Interests

- I enjoy all outdoor activities such as camping and trail riding with family.

Dedicated professional with a proven track record in Industrial Maintenance seeking to transition into an industrial teaching role, bringing practical experience and a commitment to student success, while seeking to contribute to the development of a highly skilled workforce through innovative teaching methods.

Education and Qualifications

- AAS** Jan 2003 - May 2005
Amarillo College, Amarillo
- I received my AAS at Amarillo College in the studies of Instrumentation and Electrical and also included studies in Control applications in the Industrial field.

Work experience

- Industrial Maintenance Instructor** Jan 2025 - Present
Clarendon College, Pampa
- Teaching and training students with the skills needed to maintain and repair Industrial Equipment and Systems in a classroom setting. Ensuring students get the full scope of the material by delivering lectures on the training material, but as well as in a lab/ hands on approach. Teaching the Safety aspect of the Industrial Maintenance field is primary to my teachings and making sure students fully grasp the dangers and how to avoid any accident.
- Maintenance Director** Jan 2024 - Oct 2024
Pampa Nursing Center, Pampa
- I was the Maintenance Director for the Pampa Nursing Center which is a 87 bed facility for elder care. I was in charge of all Maintenance of the facility which included electrical, plumbing, Hvac, and grounds keeping. I also made sure all Safety equipment such as the Fire suppression system and the automatic door locks stayed up to date on testing and ensured they stayed functioning. The record keeping for the facility was my duty as well to ensure we kept up to date. with the Texas Department of Health and Licensing.
- Maintenance and Operations Manager** Sep 2022 - Oct 2024
4H Investments, Pampa
- I Managed and Operated my extensive Portfolio in real estate rental which includes 9 residential properties and 3 Commercial properties. I took care of maintenance aspect of the properties such as plumbing, electrical, hvac, and full onset remodels when needed. I managed a team of 4 employees that worked under me to assist in the day to day operation of the company. I managed all budgets and financials for the company.
- I&E Craftsmen Supervisor/ Trainer/ Recruiter** Nov 2015 - Sep 2021
Phillips 66, Borger
- I started with Phillips as a I&E technician and shortly after received a promotion to I&E Supervisor. I had up to 15 craftsmen at any given time that reported to me. I ensured the day to day operations of the Phillips 66 Borger refinery stayed running 24/7 in regards to the Instrumentation and Control of the facility through the craftsmen. I recruited for the Instrument department at various colleges and work fairs for potential employees. I trained and brought all new hires up to speed on the Phillips mode of operations in regards to the Instrumentation and Electrical maintenance side.
- Construction Foreman** Jul 2011 - Apr 2015
J.E. Carlson, Pampa
- I was the foreman over 10 employees. I assisted with the project constructions of many gas compressor stations from the ground up until we left it running and operating. The job included all construction oversight and maintaining the budget in regards to manpower and cost efficiency. I ensured all blueprints, and drawings were up to date and everything was constructed per the P&ID drawings associated with the station.
- I&E Technician** May 2005 - Jul 2011
Celanese Chemical, Pampa/ Clear Lake

I started with Celanese as a I&E tech right out of school. I was a technician at the Pampa plant until its closure in 2010 where I was transferred to Clear Lake Houston Plant. At both facilities I maintained the same position which was to ensure the Maintenance and safe operations in regards to all instrumentation and control of the facilities. The facility ran 24/7/365 so maintenance was critical.
