
OBJECTIVE

Credentials for the role of PHS Manufacturing Instructor with the Pampa Independent School District in Pampa, Texas utilizing my previous job experiences. My previous career was with the Celanese Chemical Company in Pampa, Texas for 20 years ending with the Plant's cease of operations. Since that time, I have been employed coordinating Capital and Maintenance Projects from construction to start-up operation for multiple green and brown field sites.

PROFILE

Before my high school years, I began to learn welding from my next-door neighbor, Mr. Don Jonas, who was a self-employed Pipeline Welder. I have continued to obtain extensive welding knowledge by performance and then management. I have experience in Oxy-Acetylene, Stick, MIG and TIG welding processes working with all types of metal from Carbon Steel to Stainless exotics. I would like to continue my career with an established and continually maturing organization that will utilize these experiences. I believe that Safety is a core value of any craft or task, my career mantra is "Accidents Do Not Just Happen, Accidents are Created."

AREAS OF PROFICIENCY

- | | | |
|-------------------------|-----------------------------------|--|
| ✓ Welder, Certified | ✓ Incident Command | ✓ Routine and Critical Crane Lifts |
| ✓ Electrician | ✓ Hot Work Certification | ✓ Honeywell TDC 3000 DCS Ops |
| ✓ Plant Operator | ✓ Planner / Scheduler | ✓ Safe Work / Hot Work Permitting |
| ✓ Microsoft Suite | ✓ Chemical Distillation | ✓ Incident Investigation / Reporting |
| ✓ SAP / CMMS Data | ✓ HAZMAT Technician | ✓ Materials Identification / Specification |
| ✓ HVAC Certificate | ✓ Root Cause Analysis | ✓ Preventative Maintenance Programs |
| ✓ Chemical Hygiene | ✓ Industrial Fire Fighting Rescue | |
| ✓ Turnaround Management | ✓ Confined Space Permitting | |

PROFESSIONAL SUMMARY

Pampa Independent School System, Pampa Texas May 2017 - Present

- Manufacturing Instructor Training and Teaching Grades 9-12 Introductory Welding Courses
- Teaching Advanced Welding Students Grades 10-12 Advanced Welding Courses per OXY-Fuel, SMAW, GMAW and GTAW

Open Range Engineering, Pampa Texas December 2015 – December 2016

- Contract Construction Coordinator to Cabot Carbon Black Pampa, TX
 - Built a Selective Catalyst Fume Reduction Column and new US Waters RO Water system
 - \$25 MM Project
- Contract TA Coordinator for Cabot Carbon Black Pampa, TX Spring 2016

G2X Energy, Pampa Texas July 2013 - November 2015

- Operations / Maintenance Manager
 - Construction to Commissioning to Start Up Coordinator for green field Methanol Plant
 - Project Coordinator for Infrastructure and Plant Utilities
 - \$120 MM Project

Open Range Engineering, Pampa Texas August 2012 - May 2013

- Contract Construction Coordinator to Cabot Carbon Pampa, TX
 - Coordinated construction, commissioning, start-up of two newly built Carbon Black Main Unit Filters
 - \$40 MM Project

Swift Technical, Borger Texas May 2011 - July 2012

- Contract Site Coordinator to P66 for the Swift Technical group employees, P66 Refinery Borger, TX
- Capital Construction Representative
- Neutral Cost Controls Coordinator between 3rd Party Contractors

First Baptist Church, Pampa Texas

November 2010 - May 2011

- Capital Campaign Construction Coordinator
- \$1 MM Project

Celanese Chemicals, Pampa Texas

July 1988 - October 2010

- Pro-Tem Plant Manager ensuring all Closure tasks completed Safely, On Time, On Budget and Environmentally compliant...~\$500 MM Project
- Site Coordinator Team Leader for complete Shut Down / Demolition ready
- Operations Maintenance Specialist (Gatekeeper)
- Chemical Unit and DCS Control Room Operator / Specialist

TRAINING / EDUCATION

Industrial Welding and Metal Fabrication, Basic Operator Training, Samples and Analysis Training, Concord Work Process, Flowserve Pump Seal's Training, Texas A&M Industrial Fire School, Oklahoma State University Fire School, ROCO Rescue Training, CPR, First Aid, Root Cause Analysis, Standard Operating Procedures, Process Hazard Analysis, Excel, Word, Power Point, SAP, Planning and Scheduling, Operator Assisted Maintenance, Vibration Monitoring, Ultrasonic Testing, Visual Inspections, Public Speaking and Presentation, Cost Reduction and Re-structuring, Forklift Training, Crane Flagging, SCBA and Respirators, Lock Out Tag Out, Four Gas Monitors, Heating Ventilation and Air Conditioning Certificate Frank Phillips College Borger Texas, Industrial-Commercial Electrical Construction
