any business or professional activity that the employee might reasonably expect would require or induce the disclosures of confidential information acquired by reason of the official position.

3. No employee shall accept other employment or compensation that would reasonably be expected to impair the employee's independence or judgment in the performance of official duties.
4. No employee shall make personal investments or knowingly solicit, accept, or agree to accept any benefit for having exercised the employee's official powers or performed official duties in favor of another.
5. All college employees must maintain a professional relationship with college students. Anything other than a professional relationship will not be tolerated and will provide grounds for dismissal of non-professional ethics.
6. No contractual employee shall accept outside employment without disclosing intent to the President.

Disclosure in either situation must be initiated within sixty (60) days after notification of the marketability of the intellectual property.

- C. The Vice President of Academic Affairs shall review the disclosure, gather necessary information, and recommend appropriate action to the President. The Vice President of Academic Affairs or designee may conduct investigations into the substantiality of College support used to develop the property. The Vice President of Academic Affairs shall forward a recommendation to the President concerning the intellectual property and the disclosure. The recommendation may include copyrighting, licensing, patenting, and/or royalty, equity, and business management components. Final review and approval of the recommendations shall rest with the Clarendon College Board of Regents.
- D. The College or the employee may relinquish all or a portion of their rights to the property at any time during the entire process covered by this policy.
- E. All classes of intellectual property (as defined in paragraph A) created on the employee's own time, and without the use of college facilities, equipment, materials, or support, shall be the sole property of the inventor,

author, or creator (hereinafter “producer”).

- F. Subject to the provisions of this policy, intellectual property created where the College provided the environment, specifically the minimal use of facilities, personnel, equipment, and/or College funds, shall be owned by the producer(s). [The use of the Library (Learning Resource Center) and/or the provision of office space shall not constitute minimal use of College facilities or equipment.] Equity in College-supported property, where minimal use of facilities and equipment is present, shall be divided 75 percent to the producer and 25 percent to the College, after subtracting 15 percent for a protection and infringement shelter.
- G. Subject to the provisions of this policy, the ownership of intellectual property rights reside with the producer unless the work involves the substantial use of College facilities, personnel, equipment or funds. Intellectual property of this type shall be owned in total by the Clarendon College. The producer shall be entitled to an equity share of 50 percent and the College share of equity shall be 50 percent, after subtracting 15 percent for a protection and infringement shelter.
- H. When work is commissioned by the College, the College shall have and retain all rights to and full equity in the intellectual property. College personnel are considered to be conducting commissioned work when they are assigned to do so as part of general satisfactory job performance, when

they are relieved of normal duties, or when provided additional compensation (i.e. mini-grants).

- I. The College claims no ownership of popular nonfiction, novels, poems, musical compositions, or other works of artistic imagination that are not institutional works. However, the College does NOT relinquish equity claims.

Independently developed or College-supported work completed after the producer became affiliated with the College and before the effective date of this policy shall be excluded from this policy. Work described in paragraph G completed by the producer after affiliation with the College shall be considered owned by the College with all rights to equity and use reserved. Property in development at the effective date of this policy shall not be excluded from this policy.

College personnel requesting a leave of absence may request an exemption from this policy as part of the request for a leave of absence. All exemption requests shall be reviewed by the Vice President of Academic Affairs, who shall review the request and make a recommendation to the President.

- J. Before any attempt is made to protect the intellectual property, the producer will certify in writing to the Vice President of Academic Affairs that to the best of his or her knowledge the materials do not infringe on any existing

copyright, or on the rights of others.

- K. If the Board takes action to copyright, license, patent, and/or seek other available protection for the intellectual property, the administration shall proceed to assign all protection rights to Clarendon College. The College will pay the legal, filing, and all other expenses relating to receiving protection from the protection and infringement shelter. If the College does not exercise this option, the producer(s) is free to deal with the intellectual property at his or her own discretion.
- L. The College shall have no rights to royalties or proceeds in which equity and ownership is held by the producer.

If the College decides to assert its interest in royalties or sale of work which received minimal college support (see paragraph F) and is owned by the individual, the division of royalties or proceeds shall be 75 percent to the producer and 25 percent to the College, after subtracting 15 percent for a protection and infringement shelter. If the proceeds are received directly by the producer, the Vice President of Academic Affairs shall be notified and the producer shall pay the appropriate percentage to the College within fifteen (15) working days of receipt. If the College decides to assert its interest in royalties or sale of intellectual property that was College supported (see paragraph G) and which is owned by the College, the division of royalties or proceeds shall be 50 percent to the producer and

50 percent to the College, after subtracting 15 percent for a protection and infringement shelter. If the proceeds are received directly by the College, the producer shall be notified and the College shall pay the appropriate percentage to the producer with fifteen (15) working days of receipt.

College personnel shall have no rights to royalties or proceeds in which equity and ownership is held totally by the College.

The College portion of the royalties or other related income shall be used first to supplement the product protection and infringement shelter, and thereafter, for the benefit of the College.

- M. If the producer is going to license an external agency to reproduce and sell College-supported (minimal support) property, the terms of any agreement or sale shall be negotiated between the producer, the Vice President of Academic Affairs or designee, and the external agency. Income derived shall be divided 75 percent to the producer and 25 percent to the College, after subtracting 15 percent for a protection and infringement shelter. If the producer personally markets the property, the division of the proceeds shall be the same as for licensing to an external agency, unless otherwise recommended by the Vice President of Academic Affairs.

If the College licenses an external agency to reproduce and sell College-supported (substantial support) property or otherwise transfer rights to an external agency, the terms of any agreement or sale shall be negotiated

between the producer, the Vice President of Academic Affairs or designee, and the external agency. Income derived shall be divided 50 percent to the producer and 50 percent to the College, after subtracting 15 percent for protection and infringement shelter. If the College markets the property itself, the division of proceeds shall be the same as for licensing to an external agency, unless recommended otherwise by the Vice President of Academic Affairs.

- N. In circumstances where the production and distribution of intellectual property results in enterprise activities and business ventures, the producer shall be allowed a share of equity in the business and/or a share of the equity in fiscal returns and encouraged to participate in managing a business related to developing the intellectual property. Percentages and other details shall be negotiated on an individual basis between the producer and the College.

If more than one individual is entitled to an equity in the intellectual property and there is no agreement between such personnel, the Vice President of Academic Affairs will work to negotiate the manner in which the equity award to the producers will be distributed.

- O. The Vice President of Academic Affairs or designee will investigate allegations of license or copyright infringement of College-supported property and will recommend appropriate action to the President. If such

action is started alone or in concert with the producer, all costs of such action will be borne by the College. All proceeds in excess of such costs will be shared by the College and the producer following the appropriate percentage rate.

If the College decides not to act on an alleged unauthorized use of the property, the producer may initiate action to pursue redress. Costs of such action will be borne by the producer, who shall have the rights to all recoveries resulting directly from the action.

- P. No College employee shall realize a profit from materials sold exclusively to Clarendon College students.

When instructional materials developed by the faculty of Clarendon College are sold in the College Bookstore for a profit, the publisher of the material must be approved by the College administration.

- Q. Materials produced under an externally funded grant may be guided by the terms of the grant.

- R. The College encourages students who produce intellectual property directly related to course assignments. Course-related activities may be carried out with access to College facilities and equipment provided appropriate channels and guidelines are followed. The student shall adhere to the laws governing the use of copyrighted materials. Students will be governed by the following:

1. Students shall have sole ownership and equity rights to property they produce at their expense.
2. The College will be the sole owner and equity holder of property developed by the student if the College initially agreed to fund, or later, to purchase the student's project. In this case, the student may retain a copy of the project for personal use only and not for sale or distribution.
3. Any and all products of course assignments including paintings, sculptures, original musical compositions, video and audio productions, photographs, and literary works are the sole property of the student.

USE OF TOBACCO IN COLLEGE FACILITIES

3660

The use of tobacco products (including smokeless products) in college facilities and vehicles is prohibited. Smoking and use of other tobacco products is allowed only in designated smoking areas outside of college buildings.

DRUG-FREE WORKPLACE

3670

General:

The policy of the Clarendon College is to provide all students and employees with an environment that is free of substance abuse. The illegal use of controlled substances

on Clarendon College campuses or centers subjects the College, its students, and employees to unacceptable risks of accidents, interferes with the learning and working environments, and is inconsistent with the behavior expected of persons associated with the College.

Purpose:

It shall be the purpose of this policy to establish guidelines for addressing chemical abuse by employees of Clarendon College. The College takes a strong stand against substance abuse and takes the following initiatives to minimize it:

- a. Screening / Testing. (See Policy #3226, Drug and Alcohol Screening/Testing)
- b. Prevention through education.
- c. Rehabilitation through Counseling and referral.
- d. Discipline.

Policy:

Clarendon College strictly prohibits the use of intoxicating beverages and/or controlled substances by employees while on college property or while representing the college. State law shall be strictly enforced at all times on all property controlled by the District in regard to the possession and consumption of alcoholic beverages.

No employee shall possess, use, transmit, or attempt to possess, use or transmit, or be under the influence of (legal intoxication not required) any of the following substances on any property controlled by the College district.

1. Any controlled substance or dangerous drug as defined by law, including but not limited to marijuana, any narcotic drug, hallucinogen, stimulant, depressant, amphetamine or barbiturate, synthetic or otherwise.
2. Alcohol or any alcoholic beverage.
3. Any abusable glue, aerosol paint, or any other chemical substance for inhalation.
4. Any other intoxicant, or mood-changing, mind altering, or behavior-altering drugs.

The transmittal, sale, or attempted sale of what is represented to be any of the above-listed substances is also prohibited under this policy.

An employee who uses a drug authorized by a licensed physician through a prescription specifically for that employee's use shall not be considered to have violated this rule.

Screening/Testing

Drug or alcohol testing of employees shall be administered if there is reasonable suspicion of substance abuse. The College retains the right to screen prospective employees in key employment areas through drug and/or alcohol test. An employee who is determined by testing to be under the influence of a controlled substance, or who is involved in the sale, possession, distribution, purchase, dispensation, manufacture or transfer of controlled substances, as defined by state or federal law, on College property or property under College control will be subject to disciplinary action up to and including

termination of employment. Any employee who is convicted of, pleads guilty or nolo contendere, or accepts deferred adjudication to a controlled substance-related violation in the workplace under state or federal laws must notify Human Resources within five days of such a conviction or plea. Failure to notify Human Resources is grounds for suspension and/or termination of employment. Employees who are convicted of, plead nolo contendere, or accept deferred adjudication to such drug related violation and whose employment is not terminated must successfully complete a rehabilitation program approved by the College as a condition of continued employment.

Student behavior with regard to substance abuse will be governed by the provisions contained in the Student Handbook and the Student Code of Conduct.

Prevention - Education:

Primary emphasis is directed at informing employees of the health risks associated with the use of illicit drugs and alcohol.

Discipline:

Employees are not guaranteed chances for rehabilitation should their standards of conduct of job performance drop below tolerable levels. In such cases, and in cases where rehabilitation is referred, disciplinary action could result in termination/dismissal.

Rehabilitation - Referral:

Employees with substance abuse problems may, at the College's sole election, be referred to rehabilitation resources (All rehabilitation expenses to be the responsibility of the employee). In any case, employees will be required to uphold normal standards of

conduct and performance.

Substance Abuse Program

Clarendon College strongly believes that the abuse of alcohol and the use of illegal drugs and abuse of other drugs by faculty, staff, and students has a serious effect on their ability to meet the educational goals of the college. Therefore, Clarendon College has implemented a drug education/prevention and assistance program which is available to faculty, staff, and students.

Drug and Alcohol Screening/Testing

The primary purpose for drug or alcohol screening shall be to ensure that public safety and the personal safety of College employees and students are not endangered as a result of drug or alcohol use by College employees. The College has determined that a healthy and productive workforce and safe working conditions free from the effect of drugs and alcohol are important to employees, students of the College, and the general public. College policy therefore balances the interests of its students and employees together with the welfare of the general public in administering fair and equitable drug and alcohol testing procedures in accordance with this policy in the best interest of all parties.

The College is committed to maintaining a drug- and alcohol-free environment.

College employees shall be required to be alcohol- and drug-free during working hours. Current College employees in safety sensitive employment areas and employees employed from and after the effective date of this policy in safety sensitive employment areas may be required to be tested if the College has a reasonable suspicion that the

employee is using illegal drugs, controlled substances, or prescription drugs beyond the directions of a physician, or is under the influence of alcohol during working hours (i.e., having any level of alcohol concentration in the bloodstream).

Applicants for employment in safety sensitive employment areas, to whom an offer of employment is made may be required to submit to urine or blood tests to demonstrate that they are alcohol- and drug-free. The College shall not require an employee to undergo drug or alcohol testing on an arbitrary or capricious basis.

Drug and Alcohol Screening/Testing may be triggered by any one of the following events:

1. There is reasonable suspicion of impairment based upon visible evidence of erratic job behavior including, but not limited to, decline in an employee's productivity, repeated lateness or absence from work, violent behavior, emotional unsteadiness, sensory or motor skill malfunctions, or possession of a controlled or dangerous substance. A reasonable suspicion may also be based upon evidence of any kind that an employee may be impaired or presents a safety risk to himself/herself or another person.
2. An employee is involved in an accident or damages College equipment while on duty.
3. The employee has sustained a personal injury or caused another employee to sustain a personal injury.

Providing Policy to Employee or Applicant

Before requiring an employee or job applicant subject to this policy to submit to drug or alcohol testing, the College shall provide the employee or applicant with a summary of this drug testing policy. The employee or applicant shall acknowledge in writing that he/she has received a copy of the summary of such policy. At the time of testing, the employee or prospective employee shall be afforded the opportunity to list all over-the-counter and/or prescription medicines and any other information that they may consider relevant to reliability of the testing results. (See Procedure for Testing)

Notice of Policy

The College shall, within 30 days after adoption of this policy, deliver a copy of it to each employee subject to the policy at that time. Copies of the policy will be made available on the College's employee portal. Application forms shall advise applicants that Clarendon College is a drug/substance, alcohol free workplace and of the College's drug testing policy.

Rights of Employees and Job Applicants

An employee or job applicant who is asked to submit to drug or alcohol testing under this policy is entitled to refuse to undergo such testing. However, should an employee refuse a blood or urinalysis test, the refusal will be treated as insubordination and failure to obey a direct order. The refusal will furthermore be considered good cause for termination of an existing employee and good cause not to employ a job applicant. The College shall not use an initial drug-screening test's positive result, unverified by a confirmatory test, as outlined below, as grounds to refuse to employ a job applicant or

dismiss or otherwise discipline an employee.

Procedure for Testing

Any drug testing requested by the College will be performed by local law enforcement or local health professionals in accordance with their procedures.

Grounds for Termination

If the results of a confirmatory test are positive, the employee shall be subject to immediate termination, and the job applicant will not be employed. However, employees may:

4. Offer a written explanation for the positive results which may be considered in any employment decision concerning the employee.
5. Be allowed to participate in a voluntary drug abuse treatment and rehabilitation program as provided by College policy.

Employees who enter a College-approved voluntary drug abuse treatment and rehabilitation program outlined below and do not follow the preventive maintenance prescribed by their drug or alcohol Counselor or physician, or fail to remain drug- or alcohol-free or engage in drug or alcohol abuse, shall be subject to immediate termination. Employees will have only one opportunity to go through such a voluntary rehabilitation program.

On-premises or on-duty use, possession, or distribution of illegal drugs or alcohol by College employees will be good cause for termination. All employees are required to report for duty free of prescription drugs (beyond the direction of a physician), controlled

substances, dangerous drugs, and alcohol. Failure to meet this job requirement shall constitute good cause for termination.

Voluntarily and Rehabilitative Treatment

After or prior to detection of drug or alcohol abuse as provided under this policy, all employees who admit they have a substance abuse problem and who agree to go through a drug or alcohol rehabilitation program may be conditionally reinstated to their previous positions after successfully completing a College-approved substance abuse rehabilitation program and maintaining the preventive course of conduct prescribed by the employee's drug or alcohol counselor or physician including, but not limited to, regular attendance at Alcoholic Anonymous (AA) or Narcotics Anonymous (NA) meetings and rehabilitation aftercare programs.

PHYSICAL EXAMINATIONS AND COMMUNICABLE DISEASES

3675

Pre-employment Examination and Inquiries

The College District shall not conduct a medical examination or make inquiries of a job applicant as to whether such applicant is an individual with a disability or as to the nature or severity of a disability, except as provided below. However, the College District is permitted to make pre-employment inquiries into the ability of an applicant to perform job-related functions, such as asking an applicant to describe or demonstrate how, with or without reasonable accommodation; the applicant will be able to perform job-related functions. *42 U.S.C. 12112(d)(2); 29 CFR 1630.14(a)*

The College District may require a medical examination (and/or inquiry) after an offer of employment has been made to a job applicant and prior to the beginning of employment duties and may condition the offer on the results of such examination (and/or inquiry), provided all entering employees in the same job category are subjected to such an examination (and/or inquiry) regardless of disability.

The results of a pre-employment medical examination shall be used only to determine the applicant's ability to perform job-related functions. Information obtained regarding the medical condition or history of the applicant shall be collected and maintained on separate forms and in separate medical files and shall be treated as confidential medical records. However, supervisors and managers may be informed regarding necessary restrictions on the employee's work or duties and necessary accommodation; first aid and safety personnel may be informed, when appropriate, if the disability might require emergency treatment. *42 U.S.C. 12112(d)(3); 29 CFR 1630.14(b)*

Examination and Inquiries of an Employee

The College District may require a medical examination (and/or inquiry) of an employee that is job-related and consistent with business necessity and may make inquiries into the ability of an employee to perform job-related functions.

The results of an employee's medical examination shall be used only to determine the applicant's ability to perform job-related functions. Information obtained regarding the medical condition or history of the applicant shall be collected and maintained on separate

forms and in separate medical files and shall be treated as confidential medical records. However, supervisors and managers may be informed regarding necessary restrictions on the employee's work or duties and necessary accommodation; first aid and safety personnel may be informed, when appropriate, if the disability might require emergency treatment. 42 U.S.C. 12112(d)(4); 29 CFR 1630.14(c)

Communicable Diseases

Communicable diseases include, but are not limited to, measles, influenza, viral hepatitis-A (infectious hepatitis), viral hepatitis-B (serum hepatitis), human immunodeficiency virus (HIV infection), AIDS, AIDS-Related Complex (ARC), leprosy, and tuberculosis, and staph infection. For the purposes of this policy, the term "HIV infection" shall include AIDS, AIDS-Related Complex (ARC), and a positive test for the antibody to human immunodeficiency virus. Employees with communicable diseases, whether acute or chronic, shall be subject to the following provisions.

Confirmation

The information that an employee has a communicable disease shall be confirmed by one of the following methods:

1. The employee brings the information to the College's attention.
2. The employee confirms the information when asked.
3. If the College President or designee has reason to believe that the employee has a communicable disease and is unable to perform the job or poses a threat to self or others, the employee may be asked to submit to a

medical examination to determine whether the employee's physical condition interferes with the performance of regular duties or poses a threat to self or others. The results of such an examination shall be kept confidential except that the College President or designee shall be informed. Managers and/or supervisors may also be informed of restrictions in duties and necessary accommodations. First aid and safety personnel may also be informed to the extent appropriate if the condition may require emergency treatment.

Medical Factors

The College President or designee shall obtain medical advice from local health authorities or private physicians on:

1. The nature of the risk, i.e., how the disease is transmitted.
2. The duration of the risk, i.e., how long the employee will be infectious.
3. The severity of the risk, i.e., what is the potential harm to third parties.
4. The probabilities that the disease will be transmitted and will cause varying degrees of harm.
5. Whether the employee's condition interferes with the performance of regular duties. This determination shall be made by a physician who has performed a medical examination of the employee.

Qualified Disabled Person

If the College President or designee determines that work restrictions,

reassignment, or exclusion may be appropriate, the College President or designee shall determine whether the employee is a "disabled person." If it is determined that an employee is disabled, the College President or designee shall also determine whether the employee is otherwise qualified for employment. With respect to employment, a "qualified disabled person" is a disabled person who, with reasonable accommodation, can perform the essential functions of the job in question. Before any reasonable accommodation is determined the employee must provide a "Certificate of Need for Accommodation" issued by a medical authority or governmental agency. If it is determined that an employee is a "qualified disabled person," the employee must be reasonably accommodated. Accommodation is not reasonable if it poses undue financial or administrative burdens or fundamental alterations in the nature of the job.

Modifications or Reassignment

Whether an employee is disabled or not, the College President designee, based on the medical information and the requirements of the job, shall determine what exclusion or modification in job duties or assignments are appropriate, if any.

Exclusion from Work

An employee may be excluded from work if the College President or designee, in accordance with this policy, determines that the employee poses a risk of contagion to other employees or students, the employee poses a threat to his or her own health by remaining on the job, or the employee's physical condition interferes with the performance of regular duties.

Leave of Absence

The employee may present evidence to the College President or designee on any information relevant to the employee's fitness to continue the performance of regular duties. Employees who are excluded from work may be placed on any sick leave or temporary disability leave to which they are entitled.

Termination of Employment

Employees who are excluded from the work place in accordance with this policy may have their employment terminated when any sick leave or temporary leave to which they are entitled has expired, in accordance with appropriate policies and disability discrimination restrictions.

AMERICANS WITH DISABILITIES

3680

Whereas the U.S. Congress has enacted the Americans with Disabilities Act, the Board of Regents of Clarendon College intends to comply with the requirements of this act. Compliance with the ADA is an institutional priority. Clarendon College will prepare, publish, and distribute statements and procedures, as necessary, to comply with the letter and the spirit of ADA.

The President or his/her designee is designated as the ADA Coordinator for the institution. The Coordinator shall have the responsibility for the compliance with the ADA in all academic areas, student services, services to the public, extension activities, transportation, facilities, all other non-employment programs and services, Title I and Title

II of the Americans with Disabilities Act for all employees, including administrative support, temporary employees, faculty, and student employees.

ASSIGNMENT AND SCHEDULES

3710

All employees shall be subject to assignment and reassignment by the College President at any time.

TEACHING ASSIGNMENTS AND TEACHING LOADS

3720

(Updated 7-21-2011 Local)

A teaching load for full-time, academic faculty at Clarendon College is normally fifteen (15) instructional load hours or thirty instructional load hours for an academic year. The expected teaching load for full-time work force education (technical/occupational) faculty at Clarendon College is normally equal to the hours required of students for "normal" progress through a program. A teaching load for full-time developmental studies faculty is 30 hours in the developmental laboratory each week (which may include a combination of lecture, laboratory, individualized instruction, and computer assisted instruction) of each semester. The combination of teaching hours, office hours, and other professional responsibilities must total a minimum of 40 hours per week.

Final determination regarding an individual faculty member's workload will be dependent upon specific variations and requirements of the assignment, including but not limited to the number of instructional load hours, number of student contact hours per

week, number of preparations, and the nature of the subject. Teaching assignments and teaching loads are contingent upon approval by the appropriate division director and the Vice President of Academic Affairs.

Part-time Instructors

The maximum teaching load per semester for part-time faculty is nine (9) instructional load hours. Part-time instructors will be compensated at a rate established by the Board of Regents. On an emergency basis the Vice President of Academic Affairs in consultation with the President may authorize a part-time faculty member to teach more than nine instructional load hours during a given semester and, if necessary, to be compensated at a rate up to the equivalent of a beginning full-time instructor. Part-time faculty members employed on an emergency basis to teach more than nine instructional load hours in a long semester are (during this time term of employment) still regarded as temporary or part-time faculty. Assignments for part-time faculty are made on a semester-to-semester basis.

Division Directors

Division Directors will teach at least twelve instructional load hours during each long semester or at least twenty-four instructional load hours during the academic year.

Load Calculation

Computation of instructional load hours for full-time and part-time faculty members include the following: a lecture hour equals one instructional load hour and a laboratory hour equals .50 instructional load hour.

If two or more courses are taught in the same time period, load credit will be given for only one class. In cases where the load value of two classes is different, the class having the higher load value will be used to calculate the load.

Overload Assignments and Limitations

Some situations demand that full-time faculty be asked to teach an overload. And, whereas it is understood that overloads require additional class preparation time, additional teaching time, and additional office time for students, the following guidelines are designed to prevent faculty effectiveness from being diminished by overloads.

1. A one-course (3 instructional load hours) overload assignment must be approved by the Division Director.
2. The assignment of a two-course overload (6 instructional load hours) requires the approval of the Vice President of Academic Affairs.
3. Multiple overloads created by assignments outside the academic department (i.e., Continuing Education) or overloads greater than 6 instructional load hours will be considered on an individual basis and require the approval of the Vice President of Academic Affairs and the President.
4. Instructional load hours should not exceed eight (8) instructional load hours per summer term or more than fourteen (14) instructional load hours for both summer sessions.
5. Overloads for full-time faculty will be compensated at a rate set by

the Board of Regents.

6. Restrictions on class size for some classes are governed by state requirements, room size, and availability of equipment. Classes not meeting a minimum enrollment may be closed based on administrative discretion.
7. All classes taught during a special or summer session by faculty members on a nine-month contract will be handled as part-time or overload assignments and compensated on a per instructional load hour basis. Employees on ten-, eleven-, or twelve-month contracts may be assigned summer teaching during the contract period at no additional compensation.

Class Size

Restrictions on class size for some classes are governed by state requirements, room size, and availability of equipment. Classes not meeting the minimum enrollment, as determined by the President, will be offered based on administrative discretion and paid at a pro-rated rate.

Faculty Schedules and Office Hours

1. Full-time Faculty: Each faculty member should determine, following publication of his/her teaching assignment, the best hours for student advising and student conferences, and post these outside his/her office. Class schedules and office hours should be posted outside the office door and should be on file with the

Vice President of Academic Affairs. It is important that all students have the opportunity for assistance and counseling outside of the classroom.

2. Part-time Faculty: For each class taught, part-time faculty will be available one hour per week, i.e., thirty minutes before and thirty minutes after class.

ADMINISTRATIVE OFFICE HOURS

3730

Administrative offices at all Clarendon College locations (Clarendon College campus, Pampa Center campus, and Childress Center campus) are normally open from 8:00 a.m. until 4:30 p.m. Monday through Thursday and 8:00 a.m. until 4:00 a.m. on Fridays.

Alternate or flexible work schedules and alternate hours may be established by the President each semester in order to provide appropriate support services to students who attend class at other than traditional times.

FACULTY ORGANIZATION

3810

An organization for faculty has been established at Clarendon College. Any item of business which may impact the affairs of the faculty or the well-being of the institution is a proper topic for discussion at the meetings.

RANK PROCEDURE

1. Rank promotions require an application process and must be approved by the Rank Screening Committee, the Division Director, and the Vice President of Academic Affairs. These recommendations are forwarded to the President who may forward with his or her recommendation it to the Board of Regents for approval. Rank is granted only upon the

Texas Senate Bill 1321 (1993) allows students who were enrolled in a postsecondary institution 10 or more years ago to seek admission to Clarendon College without consideration of that work. transcripts indicating all previous course work attempted. For additional information on Academic Fresh Start, contact the Office of Admissions.

It is the responsibility of each transfer applicant to arrange for an official transcript to be sent to Clarendon College from each institution previously attended. A course from a regionally accredited institution will be accepted in lieu of a specific course at Clarendon College only if evidence indicates the course is equivalent.

Although all passing grades are accepted in transfer, students whose overall grade point average is less than 2.0 on a 4.0 scale, may only be admitted by the appropriate Vice President. Transfer students who are admitted by the Vice President and whose GPA is less than a 2.0 will be placed on academic probation. Failure to achieve a minimum grade point average of 2.0 for the first 12 credit hours taken at Clarendon College while on academic probation will result in academic suspension.

Course work completed at colleges and universities outside the United States will be considered for transfer on an individual basis. All foreign credentials submitted to

Clarendon College must include the original transcript plus a certified English translation.

Registration for college credit courses scheduled for any semester or term must be completed during the designated priority, regular, or late registration periods at the beginning of each semester or summer term. ARTICULATION AND TRANSFER

4160

Clarendon College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees. Because of this recognition, Clarendon College credits are regarded as equivalent to courses of the same description at other colleges and universities. Transfer problems typically occur only when students change their planned educational objectives. Examples of transfer difficulties include those encountered by students who change majors or who change from a two-year career education program to an academic transfer program.

Counselors, advisors, and faculty advisors have access to a wide range of

information on credit transfer. Students should work with an academic advisor or Counselor to design an educational plan consistent with their educational goals. Changes in plans should be discussed with the academic advisor or Counselor to avoid potential transfer problems.

In order to assist students transferring to other institutions within the State of Texas, Clarendon College has joined with other junior/community colleges and universities in the State of Texas and has adopted a common course numbering system. The purpose of the numbering system is to improve articulation and assist students who are transferring between institutions.

RESOLUTION OF TRANSFER DISPUTES FOR LOWER-DIVISION COURSES 4165

In accordance with rules and guidelines established by the Texas Higher Education Coordinating Board, if a Texas public institution does not accept a lower-division course credit earned by a student at another Texas public institution, the institution is required to provide a written notice to the student and the sending institution that the transfer of the course credit was denied. The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with Board rules and regulations. If the transfer dispute is not resolved to the satisfaction of the student or the sending institution within 45 days after the date the student received written notice of denial, the institution whose credit is denied for transfer shall notify the commissioner of the denial.

The Commissioner of Higher Education or the commissioner's designee shall make the final determination about the dispute concerning the transfer of course credit and give written notice of the determination to the involved student and the institutions.

SUPPORT SERVICES FOR STUDENTS WITH DISABILITIES

4325

The College is committed to reducing and/or eliminating the barriers that these students encounter. The Office of Student Affairs coordinates the physical and academic support services for any student who has special needs because of a temporary or permanent disability. Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990 prohibit discrimination in the recruitment, admission, and treatment of students. Students with qualified and documented disabilities may request reasonable accommodations which will enable them to participate in and benefit from educational programs and activities. Students requesting a reasonable accommodation must provide appropriate documentation of the disability (as appropriate), complete an application for support services, and the student must schedule and participate in an

interview in order to review the request for accommodation, determine appropriate services and/or reasonable accommodations, and plan an educational program.

Successful accommodation requires advance planning. Students are encouraged to make early contact with the Office of Student Affairs at the Clarendon Campus in order to identify needs and to ensure that services will be available in an effective and timely manner.

STUDENTS WITH INTELLECTUAL AND DEVELOPMENTAL DISABILITIES

“Intellectual and Developmental Disability” (IDD) is defined as a neurodevelopmental disorder that must meet the following criteria:

1. Deficits in intellectual functions, such as reasoning, problem solving, planning, abstract thinking, judgement, academic learning, and learning from experience.

Without ongoing support, the adaptive deficits limit functioning in one or more activities of daily life, such as communication, social participation, and independent living, across multiple environments, such as home, school, work, and community.
3. Items 1 and 2 of this subsection may occur after the developmental period, such as in the case of a traumatic brain injury.

4. Students with IDD may include those diagnosed with an Autism Spectrum Disorder.

"Postsecondary transitional program or postsecondary program for students with IDD" is defined as a degree, certificate, or non-degree program for students with IDD that is offered by an institution of higher education. These programs are designed to support students with IDD who want to continue academic, career, and independent living instruction following completion of secondary education.

The Coordinating Board may collect, as part of its ongoing regular data collection process, information about students with IDD for the purpose of analyzing factors affecting the college participation and outcomes of persons with IDD at public institutions of higher education. Institutions may only report students who have been identified through self-identification and/or documented receipt of special services. Students who do not self-identify will not be reflected in the data.

Institutions may, but are not required to, collect consent forms regarding reporting of the data outlined below from students who have self-identified with an IDD. In the case where a student has an appointed legal guardian, the guardian will act on behalf of the student for the purposes of this rule.

All public institutions of higher education shall provide to the Coordinating Board data as specified in 19 Administrative Code 4.12(e) regarding the enrollment of individuals with IDD in their undergraduate, graduate, and technical continuing education programs. Data about these students' participation in postsecondary

transitional programs or postsecondary programs for students with IDD will also be collected, but student-level data will not be collected for students enrolled in these programs unless they are also enrolled in credit-bearing college-level coursework or technical continuing education. Institutions of higher education and the Coordinating Board shall follow all federal privacy requirements under the Family Educational Rights and Privacy Act (FERPA) and the Health Insurance Portability and Accountability Act (HIPAA) when collecting and reporting the data.

Access to the identifiers in the Coordinating Board Management (CBM) Student Report, which indicate if an enrolled student has an IDD, will not be made available to the Education Research Centers as part of regular data requests unless this information is specified and approved by the advisory board established under Education Code 1.006 as relating to the research study proposed.

STUDENT FINANCIAL AID

4410
(Updated 7-11-2011 Local)

In order to provide educational opportunity beyond the high school level to the greatest number of people within the Clarendon College service area, the Board of Regents will adopt policies and direct the administration to develop guidelines and procedures for operating a comprehensive system of student financial aid. Under the direction of the Board of Regents, Student Financial Aid reviews and updates their policy and procedures manual annually. A list of available financial aid along with current guidelines and procedures is published in the college catalog and/or the consumer guide/financial aid manual.

Satisfactory Academic Progress (SAP) Policy for Financial Aid – The student must complete at least 75 percent of the hours attempted and have an overall college grade point average (GPA) of at least 2.0 on a 4.0 scale.

Student Appeals Process:

Students placed on financial aid suspension due to lack of satisfactory academic progress (SAP) may appeal the denial of financial aid if an unusual or extraordinary situation affected the student’s progression toward the successful completion of his or her program of study. Some examples of unusual circumstances include injury or illness of the student or family member, death of a relative of the student, maximum time limit

exceeded, or other documented special circumstance. The appeal must be submitted in writing to the financial aid office and must include supporting documentation. Appeals submitted without supporting documentation is considered incomplete and will be denied. The appeal must explain why the student failed to meet satisfactory progress standards, this includes, what has changed in the student's situation that would allow the student to meet satisfactory academic progress at the next financial aid SAP evaluation. An appeal may be approved only if the financial aid office has determined that the student will be able to meet SAP minimum standards after the subsequent semester. The financial aid office also has the option to develop an academic plan with the student that, if followed, will ensure that the student is able to meet financial aid SAP standards by a specific point in time. Students who are appealing the maximum time frame limit must provide a copy of their degree plan that has been signed by the students' academic advisor. The financial aid office will notify students in writing and/or email of the results in a timely manner after receiving all required/requested documentation. Students whose appeal is denied has the option to submit a second appeal in writing to the Scholarship Committee. The second appeal should be submitted to the financial aid office who will, in turn, submit it to the Scholarship Committee. The Scholarship Committee's decision will be final and will be reported to the student in writing and/or by email in a timely manner. Students who successfully appeal their financial aid suspension status will be placed on financial aid probation. Clarendon College can require that a student on probation fulfill specific terms and conditions, such as taking a reduced course load or enrolling in specific courses. A student on financial aid probation may receive financial aid for one semester only. At the end of that semester, the student must meet Clarendon College's financial aid satisfactory

academic progress standards or the requirements of the established individual academic plan to maintain financial aid eligibility. Failure to do so will result in the student being placed on financial aid suspension.

The administration of Clarendon College is directed to enter into agreements with appropriate agencies and/or individuals who may provide aid funds, and to comply with local, state and federal legislation enacted for the purpose of securing funds for use in providing grants, employment, loans and scholarships for deserving students.

STUDENT CONDUCT

4510

Each individual student is considered to be a responsible adult and is expected to act accordingly. Emphasis will be placed on standards of student conduct rather than on limits or restrictions on students.

A student's enrollment is subject to acceptance of standards of conduct which are developed and published in the Student Handbook, the College Catalog, and/or the Policy Manual, and which may be explained and clarified in other codes or statements prepared and published by the College. Non-compliance with these standards will be sufficient cause for suspension from the College. Authority for suspension of a student is vested with the Dean of Student Affairs or designee.

All applicable state laws and city ordinances are in effect and enforceable on the premises of Clarendon College.

The conduct of persons on the premises of Clarendon College must not interfere with the orderly processes and governance of Clarendon College.

Any violation of the ordinances and laws referred to above that occur on the premises of Clarendon College shall, upon conviction, be punishable by the same penalties provided for in said ordinances or applicable laws.

Clarendon College is an educational institution committed to the philosophy that a community college should open its doors to all citizens of its area who can profit from its educational programs. The Board of Regents and the College administration will not condone or tolerate acts calculated to disrupt the continuing educational functions of the College, or to deny to any person or persons their opportunity to participate in the educational program of the College.

Student demonstrations and similar activities including gang related shall be prohibited when there is evidence that may reasonably lead College officials to forecast substantial disruption of, or material interference with, normal school operations or approved school activities.

Students who participate in any prohibited activities described above are subject to disciplinary action, based on the severity of the violation.

The following procedures will be followed in case of an act that, in the opinion of the President of the College or his/her designee, threatens to disrupt the educational function or deny its benefits to any person:

- (1) The Dean of Student Affairs or a designated representative will request that those engaging in the disruptive act cease his/her actions immediately.
- (2) Should the disruption continue, the College administration may call upon appropriate law enforcement officials to restore order or obtain an injunction from proper legal authority, demanding an end to the disruptive acts, and will call upon the appropriate law enforcement official to present such injunction.
- (3) Thereafter, those persons continuing in the act of disruption of the educational process are in contempt of the court. Contempt of court normally results in whatever action is necessary to enforce compliance with the court order.

The role of Clarendon College is to encourage individuals of all ages to develop their skills and talents based on their abilities and interests, so that collectively they may contribute to the growth and development of this democracy. College policies, procedures, and regulations are formulated to promote an appropriate teaching and learning environment where each student has the freedom to learn and where the constitutional rights of others are protected.

The concept of rights and freedom, no matter how basic or widely accepted, carries with it corresponding responsibilities. Students, as well as other members of the college community, enjoy the same constitutional and civil rights guaranteed all citizens; at the same time, they are subject to the laws of the nation, the State of Texas, and the local community. All members of the college community have a strong responsibility to protect and maintain an academic climate in which the freedom to learn can be enjoyed by all. To this end, certain basic regulations and policies have been developed to govern the behavior of students as members of the college community.

Violations of student conduct regulations will be handled through the Office of the Dean of Student Affairs. Violations of federal, state, and/or local laws make a student subject to civil or criminal action in addition to disciplinary action by the College. Each student is responsible for knowing the policies and regulations of the College.

Freedom of Expression

The rights of free speech and peaceable assembly are fundamental to the democratic process. The College supports the rights of students of the college community to express their views and opinions on actions or ideas, to associate freely

with others, and to assemble peacefully.

Whether expressing themselves as individuals or in organized groups, members of the college community are expected to conduct themselves responsibly, according to law, and to respect the basic educational goals of the College. Accordingly, the College insists that free expression not violate the rights of others. Disruption of the educational process and functions of the College, or violation of law, would constitute such a violation.

Students wishing to assemble must complete an official request with the Dean of Student Affairs. The institution reserves the right to determine the time and location of such assemblies in order to ensure that the educational process is not disrupted. The use of amplified equipment is prohibited in student assembly and speech. The institution will not tolerate hate speech, defined as "...the lewd and obscene, the profane, the libelous, and the insulting or 'fighting' words – those which by their very utterance inflict injury or tend to incite and immediate breach of the peace."

(Chaplinsky vs State of New Hampshire, 315 U.S. 568, 1942)

Freedom of Access

Within the limits of its resources, Clarendon College shall be open to all applicants who are qualified according to current admission requirements. Clarendon College does not discriminate on the basis of race, creed, color, national origin, mental or physical disabilities, age, or sex in any of its policies, practices, or procedures. This includes, but is not limited to, admissions, employment, financial aid, and educational services, programs, and activities.

Freedom of Association

Students are free to associate to promote their common interests. They have the right to seek, through official procedures, and establish organizations of their choosing so long as such are not in conflict with the educational purposes of the College.

Students have the right to affiliate with officially recognized campus organizations of their choice, within the requirements of those organizations relative to membership.

Academic Rights of Students

The College has the responsibility of providing a program of quality education in keeping with its financial resources; students have protection through campus-designed procedures against prejudiced or capricious academic evaluation. Student performance shall be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards. Students are responsible for completing their academic program, being familiar with all requirements of the College Catalog, and for maintaining their grade point average for degree requirements.

Student Records

Student records are maintained in confidence and in compliance with the Texas State Library and Archives Commission retention schedule. Student records are used to promote the instruction, career development, guidance, and educational progress of the student. In accordance with the Family Educational Rights and Privacy Act of 1974, Public Law 93-380, as amended, the student has access to specific information contained in his or her official records as specified by that act. Student records may be released to other persons, agencies, or institutions with a demonstrated interest in the student only if a written release has been signed by the student. College staff shall

have access to student records when there is a demonstrated educational interest in the student.

Student Responsibilities

The Board of Regents of Clarendon College expects employees, students, visitors, and guests of the College to accept the following responsibilities:

- (1) Compliance with and support of duly constituted civil authority,
- (2) Respect for the rights of others and cooperation to ensure that such rights are maintained, whether or not one agrees with the views of those exercising such rights.

STUDENT APPEALS AND GRIEVANCE PROCEDURE

4545

The grievance procedure at Clarendon College shall serve two purposes: to determine whether an injury alleged by the grievant was the result of an error in the institution's policies and procedures or in their administration, and if an error is established, to determine an equitable redress for the grievant.

Grievable Issues

The grievable issues shall include selection and admission policies for students, a discriminatory action, racial or sexual harassment, along with policies for attendance, grading, discipline, extracurricular activities, and athletes. The purpose of the grievance procedure of Clarendon College is to insure to all persons involved fair and equitable treatment and to develop a clear documentation trail for each case arising out of institutional conflict.

Mechanism

When the grievant is a student of Clarendon College, this grievance procedure shall consist of the following sequence of events:

Informal Meeting

All grievances voiced by students of Clarendon College must first be aired in an informal meeting between the student and the college representative directly involved (i.e., teacher, coach, administrator). At this face-to-face meeting, a bonafide attempt must be made to resolve the issue(s) in question. It shall be the responsibility of the student grievant to:

- (1) explain fully the nature of the grievance,
- (2) when and under what conditions the alleged injustice occurred, and
- (3) what redress is expected.

The College representative (teacher, coach, administrator, etc.) involved in the dispute shall have the responsibility to:

- (1) hear the grievance,
- (2) make an honest attempt to resolve the issue, or
- (3) if resolution is not possible at that level, to refer the problem to the Executive Vice President of Academic & Student Affairs or designee.

It shall also be the responsibility of the College representative to document the meeting in writing to include the date, location, person(s) involved, issues discussed, and results achieved.

Student Due Process

When attempts at informal resolution of a student complaint have failed, a student may appeal a college policy or its administration in the following manner:

- (1) a written appeal, grievance, or complaint must be filed with the Executive Vice President of Academic & Student Affairs or designee not later than three (3) days after the occurrence of the event;
- (2) the written complaint must include at least:
 - (a) date of the incident (injury alleged by the grievant),
 - (b) nature of the grievance or the complaint,
 - (c) person(s) involved, and
 - (d) type of redress sought;
- (3) The Executive Vice President shall notify the chairperson of the Student Appeals and Grievance Committee of the complaint immediately upon receipt;
- (4) The chairperson of the Student Appeals and Grievance Committee shall set the date, time and place of a hearing to be held not later than seven (7) school days after receipt of the written complaint, and shall so inform the student grievant and all committee members.

Before formal charges are presented in cases where students may be suspended or expelled, students are informed of the following rights:

1. May be accompanied by the advisor of his/her choice. It is the policy of the College that legal counsel not become involved in such matters unless the case is handled in a court of law.
2. To be informed of the nature of the allegation, charges, or reports brought against him/her.
3. No person should be required to testify against himself/herself.

4. To present testimony or witnesses with respect to the complaint.
5. To be notified of decisions reached regarding his/her case.
6. To appeal the decision to the Student Appeals and Grievance Committee.

Additional information desired concerning the process or the procedures may be obtained by contacting the Dean of Student Affairs or designee.

Appeal to the President

All cases may be appealed by the student or referred by the Committee to the President. An appeal submitted by the student must be submitted to the College President within three (3) working days after the Student Appeals and Grievance Committee has rendered its decision.

Appeal to the Board

The final appeal may be made to the Board of Regents.

EDUCATIONAL POLICIES**

DIVISIONS OF INSTRUCTION

5110

Responsibility for instruction at Clarendon College is lodged within five broad interdisciplinary divisions. These divisions are listed below:

Division of Liberal Arts

Division of Science and Health

Division of Agricultural Programs

Division of Allied Health

Division of Career & Technical Education

EDUCATIONAL REQUIREMENTS OF INSTRUCTORS

5210

At a minimum, all faculty members (full- and part-time) at Clarendon College must meet and comply with the guidelines outlined by the Texas Higher Education Coordinating Board and the Southern Association of Colleges and Schools Commission on Colleges. Other requirements may apply.

OPEN DISCUSSION POLICY

5220

The Board of Regents adopts the position that in a world of rapid change and recurrent crises, a college best serves its community, not as a stronghold of rigid tradition, but as an open intellectual forum where varying opinions may be freely expressed and

freely debated.

The Board holds the following assumptions to be basic to college policy:

- a. That a free society functions efficiently only if its citizens have a right to discuss, to debate, and to agree or disagree constructively.
- b. That an educated citizenry, fully aware of all the evidence, is best able to preserve the valuable heritage of American-democratic institutions. The College has an obligation to its community to promote healthy discussion as an educative force.

Policy Statement

- a. The Board endorses the principle of open discussion and free inquiry on the College campus.
- b. The Board seeks to enlist a faculty whose members subscribe to high standards of professional conduct, who are specialists in the various subject matter areas, and who are fair and constructive in presenting ideas and issues to the students.
- c. The Board desires to foster in students a respect for differing points of view, the ability to discriminate between opinion and fact, and to think intelligently.
- d. The College may invite visits from outside speakers representing diverse points of view. In return, it reserves the right to impose specific conditions insuring that opportunity be provided for students to hear opposing sides of a question.

The vigor of any educational institution depends, in large measure, upon the quality, relevance, breadth, and timeliness of its curriculum. As the society and culture change, new courses and programs must be added and old curriculum components must be revised and deleted. Adequate curriculum development requires the commitment of all faculty members and the administration as well. It should be systematic, on-going, and well planned. The policy for curriculum development at Clarendon College is given below:

Responsibility

The Faculty of the College maintains ultimate responsibility for the assurance of quality for current instructional programs. The Faculty, in partnership with the Vice President of Academic Affairs and the Curriculum Committee, have responsibility for the development of new instructional initiatives. The Vice President of Academic Affairs will work with the faculty, the program coordinators, division directors, the curriculum committee, and others as may be required.

The Vice President of Academic Affairs shall work with the Division Directors, Program Coordinators, the Curriculum Committee, and the faculty to ensure that syllabi are updated on a regular basis and that this policy is implemented in an appropriate manner.

All courses taught at Clarendon College will be identified with a short narrative description or course description. This course description will follow a uniform format and contain the following information: Course prefix and number, course title, credit hours, number of lecture and lab hours per week, and the Texas Higher Education Coordinating Board approval number and a capital letter indicating the type of course (T) for Technical/workforce credit, (C) Core curriculum academic credit, (E) for Elective academic credit, and (N) for Non Transferable Developmental / Remedial. This information should be followed by a narrative description of sufficient length to describe the course content and other pertinent information. The final entry should list any

required prerequisites and/or co-requisites. Only the approved catalog description shall appear in the College catalog, program guides, the syllabus, brochures, or other college publications.

STUDENT LEARNING OBJECTIVES

5340

It shall be the policy of Clarendon College to state clearly what is expected of students, what the level of acceptable performance is, and how students will be evaluated for all courses taught at Clarendon College. Pursuant to this policy, instructors at Clarendon College are expected to develop a set of student learning outcomes including, but not limited to those described within the Academic Course Guide Manual specific to each course being taught. Further, these SLOs should align with the Core Objectives as stated within the Elements of the Texas Core Curriculum as written by the Texas Higher Education Coordinating Board. These course objectives and student learning outcomes shall be communicated through the course syllabus to all students enrolled in the course and available for inspection by all potential students.

TEXTBOOK SELECTION

5350

(Updated 8-16-2012 Local)

Courses taught at Clarendon College are generally supported by a carefully selected textbook. The same textbook will be used for all sections of the same course in the same semester - both on and off campus. Selection of textbooks therefore should be done cooperatively by all full-time faculty members teaching the same course. Where possible, part-time faculty members should also contribute to textbook selection

discussions. If no consensus can be reached within the department or the division, the Vice President of Academic Affairs will evaluate the disputed texts and choose the textbook.

When a textbook has been selected, instructors are expected to explain to students how the textbook will be used to support learning. Copying of materials for a class must comply with existing copyright laws and college policy.

The college virtual bookstore will order and offer for sale all student textbooks. Faculty members are expected to contact the Bookstore Manager for current publisher representative contact information in order to obtain "desk" copies, which are generally provided free to those teaching a particular course. Instructor resources are classified as controlled item; therefore, it is the responsibility of the faculty to obtain instructor materials directly from the publisher.

Once a textbook is adopted, the textbook should generally be in adoption at the College for a period of not less than three academic years. There are exceptions to this guideline, for example technology textbooks and textbooks which are no longer in print and are unavailable for purchase by the bookstore. The deadline for textbook requests for the Spring, Spring Mini, Summer 12 Week, Summer 8 Week, Summer Flex, Summer I & Summer II semesters is October 1. The deadline for the Fall, Fall Mid-Term, Fall Mini, & Fall Mini II semesters is March 1. Each semester all faculty members will complete a textbook selection form and submit it to their Program Coordinator. At the same time, instructors will indicate which existing textbooks will not long be used.

The Program Coordinator will coordinate textbook selection with all instructor within his/her program (including adjunct, dual credit, and online as feasible). The

Program Coordinator will then present to the Division Chair a textbook list making note of specific textbook changes. The Division Chair will propose to the Vice President of Academic Affairs a list of textbooks he/she expects to use in the following session.

An approved booklist will then be submitted to the Bookstore Manager. At this time, the Bookstore Manager will obtain availability information on textbooks and a “trouble title” list will be generated and forwarded to the Division Chairs for any textbook titles that maybe difficult to obtain such as out of print copies. The Division Chairs will discuss textbook options with Program Coordinators. Once a decision is made, the Division Chair will obtain final approval from the Vice President of Academic Affairs and promptly forwarded information to the Bookstore Manager.

All book changes whether changes in editions or in books will need to be approved through the Vice President of Academic Affairs. In order to ensure that all instructors (including adjunct, dual credit, online, and prison as feasible) promptly receive specific textbook changes will be carefully coordinated with Division Chairs and Program Coordinators. Textbook ordering will commence immediately upon final approval from the Vice President of Academic Affairs.

CLASS RECORDS

5360
(Updated 7-21-2011 Local)

Instructors maintain class records that support and document the student’s final grade, including accurate attendance records, within the College’s course management system. Instructors are expected to retain course records and class documentation for at least one year.

The record of work taken during the student's enrollment at Clarendon College is cumulative. It shows each course taken and the final result or grade for each semester of attendance.

Clarendon College maintains the following academic records on all students enrolled in credit courses:

1. A permanent record of final grades earned in each subject for each semester a student is enrolled at Clarendon College.
2. A record of withdrawal (voluntary or involuntary) from any subject in which a student has been previously enrolled. This record includes the last date of attendance in the course.
3. A record of all student re-enrollments in courses from which there was a withdrawal.

Academic records will be retained or disposed of in a manner consistent with the Clarendon College Records Management Policy and procedures.

Clarendon College provides a permanent record or transcript of courses taken and credit earned for all students officially enrolled.

Upon written request by a student, the Registrar's Office will send the student's transcript from Clarendon College to any college, agency, or individual named.

All financial obligations and admissions requirements to the College must be met before a transcript will be issued.

CONTINUING EDUCATION - RECORDS AND CEU TRANSCRIPTS

5415

Clarendon College will maintain a record and issue upon request a record or transcript of each individual's participation in a continuing education or workforce education program for which Continuing Education Units (C.E.U.) are awarded. The awarding of Continuing Education Units shall follow the Southern Association of Colleges & Schools Commission on Colleges' guidelines for the awarding and recording of CEUs (C.E.U.: Guidelines and Criteria).

Continuing Education transcripts will be maintained by the Registrar. The issuing of continuing education transcripts will follow the same guidelines and procedures as are followed for academic transcripts. At a minimum, the following information should be recorded on the CEU transcript for each course or activity a participant enrolls in:

1. Course number
2. Title of the course
3. Completion date
4. Number of C.E.U.s awarded
5. Grade, assessment results, or other indicators of satisfactory or unsatisfactory completion.

Continuing Education records will be retained or disposed of in a manner consistent with the Clarendon College Records Management Policy and Procedures.

When a student finds it necessary to withdraw from school before the end of the semester, he or she should obtain a withdrawal form from the Office of the Registrar. Students may also withdraw from the college by sending a written request for such action to the Registrar's Office. The request must include the student's signature, the student's current address, student ID number, phone number, and course names and numbers of the courses for which the student is currently enrolled. Students who withdraw after the census date for the semester and on or before the last day to drop a class of a term as designated in the college calendar will be assigned a grade of "W." (Please see Policy #5426 Limited Student Withdrawal).

Any change in a student's class schedule after registration and prior to the census date of the semester is accomplished by completing the official Add/Drop Form. Students must pay any applicable tuition and fees to the Business Office if they wish to add or drop a course during this period of time. No course(s) may be added after the date designated by the school calendar as the last date to add a course.

A student may drop a course with a grade of "W" any time after the census date for the semester and on or before the last day to drop a class of a term as designated in the college calendar. The request for permission to drop a course is initiated by the student by procuring a drop form from the Office of the Registrar.

International students and students receiving financial aid or veteran's assistance should see the appropriate college official before dropping or withdrawing from any class. Any student who is considering dropping a course is encouraged to contact his/her instructor prior to initiating a drop or withdrawal.

LIMITED STUDENT WITHDRAWAL

5426

TEC § 51.907 Limits student withdrawal from college coursework; Clarendon College will record and tally student non-completion (withdraw) of courses. Students are allowed six drops (withdraw) throughout their tenure of earning a bachelor's degree. Upon reaching the six course withdrawal limit a student will be required to complete the course and receive the earned grade. Each academic course or course combination (lecture / lab course combinations) will count one unit towards the six withdraw limit unless one of the following conditions apply:

- (1) Complete withdrawal from all course work; or
- (2) course work withdrawn from prior to the published day of record for each semester, mini-term, summer, or flex-term session(s), or;
- (3) course work withdrawn from while the student is counted as a dual credit / enrollment student prior to the students graduation from high school; or,
- (4) course work not eligible for formula funding; or,
- (5) workforce education courses or other courses that would not generate academic credit that could be applied to a degree at the college; or,
- (6) course work classified as ineligible for degree under the Academic Fresh Start program; or,

(7) course work withdrawals which are classified as “other good cause” as determined by the Associate Dean of Enrollment Services, or their designee, which may include but are not limited to:

- a. The student is seriously ill; or
- b. the student is responsible for a seriously ill / injured individual; or,
- c. there is a death in the student’s family; or,
- d. there is a change in the student’s work schedule beyond the control of the student.

A student shall be permitted more than six dropped courses if the enrollment is for a student who qualifies for a seventh course enrollment, who:

- (1) Has enrolled at the College following a break in enrollment from the institution or another institution of high education covering at least the 24-month period preceding the first class day of the initial semester or other academic term of the student’s reenrollment; and
- (2) Successfully completed at least 50 semester credit hours of coursework at an institution of higher education that are not exempt from the limitation on formula funding set out in 19 Administrative Code 13.104(1)-(6) before that break in enrollment.

CLASS ATTENDANCE

5430

Clarendon College believes that one of the single greatest predictors of student success is attendance. Therefore, students are expected to attend all classes in which they are enrolled. Class attendance is the responsibility of the student. It is also the

responsibility of the student to consult with all instructors when an absence occurs within the College's course management system.

Instructors are responsible for keeping an accurate record of class attendance and informing students of the importance of attendance. Students who experiences attendance problems, for whatever reasons, are strongly encouraged to consult with each of their faculty members as well as their academic advisor and/or counselor.

Each individual instructor is responsible for informing the students in his/her class at the beginning of each semester of the class attendance requirements and what constitutes excessive absences.

NOTE: An excused absence will not factor against a student's attendance record in any class. An example of an officially excused absence is pre-approved participation in a school-sponsored activity. However, even when an absence is excused, the student is still responsible for any material covered in class during the time missed.

GRADES AND GRADE POINTS

5435
(Updated 8-15-2013 Local)

The grades used in college reports and records are A (excellent), B (good), C (average), D (poor), F (failure), I (incomplete), and W (withdrawn). The lowest passing grade is D.

Grade point averages are computed by assigning point values to each grade as follows:

<u>Letter Grade</u>	<u>Numeric Grade</u>	<u>Grade Points</u>	
A	90-100	4	Excellent
B	80-89	3	Good

C	70-79	2	Average
D	60-69	1	Poor
F	59 and Below	0	Failure
I		0	Incomplete
W			Withdrew
CR			Credit Awarded

In calculating the grade-point average under the above system, a student with 12 hours of A's and 3 hours of F's would have 48 grade points divided by 15 semester hours, thus a grade-point average of 3.20 for the semester hours attempted. Under this system a student must have at least 2.00 for the "C" average required for graduation.

When a course is repeated, the highest grade earned will be the grade that will be factored into the student's cumulative grade point average.

In case of illness, death in the family, or other similar emergencies, a grade of incomplete (I) may be given. The Vice President of Academic Affairs shall have responsibility for developing guidelines and implementing appropriate procedures. If course requirements are not completed during the next long semester, the grade of "F" will be assigned and remain on transcript records.

GRADE REPORTS 5440

Permanent grades are recorded at the end of each semester on each individual student's official transcript. Grade Reports will be available to the student on-line after the end of each semester.

GRADE APPEALS 5441

Students who believe their grade is in error as a result of error on the part of the

institution or an instructor error may appeal their grade through the Student Appeals and Grievance Procedure. Students have 3 working days from the time grades are posted in which the course was taken to challenge the assigned grade.

WITHHOLDING GRADES 5445

Transcripts will be withheld if the student does not have all required student information on file in the Registrar's Office or if any financial obligations to the College have not been paid.

TYPES OF DEGREES AND CERTIFICATES 5450

Clarendon College offers the Associate in Arts Degree, the Associate in Science Degree, the Associate in Applied Science Degree, and Certificates. The requirements for each degree are listed with their respective programs.

A student who fails to graduate at the expected time and completes the remaining requirements at another institution may transfer up to 45 semester hours back to Clarendon College and graduate.

SEMESTER HOURS AND CREDIT 5455

The semester credit hours provides the basis for measuring the amount of engaged learning time expected of a typical student enrolled not only in the traditional classroom settings but also in laboratories, internships, studios, clinical, field work, experimental learning and in distance and correspondence education. Credit hours are

the common currency for academic credit used by colleges and universities to calculate, record, and interpret the number of credits students earn to fulfill degree, certificate, and other similar academic requirements. The value of a credit hour can be determined by contact time, the educational experience, and out-of-class preparation by the student.

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement, for the various modes of instruction offered at Clarendon College, in accordance with the following guidelines:

1. For traditionally-delivered courses during traditional long semesters, meet not less than one (1) hour each week during a traditional long semester, approximately sixteen (16) weeks. This includes not less than one (1) hour each week for approximately fifteen (15) weeks of direct faculty instruction, a minimum of two (2) hours out-of-class student work each week for each credit hour; plus additional contact hours for a final examination or final experience.
2. Face-to-face courses that are offered in less than a sixteen (16) week semester will consist of the same number of class contact hours as outlined in item 1 and shall have the same learner outcomes and quality of instruction as regular length semester courses.
3. At least an equivalent amount of work as outlined in item 1 above is required for other academic activities including laboratory courses, internships, clinical, field work, studio work, and other academic work that lead to the award of credit.
4. Online, hybrid and other nontraditional modes of delivery, may not meet the contact hours assigned above. In such instances, the semester credit hour is based upon the learning outcomes and estimated contact hours required to

successfully meet those outcomes. Faculty will review these courses to ensure that the learning outcomes and quality of instruction is equivalent to courses offered in a traditional manner.

5. In determining the amount of coursework to achieve learning competencies and outcomes, the college will take into account and consider alternative delivery methods, measurements of student work, academic calendars, disciplines, and degree levels.
6. Add block scheduling definition here.
7. These definitions and this policy pertain to all courses offered by the College regardless of location or mode of delivery.
